Thirty Candidates Create Keen Competition On Spring Squadron

Captain Croy, Ichabod Richardson, Draper, and Anderson, Regulars of Captain of the Daily Lowan from basing Point—Raly of the Lowan.

Coach Ackerman, with a fine line up to bat, expects the squad to do well tonight. The team has been working hard during the winter, and everyone is looking forward to the spring season.

Coach Ackerman refuses to comment on the progress of his team. He says he will not comment until after the first game of the season.

In the meantime, the team will be working hard to improve their skills. The coach has high hopes for the team this year.

TWENTY-EIGHT WOMEN ARE REGISTERED AS PROFESSIONAL WORK.

Twenty-eight women are enrolled in the professional class of this college; nurse in pharmacy, eight in medicine, seven in law and one in dentistry.

The Grinnell study recently organized in the college of pharmacy in the women majorette of that department.

Madeline White; the president of the club and Hazel Knopp-Erik of Eagle Grove is the pres-ident between.

The medical college has two produc-tions women, three nunnery and three nurses. Jane Gula is the medical secretary here, Florence E. White, a capable and long years here, says that although she has not decided whether she will follow med-

ical work entirely or not. She must finish her course for she has applied her work so much.

Gatsonia Woman House is the only minor, there is a janitor, Miss Tyler of the house and the other a maid.

The women have a local society Lambda Sigma, of which Gatsonia has in profusion, but at present none women's law sororities have been able to gain the rank. They are Kappa Beta Pi and Phi Delta Delta. There are sufficient number in Lambda Sigma in profusion for one of these.

The women in the law college are particularly enthusiastic about their courses, all of them intend to practice law. They seem to have kept their interest in fancy affairs, and in fact their favorite topic of conversation seems to be "Want to Wear." The House of Youth.

WOMEN'S ASSOCIATION IS WORKING TO GAIN STUDENT GOVERNMENT

The women's association, the only organization consisting of all the University women, is in fact, heading better to prepare for student government in case of the University, according to Miss Violet Hybrid, social assistant of the dean of women.

The association has recently conducted the organization of all the honors in Iowa City where more than five women are set orienting. The students elected a house president and made their house rules. The women's entertainment, the party for Pepper-president who was the president of the University and various other social affairs illustrate some of the ways in which the association has tried to create a friendly feeling among the women.

The point and purpose systems have been under the close supervision of the organization of this. The former is an attempt to prevent any one student from participating in too many extra-curricular activities by assigning so many points to each and restricting the number which a student may earn.

The regular Sunday afternoon dances have been successful according to different members of the association. The proceeds are paid for regular dances.

This meeting two delegates will be sent to the meeting of the middle western association of the student government associations at Madison, Wisconsin. Representations are sent from the women's organizations on campus.

FOUR STUDENTS PLANNING TO TOUR EUROPE THIS SUMMER

Several University people have signalized their intention of spending next summer on a tour through Europe and the Near East, which is to be made possible by funds that have been set aside by the department of music for language courses. Those who have already contracted their arrangements are: Mrs. H. B. Kelly of Waterloo and her mother, Mrs. H. B. Kelly, Emma M. Wezley, and Miss Iowa City Margaret Young.

Two secretaries of Mecca are withheld

The engineer's parade on Saturday of Mecca week is to be given in the park by the students. The main event is to be the parade of the students. Two secretaries of Mecca are witheld.

MANY CHANCES TO WIN HONORS

Eleven Organizations Open the Students With High Grades

Ability in some chosen field of intellectual endeavor has long been recognized and suitable honor given to the student having this ability, by election into membership of some honorary organization. The student at Iowa finds eleven such fraternities to which he may, by the proper qualifications, be admitted. Most of the honorary societies have been formed after Phi Beta Kappa, the oldest of all Greek letter organizations.

Phi Delta Kappa was organized in 1909, with the name Phi Delta Kappa Mu and later changed to Phi Delta Kappa in 1910. It is primarily for students in the educational department. Ten Beta Pi was established in 1909. Its purpose is to confer distinction upon those students who have maintained a high grade of scholarship and to foster a spirit of liberal culture in the engineering students. A. I. E. E.'s honorary society for electrical engineers, was founded in 1915. Membership is based on activities. Twelve men are elected each spring from the senior class. Theta Sigma Rho, women's journalism society, was established here in 1916. Its primary purpose is to recognize ability among women students specializing in journalism.

Orders of Alpha and Phi Beta are among the oldest recognized honorary organizations. Alpha was organized in 1850, and Phi Beta in 1826 for men. This year, the women's organization, Alpha Delta Kappa, was established here last year. It is an honor to women in the educational department.

Alpha Omicron Pi was organized in 1910, with the name Alpha Omicron Pi Mu Mu and later changed to Alpha Omicron Pi in 1916. It is primarily for students in the educational department. Delta Sigma Pi, women's sociology society, was founded in 1916. Its purpose is in order to confer distinction upon those students who have maintained a high grade of scholarship and to foster a spirit of liberal culture in the engineering students. A. G. E. A.'s honorary society for physical education students, was founded in 1915. Membership is based on activities. Twenty men are elected each spring from the senior class.

Theta Sigma Phi, women's journalism society, was established here in 1916. Its primary purpose is to recognize ability among women students specializing in journalism. Theta Chi, established here in 1917, bases its membership upon high grades in economics.

Betta Gamma Sigma, for conservative students having high grades, was established here last year. Alpha Omicron Alpha, medicine, was established here last year. It is an honor to medical students in the educational department. Membership is based on high grades and personality.

RATS AND BALLS

TELL OF SPRING

Spring is here! Oh, so, isn't March the best yet, but didn't you see that little bluejay this morning on your way down town? There was that little boy strutting around in stilts. You never got out your harness, sails, leather and wood until the boys were returning, did you? The high school youngsters are starting to roll hoops; their roller skates glisten like break dance room window. After school the boys head for their old pads and bats and balls and kite down in that vast lawn while the girls stand on the street corner and talk about their date for the junior-senior party. And the men drum the natural science and liberal arts building—'they're all full of teen-agers and women talking about the green grass, canceling, and going home for spring vacation. Surely spring is here.
