PERKINS CHILDREN READ MANY BOOKS FROM THE LIBRARY

The library at the Perkins hospital is just completing its thirteenth week of existence. There are 125 books issued by the hospital and twenty scrap books that were sent to them at Christmas time.

According to the records kept by Agnes M. Johnson, all of Waverly, librarian, there have been 561 books issued. Every Saturday morning Agnes Johnson and her assistant Rawlins G. Blake of Grinnell, visit books to the children in the hospital. A strict record of books given to each child is kept and a talk is given to them on how to take care of the books.

A tea cart loaded with books is wheeled into each ward but the children must produce the book he had before receiving another. The confusion that exists when this pile of books appears is striking. The children are so anxious to get books to read they make a great deal of clamor. The older boys like Tom Sawyer, also the books of Ernest Seton Thompson and Rudyard Kipling. The girls have the Glint books and the little children enjoy fairy stories and animal books. In connection with the hospital library a story hour is conducted on Saturday afternoons in the boys’ dining room. Agnes Johnson has charge of this too. There is a good attendance at these but unfortunately the bed patients cannot enjoy them. It is hoped that story hours can be conducted in the wards for the other patients.

MARCH FRIVOL WILL
BE PLACED ON SALE
BY W. A. A. TOMORROW

The March number of Frivol, University humorous magazine, will be placed on sale in all colleges tomorrow. Frivol had been advertised to appear on the stands last Wednesday but difficulties arising during the preparation of the paper caused a delay. The March issue, like previous ones, is expected to contain in the pages of this issue of Frivol, the magazine the life, wit and levity which have been advertised for the four days' delay, according to Warren L. Bassett, editor-in-chief.

The Frivol staff endeavored to carry on during the delay, but to no great extent. In the pages of this issue of Frivol, the magazine the life, wit and levity which have been advertised for the four days' delay, according to Warren L. Bassett, editor-in-chief.

MILITARY DEPARTMENT
ADDs NEW COURSE IN
GROUND SCHOOL WORK

The course in elementary ground school work instituted by Lt. Col. Morton C. Brown in connection with the University Aero club has proven very popular with the twenty-five sophomores R. O. T. C. students who elected to take it.

The lectures on aeronautics have already been completed and ten more lectures remain to be given. Lieutenant Col. Brown announces that the remaining courses will be open to any students who are interested. It counts for one hour of other military work. The remaining courses will consist of a series of "Theory of Flight" by P. H. Shurley, professor of physics, "Meters" by Howard F. Gordon, Jr., and "Photography" by Lloyd E. Anderson III of the 34th Division.

Arrangements have been made with a local aviator to put on an exhibition flight to demonstrate some of the possibilities of the aeroplane. It is the intention of the R. O. T. C. Department to secure if possible an aviation unit to perform in connection with the R. O. T. C. attachment here.

A SPRING TONIC-YOU'LL
Feel Better After Taking

Remember way back when they used to give sassafras tea for a spring tonic? Do yet, probably took one yourself. Not near the pep in that good old fashioned remedy as you'll get out of one of these new good-looking Spring Suits of ours.

Better buy two this time, one light for day time wear and dark for evening wear. You'll be sure to feel good night and day.
