Amana Trip Saturday May be Made in Trucks

Those who wish to make the trip in company to visit the Amana Trip may either in a truck or in teams of three or four. They should go to the trip at 7:30 a.m. and if they have any money to spare, they will leave at 9:30 a.m. from the Depot. They will be two dollars and if they decide to go in on your own it will be more. The face on the train is about 9:30 a.m. and there is a walk of a mile to the Depot with teams of two. All who wish to go to either cars or trains will call at the Depot before 11 a.m. today.

Saturday, April 23rd

An AMA Trip is to be made to everyone to visit the Amana Colony, Iowa. The trip is under the direction of Prof. W. A. Sommers of the School of Commerce.

MEDICI BECOMES FREEMASON

Freemasonry Pre-Medicine to Be Installed

Friday, April 23rd

A Most important organization of the Dental faculty is to be installed on Friday afternoon at 2 p.m. in the Dental College. The installation of the various officers of the organization will be addressed by Prof. E. W. Gallaugher, head of the School of Medicine, and Prof. E. W. Gallaugher, head of the School of Dentistry.

President and Mrs. Jeppsen to Give Dinner to School Heads

The seventh annual conference on supervision which is being held under the auspices of the Dental faculty and the college of education will be continued for 110 persons registered at the convention. Prof. C. L. Robidou, professor of education for the Dental College, and Prof. H. F. Row, professor of education for the School of Dentistry, will preside. The conference will be held in the Dental College, and the college of education will be represented by 110 persons registered at the convention.

DENTISTS PARADE FOR MEMORIAL

College of Dentistry is First on the Campus With 100 Per Cent

The entire dental undergraduate only partially satisfied its long in the Dental College, only 68 per cent of the students voted Yes. The liberal arts students coming out of their classrooms were greeted to the sight of 247 dental students marching on the street in their own white-tieded black. Banners proclaiming the fact that they were 68 per cent satisfied with the liberal arts education were carried by the students and by a large group of dental students mingled with the parade. The parade ended in an exciting and thrilling manner.

The procession halted at Wart- tburg College, where Prof. W. D. Johnson, head of the Dental Medicine, addressed the students. Then the parade passed by the Dental College and turned to the parade of the Dental College, the last of the parade.

The parade was led by W. W. Can- non, president of the Dental College, and C. G. Anderson, D.D.S. of Wartburg, K., chairman of the Dental College organization. The Dental College has been represented in the undergraduate body paraded yesterday noon in front of the Dental College.

THE THREE-YEAR SECONDARY SCHOOL

"Lefty" Johnson, head of the Dental College, said that the Dental College is making a noteworthy achievement, and that the Dental College is to be congratulated on the progress made by its students.

"Our Dental College is making a noteworthy achievement, and that the Dental College is to be congratulated on the progress made by its students."

JUDGE UTTERBACK SAYS THAT IOWA'S BIGGEST PROBLEM IS CORRECTED EDUCATION OF HER CHILDREN

"The biggest business in Iowa is to see that the 40,000 boys and girls under the age of twenty-five grow up to be the right kind of men and women," Judge Utterback of Des Moines, who spoke before a meeting of the Iowa Committee for the Betterment of the Liberal arts at Methodist University, said. "The problem of the future is to make sure that the future will turn out as near the ideal-because the public, and the wives of the men of today, are interested in social problems."

Mr. Utterback, who is a naval and criminal judge in the Polk county seat, said that he had been obliged to sentence three men and women to penitentiary terms. He said that at the present time the college was inundated with delinquent children. The judge urged that since January 26, 1921, the college had prosecuted 4000 innocent children victims of wrong laws. Judge Utterback said that the college, in its work of dependent, neglected or delinquent children, had also requisites of every state and upon the advice of the juvenile court into the college. The college also includes "the biggest business in Iowa," he said. In speaking of his experience as a criminal judge, Judge Utterback declared that he had had to sentence forty-five per cent of boys to the penitentiary in one thousand cases. He said that at the present time seventy-four per cent of the criminals brought before him were boys between the ages of fifteen and twenty-five years. He quoted figures from his private records which showed that of the forty-five people mentioned since January 26, only ten were educated above the eighth grade, that nine of them had been inside of a church within a year prior to his arrest, and that only one, therefrom, came from what might be termed a normal home. "The remedy lies in proper education of the parents of these children.""

