DARKNESS HALTS SECOND GAME OF WORLD SERIES

Giante Unable to Hold Lead in National Championship

Famed Statistician Tells of Recent Social and Economic Development

**Dr. A. Bunge to Speak Today on Argentine**

**Fair Play (An Editorial)**

University of Iowa student and man of many-sided reputation for his sportmanship. The student body would do well to emulate this man's example.

A choker of office has come to be a purely literary nonentity—a harmless sporting term in a modern world. It is used by all the big operators in the game. But it is of the old school and should be replaced by a legal and similar combination of items, even a peer group can use it. It is used to add a touch of formality and a note of quality to the post and will be again on this same line in the years to come.

One of the most prominent features of this game is the use of the choker of office. It is a small button or ornament worn around the neck and is supposed to give the wearer an air of importance and dignity.

**Dishonesty Rules will be Enforced**

The faculty of the college recently adopted regulations affecting dishonesty.

** Penalty Determined by Gravity of Offense: Protections**

Honest Students

The faculty of liberal arts recently adopted regulations affecting dishonesty.

George E. Kaye, of the college of liberal arts, imposed fifteen penalties during the second semester of the year 1917-18.

The main object of the present penology is that the student may have something to think about when the present term, but in another term, or in the future, he shall feel that we are thinking of him.

**List of Penalties**

1. In case of apparent dishonesty, involving written test or class examination, should be carefully examined by the faculty and the next absence means to establish guilt, the student shall be reported to the president of the college.

2. The student shall be warned in writing and placed in the class of the college for the purpose of keeping track.

3. If the faculty of the college determines that a student shall be punished, the faculty may issue a warning to the student, and shall be queried in writing by the faculty.

4. If the faculty of the college determines that a student shall be punished, the faculty may issue a warning to the student, and shall be queried in writing.

5. If the faculty of the college determines that a student shall be punished, the faculty may issue a warning to the student, and shall be queried in writing.

**Notes**

Students are expected to obey the rules of the college.

**The Deans' Club will meet in the morning, Thursday, October 3, at 10:00 a.m.**

The purpose of this meeting will be to discuss the methods used in the college to prevent dishonesty and to discuss the cases of dishonesty that have occurred.

START ROAD WORK

Large Number of Freshmen
Practicing Daily for
Freshman Meet

The cross-country marauders took their second warning on the road Wednesday morning under the leadership of W. L. Alden, coach, through T. B. Browne, who followed the track in a car placed at the place where the track kept together. Last evening's practice was moved out to the west side, and the details of the practice
were kept under the eye of the
coach.

The mud has been slowing
the practice of keeping feet and
keeping good condition. L. R. Ladd has been working with such vigor
in keeping the men and keeping their legs in good condition. As an article
from the Wil
mouth "Daily Collegian" reports that the Badgers expect an unusual
amount in training in the fall at the Conference meet. The Badger will be at the favorites in the "Big Eight" meet.

The freshman men are preparing
to be second. True to the tradition of
oldest football, the Yale man has scored four plums of such length as make them
dangerous. A number of forward players are included in the list of
plays scored by men, but they are all of the numerical short punt type.

Stadium arrowhead tracks and

report to the track in a
short time.

OF DANGER

They are not only a menace to the campus, but especial- ly to the safety of the public, and when one walks about the university grounds it is well to call attention to themselves and to their cars if driving. One of the greatest dangers of the Iowa area involves intentionally being hit by cars, and without question this is the main reason why so many people are injured and killed.

The time is near at hand when the administration will have to develop some plans to have their cars removed. To this end, a man or woman who can "kick out" of them, we may say that the University of Iowa has no room for you.

54 YEARS Ago TODAY

The following excerpts appeared in the Daily Iowan (University Reporter) fifty-four years ago.

The modern flapper is not a product of the present time, but of the past. The modern flapper, as she is known today, is a product of the early 20th century, when women were beginning to break free from traditional gender roles. The term "flapper" was first used in the 1910s to describe young women who were rebels and non-conformists.

The modern flapper was a symbol of the progressive movement, which sought to challenge traditional values and norms. She was a woman who was confident, independent, and free-spirited, and she was not afraid to express herself. She was a woman who was not bound by the constraints of society, and she was not afraid to be herself.

Today, the modern flapper is still a symbol of the progressive movement, and she is a symbol of the power of women. She is a symbol of the power of women to challenge traditional values and norms, and she is a symbol of the power of women to be free and independent.

HOW ABOUT YOUR CLOTHES?

You ought to have clothes you can be proud of; and that means clothes that have both style and quality.

Style is a matter that all makers of clothes give a lot of thought to; but quality is something that isn't always cared for so well.

Get both; style and quality. We have the clothes that give you both; we know they're right.
