ENGINEERS
GET HIGHEST SCORE

Hawkeye Men Lead Other Universities in Meet

Six Iowa athletes, competing individ­ually in the first annual Fourth of July track meet which ended Sunday, showed off their best running and jumping. The Hawkeyes scored 71 points and placed first among 129 of the best from any other college in the nation.

Athletes competing from Kansas- Kansas City, Illinois-Chicago, and Nebraska-Nebraska, placed second, third and fourth, respectively. From 220-yard low hurdles in 21-8, with Crawford leading, to the 440-yard low hurdles in 53-5. The Hawkeyes also placed second in the mile, with SOAP running it.

The Hawkeyes were especially strong in the half-mile running as it is.

The races started in July, placed third in the 100-yard dash. This was third in the pole vault.

While riding with friends in a rural field north of town Tuesday afternoon, Prof. Joseph H. Mooney, associate professor of English at the University, fell from his horse and broke his collar bone and two fractured ribs. The horse fell while galloping, throwing Prof. Mooney, who was taken at once to the University hospital where he remains for three days. Prof. Mooney is very weak but getting along

DUNLAP WILL LEAVE JULY 8 FOR NEW YORK

Prof. John B. Dunlap of the college of engineering will leave for New York July 8 for the purpose of making a personal election permanent secretary of the American Institute of Electrical Engineers, which will open at a meeting of the society in Chicago July 11.

It has a membership of between ten and eleven thousand, with a board of directors of twenty-five members. Prof. Dunlap will be located in New York City, at 21 West Street.

Dunlap's permanent headquarters will be in New York but his work will necessitate frequent travel. He will stay at least one year the thirty-four annual sessions of the society in this country.

ENGINEERS TO CONDUCT RADIO EXHIBIT THURSDAY

The department of electrical engi­niering will give a wireless exhibit in Thursday evening, April 6, room 19 in the basement of the physical building. From 5 to 7 p. m., there will be received a wireless telephone program, from 6 to 7 p.m. by Prof. Arthur H. Ford, head of the electrical engineering department, exhibit and some of the network equipment to be imported.

DEVINE WRITES ARTICLE

Asbury A. Devine, all-American quarterback, is writing an article on "the meaning of the football season," to be published in the April number of the sport magazines. At the present time Ash­­bury is attending the University, but his last position was as a halfback offered by the athletic director of the University, during the football season coaching course.

CONFERENCE MEET WILL NET $4,600 IN PROFIT

The Conferences track and field meet, held here June 3 and 4, will approximate $1,500 in profit. The expenses of the meet have been cut to the utmost extent. Of the total gate receipts of $7,800, all but $3,200 will be profit.

EIGHTY GO ON TOUR IN NOVEMBER

Eighty persons visited the west­side playground yesterday under the guidance of the manager of the community center, the only member of the board of educational advisors who was able to attend the tour because of the lateness of the season.

Dr. Bird Baldwin spoke about the work of the child welfare research service, which was established in 1923, "having as its objects the encouragement of the best methods of research and developing the work of the board," of the information acquired, through such investigations and experiments "for work in such fields as"

DOCTOR BALDWIN GIVES WEEKLY ASSEMBLY TALK

Willis W. Grant, a member in the Iowa Child Welfare Research Station, assembled the assembly in connection with the social science academic carriers yesterday morning for the board of educational advisors, who were presented by the University for a weekly talk. The Iowa Child Welfare Research Station, where the tour began, was thrown from his horse. He received a broken collar bone and two fractured ribs. The horse fell while galloping, throwing Prof. Mooney, who was taken at once to the University hospital where he remains for three days. Prof. Mooney is very weak but getting along...

make the change. The law should be so changed that it may be as to make it easy to establish Amens. Anges report must be written clearly so as to carry the work on effectively." She then gave the outline of the county plan that had been worked out.

Miss Baldwin's chief suggestion as to the way the library plan can be carried through was that of using publicity. Campaigns should be instituted, and papers used to the greatest extent to put them over, she said.

"What Portland is doing" was the subject of a talk made by Miss Helen McRait, librarian of the Fourth Portland branch library, Portland, Oregon. Miss McRait, who was formerly at the University of Iowa, spoke on library work in the public schools of Portland. She stated that a new library was to be made in the primary grades, and a branch for young people from the primary grades upward is given. The first grade group, for instance, are taught the care of books, second grade, contents of books, and so on through the high school. Another novel feature of library work in Portland, according to Miss McRait, is the hanging library, in which hanging shelves resemble in every ordinary bungalow and may be converted into residence halls when it is necessary to change the location of school.

"Still more unusual in connection with the libraries in Portland is the widening of the scope of their work such as providing a center for a social club, and as a community center, and for baby clinics. One hundred mothers were

100 BUY TAGS DURING THE DAY

Will Sell Tickets to Women's Dinner in Liberal Arts Hall

At a meeting of the ticket committee for the Ladies' Epitaph in the W. C. U. A. room yesterday at 1:00, six women reported the sale of over 100 tea tickets during the past week. According to the committee, the amount of the sale for the day, but it is almost certain that the sales would aggregate twice the present total.

It was decided at the meeting to arrange for the selling of tickets at the table in the upper hall of the liberal arts building during the next two weeks. Different members of the committee will be in charge of the sales which is to start at 9 o'clock this morning and continue successive

According to those on the committee, the selling of the tickets for Saturday will be very easy, since every woman solicited showed an active interest in the project. The committee report that if the past and previous shows for women's tea are continued, the rest of the week the Ladies' Epitaph is assured an success.

The program committee met yesterday and perfected plans for an entertainment which will, it is said, encompass reports, eclipses anything that the summer session has to offer. One of the most interesting features planned for is a dance pageant, and the nature of which is not to be revealed until the day of the entertainment. The Phi Lambda Theta educational society at a picnic tonight at the city court will discuss plans for the entertainment.

GRANT SAYS THAT THE CIVILIAN IS IN NEED OF REHABILITATION TOO

With W. Grant of Des Moines, supervisor of the board of vocational education, spoke yesterday afternoon at a click in the liberal arts assembly room on "Civilization Rehabilitation." "Mr. grant," said Mr. Grant to a great many people. While every one has heard of rehabilitation of the scholl, few have heard the term used in connection with the citizen and the school. Mr. Grant will speak again tomorrow at 1 o'clock in the L. A. assembly.

(Carried from page 1)

straight line than the kind of curve that showed it to be.

One of the most important lines of work being done is in the psychological laboratory for children from two to four years of age. This is a most fruitful field of work and one that has hardly been touched. The pre-school child is one of our most important problems to give psychological and mental note in before a child enters school not when he is ready to enter the school. The lectures by the psychologists. As a publication of the Agricultural Experiment Stations in the United States. The following quotations are as follows: "The Physical Environment," "The Environment in the School System," "The Environment in the Public School," "The Environment in the Military System in Correction," and "An Analysis Study of a Group of Five and Six Year Olds under the Missions in the Artificial Feeding of Children," "The Environment in the Physical Welfare of the United States with Special Reference to the Children," "Children," "The Moral Growth of the Environment," and "Normal and Superior Child."
