METHUSSHEL

FOR 969 years Methuselah lived on this earth in perfect health and happiness. Wouldn't it be great to live as long? But this is one in a thousand scientists didn't have it.

They have discovered though, that you can prolong your life by eating the proper foods.

Milk, butter, cheese, and the yolks of eggs are the only foods that contain the wonder substance "Vitamins" which builds flesh, relieves and prevents dyspepsia, indigestion and other ills. Every man and woman can at least drink a pint of milk a day and be insured of better health.

FURTHER PRIZES FOR AMATEUR AUTHORS BY DES MOINES SOCIETY

Additional inducement for play writers to prove their ability is offered through an announcement made by the little Theatre society of Des Moines of an original play writing contest which is open to the people of Iowa.

Besides the contest which the University Players conducted last year, and the prize offered by the Ames Chautauqua system of Des Moines, this third contest is open to plays of any type or length and in this way makes possible the recognition of every type of talent.

The plays will be judged by a committee from the little Theatre society of which Mrs. James C. Hume is chairman. A suitable reward is promised by the society to the one of highest merit and in this way makes possible the recognition of every type of talent.

The contest which Mrs. Hume is chairman will be open to the people of Iowa.
