4. The policy of the chapter declaring as initiated new members for the purpose of relieving themselves of their scholarship record does not meet with approval. Where chapter members fail to declare as initiated new inactive men, the branch society must notify the student to declare himself and be chaperoned to the business committee of the Interfraternity conference who shall determine his status and shall make recommendation to the dean of men as to whether or not his grade should be considered for the scholarship report of the fraternity. The business committee, however, is empowered to use its own discretion as to what constitutes inactivity similar to what does not constitute with the constitution of the chapter.

5. Names of pledges must be corrected to the dean of men not later than one week from the date of declaring. Written notice of the dropping of pledges must be forwarded to the office of the dean of men immediately after each action is taken by the chapter.
