COASTS’

THE COAL SITUATION

Apparently very little progress has been made toward a settlement of the coal strike. But it will be settled, either by the contending parties of by the government. If, however, settlement is delayed too long, a “run away market” with consequent high prices is apt to result.

Our Advice

Place your orders with us now for delivery as soon as possible. We do not know what the prices will be but will advise you before making delivery. We shall have to place our orders early with the opera­tors. You should place yours with us at once.

Get In Line

There is some advantage in placing your orders early. When coal begins to come in, we shall make delivery on orders in turn. Early buyers are apt to get better coal and a lower price than those who wait until conditions become congested and the scramble for coal has begun.

Nothing Lost

In case the strike is settled soon you have lost nothing in placing your order early. Play safe. Order now.
