ENGINEERS' SHOW

By Bruce Gould

No one will ever be able to convince me that one can be a bright and inventive seeker of truth without being a knave. As a writer after having expressed the opinion, in regard to their recent conduct, of some of the more..."...

The Antioch plan is the idea of Amanda E. Morgan, an engineer who works for the company. He proposed to draw a number of manufacturing plants, office buildings, etc. which would be connected to the college and make them part of the college. These plants would be run by students, who would be paid for their work. The course would extend over six years.

The Antioch plan is the idea of Amanda E. Morgan, an engineer who works for the company. He proposed to draw a number of manufacturing plants, office buildings, etc. which would be connected to the college and make them part of the college. These plants would be run by students, who would be paid for their work. The course would extend over six years.

It means a plausible scheme, and in the case of Antioch, it will probably pull a remote little college into the main stream of life. Only a few little questions might be considered before such a scheme is put into practice. The plant might result in an outbreak of the most convict nature. Sometimes such projects appear to be as practical as the theoretical. It seems incredible that such projects should be possible.

Robert T. Kenworthy

Two years ago Miss Paisley, now Miss Allen and Miss Dickinson, founded the Zetagathian literary society which will be present at the 23rd annual meeting of the Zetagathian Literary Society.

When you put money in a bank you are mighty sure the bank is a safe place.

Be equally as cautious when you go to place your money with a merchant.

Put it where you can feel it is not spent, merely on deposit, awaiting your verdict that the transaction has been satisfactory to you. That is the way we want you men to feel about the money you leave with us for clothing or furnishing goods.

CEDAR RAPIDS, IOWA
Society Brand Clothes

An Event of Importance

Unique in the merchandising of clothing in Cedar Rapids will be this store's clothing exhibit next Friday and Saturday.

Friday, March 18, from noon until 5 O'clock

Saturday, March 19, All Day

On those days, two young men from Chicago will depict in our windows the new styles in men's clothing. They will wear Society Brand Clothes. We say this exhibit will be unique because in no other way can the men of Cedar Rapids learn as quickly and as readily what is correct in men's attire.

This exhibit will cost us a great deal of money but we feel that the information that our friends will secure from it will repay us. We want our customers to know what is being worn by correctly garbed men throughout the nation.

The showing of these accepted clothes in our windows next Friday and Saturday will take little of your time. After you see it you will have a keener appreciation of the quality standards of our store.
