HORACK URGES VOTERS OF IOWA CITY TO SUPPORT COMMISSION-MANAGER PLAN HERE.

By Frank R. Horack

Department of Political Science

The following article, which will be submitted to the local and general managers in the political economy department of Iowa City for adoption, is one of the optional plans for city government which has been recommended by the State of Iowa for cities and towns that adopt it as their form of government. In its general principles the plan is based on the municipal authority of the Dayton charter. The commission-manager plan of city government has operated in the old county and county seat of a large city has been attempted.

The plan is in reality based upon the fundamental principles of municipal organization. Modern business will not get up out of the sweat of the mechanisms. The commission-manager plan, by conferring power and responsibility has made it possible for our cities to be administered according to the best standards of management.

Much depends on Manager

Citizens under the commission-manager plan of city government depends upon the character and qualifications of the manager. The adoption of the plan will create a municipal government of which it is certain that it affords a much better opportunity to produce good results than the system under which they are now competing. There is no reason to assume that we will not be able to secure the best service of a really efficient manager in as nearly as the actual condition of the Atlantic City from the Atlantic City to the Pacific and from the Great Lakes to the Gulf are being more or less fully administered under this plan. Whatever one of those who have fought the adoption of the plan the hatreds because of his meritorious work and after his retirement, one of the citizens of these communities.

Moreover, in some of these cases those have fought the adoption of the commission-manager plan have been his advocates and because of his meritorious work and after his retirement, one of the citizens of these communities.

The city-manager plan has been a success in Dayton, this year, the mayor and council type of city government which offers efficient, economical, and business-like administration. It could not under any circumstances give us worse administration than we now have.
GENEVA CLUB WILL HAVE CHARGE OF T. W. MEETING

The Geneva club will have charge of the regular meeting of the T. W. Club, February 26, at 4 o'clock in the liberal arts drawing room.

The program will consist of an ex-

plication of the work of the Geneva Club.

The Mayor and Council Administration of Iowa City has been "Govern- 
ning." $337,000.00 of the city debt was incurred to pay current expenses, 
overdrafts and deficits, the result of waste and inefficiency.

The City Manager Plan Provides: 
1. A commission of men elected at large to legislate and to deter-
mine policies. 
2. A chief administrative officer, an expert in municipal adminis-
tration, who may be an engineer with executive experience and 
ability or an experienced man who has been prepared for the city 
management profession by one of the public service 
schools such as those at the University of Michigan, Western 
Reserve University or the New York Bureau of Municipal Re-
search. 
3. He will spend his entire time as expert advisor of the popularly 
elected commission, will make plans, prepare estimates, and ex-
ecute those plans after they have been approved by the populis' 
representatives. His professional standing depends upon his 
efficiency record. 
4. Subordinate administrative officers will be appointed because 
one must assume the six missions which a city government must 
perform. 

The City Manager Plan is in successful operation in 140 cities in the 
United States including, Dayton, O.—Jackson, Mich.— Dubuque, 
Ia.—Waltham, Mass.— Cadillac, Mich.—Grand Rapids, Mich. 
Newburgh, N. Y.—San Jose Calif.—Springfield, O.—Wichita, Kan. 

The opposition has attacked a student open forum debate which was held 
at the University Friday. The topic which presented argument against 
the adoption of a manager plan was coached by and got its materials from 
those citizens of Iowa City who are opposing the plan. The handbills 
and newspaper advertisements of the open forum invited the opponents of 
the plan to present their case. The decision in the debate was rendered only 
on the merits of debating and indicated nothing regarding the merits of 
the question. This committee has made it a policy to avoid stirring up the 
ext-anonymous, the two-guns philanthropists. The opposition has found 
it no little opportunity to use it, that as a last resort, it attacked a student 
activity which aimed only to render a community service through open 
forum discussion.

Spring Round-Up
In Full Swing

The new model suits pull the crowd.
You must see the long graceful line of the trousers and the drape of the coat from the shoulder.
And the colors this season—blues, browns, greys, greens, mixtures—make you feel that winter is over just to look at them.
Nothing but all-wool materials, either.
As for price—you could scarcely find them for twice as much a year ago.

Englelert Theatre
Thursday, FEBR. 17th
AS PLAYED FOR ONE SOLID YEAR AT THE VANDERBILT THEATRE—NEW YORK.
THE VANDERBILT PRODUCING CO., PRODUCERS
THE SMART MUSICAL COMEDY