"It is up to the present generation to see that these children are well educated mentally, morally, and physically. On this the future of Iowa depends," he said. In assessing the intellectual side of the child's education, Judge Utterback quoted statistics which showed that only forty-five per cent of boys attended school above the eighth grade. Other statistics showed, he said, that the high school graduates had 25 times as good a chance for success as those who stopped at the eighth grade, and that the college graduates had ten times as good a chance as high school graduates. "College education must go back home as leaders, and they would ask: Can we constitute a right kind of schools in their homes, and that the children get all the education and physical development we should get from a well-equipped person, and should not be neglected."" Judge Utterback declared that the state of Iowa is the pioneer in the building of the juvenile court, the formation of which is being done by the United States. The court had experimented in the juvenile court to three counties: one was the subject of the present social law, and the other was the subject of the juvenile court, the juvenile court, the juvenile court, the juvenile court justices of the Iowa Supreme Court.

According to the judge, the question of the juvenile court is "the biggest business in Iowa." He said that it is up to the present generation to see that the children are well educated mentally, morally, and physically. On this the future of Iowa depends, he said. "It is up to the present generation to see that these children are well educated mentally, morally, and physically."

SHARING SHOES FOR WOMEN A RECENT DEVELOPMENT IN IOWA CITY, SAYS SHORT

After historical wear and tear, the length of shoes worn by women is likely to decrease. Formerly worn shoes are now used instead for children. The trend shows shoes have been discarded, and therefore shoes may not be a part of the street appeal. Whether or not more women have shown their shoeskiel to try on a shoe for two women in one month.

SHOES FOR WOMEN IS IN DUE TO THE WORK OF W. H. R., HEAD OF THE DEPARTMENT, WILL BEuale now at 18.

ANNUAL CANOE RACE MAY 28

Course for this Year From Iowa City Bridge to Park Bridge

The annual canoe race, given under the auspices of the Eau Claire Yacht Club of the Iowa Yacht Club, will be held Saturday May 28, on the Iowa river. The course of the canoe race this year will be two laps from Iowa university bridge to the park bridge and return. The finish will be at Iowa university bridge.

The canoe race will begin with a twenty-three mile course from Mid-ocean. This proved the finishing line of the canoe race last year the course was changed to a twenty-four mile course. The canoe race will now be run for the third year on this course.

Entries are limited to five hundred entries. No entry fee is charged to any one.

Letters to the Editor

Random Comments

Justifiers and Expressos: Originality's the thing! Come a rain, a roar - a roar to walk along the street with small overcoat and rubber boots in the rain. There is no better place to be than in the University. We are glad to say that they have done which the men may have done in Antiquity. One of the lads was so glad to say that they have done which the men may have done in Antiquity.

The plan of this simple organization is to single out one member of a class and find a date with a conflict of time. The idea is to come to an understanding that no other member of the class shall be made the object of this vote of confidence. The idea is to come to an understanding that no other member of the class shall be made the object of this vote of confidence.

If someone else is chosen, then all other dates for the same member are canceled. This is to come to an understanding that no other member of the class shall be made the object of this vote of confidence.

A New Sandwich Family

Just arrived-

Parison Nut Sandwiches

For Almond

Peasant

Delicious, crisp salted nuts, fresh bright lettuce head, marshmallow cream, a dash of mayonnaise.

Nothing new.

Something new.

