AN APPRECIATION

While we are giving space to those who have taken active part in the work or play connected with the University High school, we could not consider ourselves complete without giving some mention to our principal. Mr. M. C. DelManzo has given devoted, devoted all the advanced courses, University High. In cooperation with him throughout the year, we have been very much indebted to the help of the faculty. Although we are hardly able to reach of individual instructors without mentioning every one of them, suffice it to say that when we come to giving the knowledge to our beloved books, and teaching the universes, U. High's teachers have certainly done their part.

HOW, WHEN AND WHERE

Why, and when, and where did it happen? What publica- tions would express it? "You remember what happened?" when High held seminars in the physics building with Miss Amsdell, has been pointed out. Name of the other prominent courses of that time, many even given in the physics building, is "stuffed-up" with those problems that confronted physics as the one where our school has learned that it is not worth while to turn the pages of history and listen to the facts in the case?

When in the days of the University High School were enrolled, Miss Eddy named principal, and Mr. E. C. Lewis director. The seventh and eighth grades, as yet not raised to the dignity of being regular members of the junior high, flourished in the basement of the Liberal Arts building with Miss Alice Carter as their instructor. "Brothers of Angels" and "A Garden of Flowers" were the songs the "Old High" singers selected from the U. High Choir Catalogue.

The proceedings were as follows:

1. "Dry Eye Year End Song"
   Miss Underhill
   "Brothers of Angels"
   "A Garden of Flowers"

2. "Papal Song"
   Miss Klingaman
   "The Kings" DINNER PARTY"

3. "White Hair on His Friends"
   Robert Claffey
   "Nathan the Wise"

4. "I Don't Care"
   William E. Ford

5. "Laddie"

6. "The Man With the Maker's Mark"
