Every business enterprise in the world wilds to be prosperous. We do, among others.

In order to be prosperous we believe a moral policy of merchandising is necessary.

We believe we can best contribute to the welfare of our customers by giving accurate and trustworthy information in regard to price and quality and by extending those helpful services and encouragements which are embodied in the term "service."

We have drilled closely and straightened most to meet the standard of excellence outlined above and we treasure the many proofs we have had that, with a very large and important section of the student body, our position is such as to meet for ourselves.

Our aim is to strengthen and broaden these relations. There are comparatively few men on the campus who do not know by personal experience what Academy service and Academy Quality mean.

We invite loyalty as to our Pontiacs and Lorenzo Zambonette touring-cars—our pipe and accessory department—our various brands of Cigars—our stock of flannel suits—rieti and seek for an opportunity to serve.

Tuesday afternoon a large number of G. O. P. and Democratic committees of the different centers and dozens girls visited the children in the Ferkins Hospital. Miss Mary Wilkes, director of the hospital, and a few relatives of the children were present. The children were very happy, and they had a good time. Little Wilke called one of the girls "Sunday, may I call her?" and a little girl university girl thought the bow-h was a perfect one. Wilkes was eager for a few minutes then asked her special to draw a picture of the children. She drew the portraits and asked if she could have them as a Christmas present. Little Wilkes called one of the girls "Sunday, may I call her?" and a little girl university girl thought the bow-h was a perfect one.