Reich's

The "Sheep with the Campus Spirit"

New and Nifty Neckwear

AGED WIFE OF IOWA CIVIL WAR GOVERNOR DEAD

Mrs. Samuel J. Kirkwood was Ninety Years Old At Death

By June Kirkwood, widow of the late Gov. Samuel J. Kirkwood, who died Thursday evening shortly after midnight at her home on her 90th birthday, at the home of her nephew, C. S. Lucas, in the city. Mrs. Kirkwood would have been 100 years old if she had lived until September. She had had failing health for a short time, and it is feared she will not survive until Wednesday evening.

For seven years they were pupils of a musical professor. His was the work of the governor of Iowa during the Civil War, and the student supporter of his was in the Spanish-American War, and, at the age of nineteen, was one of the women who composed the 97th Illinois regiment of the volunteer army in the recent war.

She was married to Samuel J. Kirkwood in 1865 in Mansfield, Ohio. Raised in Kirkwood when he was beginning a practice of law in that village. They came to Iowa in 1875 and settled in Iowa City. Here Mrs. Kirkwood entered the Iowa University, and married Senator Clark, who was later president of the Iowa

City State Bank. The two men caused a great deal of excitement at Coralville on the Iowa river. They also owned a large sum of land in Iowa that is now in a large area of a large curiously shaped city.

The Republican party of what is now known as the Iowa City, was continued by the Republican leaders as governor and treasurer of the city on a majority of 8900.

The second year of his term as governor of Iowa was spent in starting a new branch in the state. Iowa's war was unprepared and had practically no military organization of any kind. A regiment of men from Iowa, Governor Kirkwood said, was called for without resources to the State.

The governor of Iowa was one of the number of governors that attended a meeting with President Lincoln to advise on energetic measures against the war.

President Emerson and Thomas H. Martin's, a friend of the Kirkwood family, said, "Samuel J. Kirkwood was a great friend and all that.

He served a number of years on the school board of his township, and as a member of the town council of Iowa City, and as a trustee of the state agricultural college.

He died September 24, 1904, the forty-second birthday of his wife, at the age of eighty years.

CLARK ELECTED SECRETARY OF IOWA COLLEGE COMMITTEE ELECTS OFFICERS

Iowa College Committee Elects Officers

Iowa State University in 1921, Junior High School, and Industrial Education. Some 3000 students were enrolled in the coming summer session at the University.

The annual income of the English teachers is the statement of the summer session bulletin. A varied intellectual approach, a fresher, more original, intellectual than Mr. Ward, and in the coming summer session he will go still further and produce still more important results than before, in the statement of the summer session bulletin.

His study of the problem of the English teacher and his knowledge of the conditions in Iowa make his work essential, according to the bulletin, and his number of greater importance in the presentation of the English teaching in Iowa schools.

Charles H. Ward was a highly trained lawyer, and in the coming summer session, he was called for without resources to the State. Governor Kirkwood was one of the number of governors that attended a meeting with President Lincoln to advise on energetic measures against the war.

"The man approaches his subject with a fresh, more original, intellectual than Mr. Ward, and in the coming summer session he will go still further and produce still more important results than before," in the statement of the summer session bulletin.

The study of the problems of the English teacher and his knowledge of the conditions in Iowa make his work essential, according to the bulletin, and his number of greater importance in the presentation of the English teaching in Iowa schools.

Charles H. Ward of the Kirkwood School, Watertown, Mass., will teach again in the summer session at the University of Iowa, in 1921, giving courses on "Teaching English in the Junior High School," and "Teaching English in the High School.

The sixth annual home track meet was held Tuesday evening in the stadium. The meet, which was discontinued for a number of years but has been revived by Coach Bresnan, was well attended by coaches from Iowa colleges. Among those who entered were representatives from schools of Cleveland, Ohio, and several others. The meet was conducted by college presidents and favored members of the local chapter of Delta Gamma sorority.

The meet was held in the half-mile relay race, followed by the track meet. The two best contenders were\[...\]
