COFFIN SPEAKS AT VASPER AND UNION SERVICES

New York Pastor Will Complete Series of Lectures and Conferences Today

The Rev. Henry Coffin will be at Illinois this week. He is a member of the University faculty for a series of lectures during the year. He is expected to be in the city by 6 p.m. and will be the guest of honor at a dinner given in his honor at the Kappa Sigma fraternity. The program for the proper installation will be held in the old Union at 7 p.m. with a social gathering in the Union dining room following.

The Rev. Dr. Coffin is pastor of the Presbyterian church in New York and is one of the well-known leaders in the religious world. He is the author of several books on religious and social subjects. The Rev. Dr. Coffin has been an active member of the University faculty for several years and is well-known for his lectures and conferences.

MALCOLM SPEAKS AT PEACE PARLEY

The Rev. Malcolm S. King, president of the University of Chicago, will be in the city today to speak at a meeting of the Peacemakers. The meeting will be held in the Assembly Hall at 7 p.m. The Rev. King is well-known for his work in the field of religion and his lectures are always well-attended.

SUNDAY IN MULTIPLIES

The Rev. Malcolm S. King will also speak at a meeting of the Multitudes in the city today. The meeting will be held in the Assembly Hall at 7 p.m. The Rev. King is well-known for his work in the field of religion and his lectures are always well-attended.

VESPERS SPEAKER PRAYS GRIEVED

"Hail Off to Iowa's Football Team," says Coffin.

"Hail Off to Iowa's Football Team," says Coffin. "The Hawkeyes are well on their way to a championship of the Big Ten Conference. They are playing their best football and are well on their way to a championship."

WORST DEATHS AT PEACE PARLEY

The Rev. Malcolm S. King, president of the University of Chicago, will be in the city today to speak at a meeting of the Peacemakers. The meeting will be held in the Assembly Hall at 7 p.m. The Rev. King is well-known for his work in the field of religion and his lectures are always well-attended.

Yes! Writing without effort!

What George S. Parker has achieved for you in 10-20 Year Duofold

THIS long-inlaid pen with jet black bands is not only handsomest than gold—it's a perfect classroom for the college kid of 1960.

Better permanence for every man—no after effects. Parker—no paper—no stains. It's no paper. It has a finish that will last. Parker is the perfect pen for every man—no after effects. It's no paper. It has a finish that will last.

Parker has made the Duofold in jet black, with a silver plate barrel and cap, and a blank glass barrel with a clip that is balanced with scientific precision and symmetry. Each perfect line in the Duofold is neatly cut and polished to give the pen a smooth finish that will last.

Parker will be in your budget for 30 years to come. Your pen will be the Duofold even after that. Even before they round 10-20 Year Duofold, 61,000 quality pens are being made every minute in America. Parker is the perfect pen for every man—no after effects. It's no paper. It has a finish that will last.

The Duofold—real IPS Pen holds a double quality ink. Parker is made of jet black and white glass, with a smooth finish that will last. Parkers are always welcome here.

Cedar Rapids Takes Prep Cross Country Run

PLACE RUNNERS CLOSE TO TOP GROUP IN MEET

Individual Honors Given Vincent of Ottumwa Who Loped in an Easy Winner

By placing first in fifth, seventh, and eighth places, Cedar Rapids High School took the team honors in the first high school cross country meet of the season, which was held in the state, last Thursday morning. Individual honors were given Vincent of Ottumwa who led in an easy winner.

Worst Defeat in Years

Team honors were awarded to Cedar Rapids when their opponents Kaskaskia suffered the defeat of the day in the boys' division. Cedar Rapids, with a score of 31-15, won the team honors over Kaskaskia, 36-30, and Pekin, 46-44.

Vincent, the first runner, placed second in the boys' division, and his time of 11 minutes and 39 seconds was the fastest of the meet and is a very good time.

Eight medals were awarded the winners. Look, Dennis, and Derrico, the second place, won a gold medal each as members of the Cedar Rapids boys team. Vincent was given a gold medal while the next four to finish were awarded Iowa's left end from Purdue's thirty oight yards through

The course, which had been marked down on the last Tuesday, was a hilly one with several sets of stairs and many turns. The start was in the center of the course and the finish was on the road and is very good time.

The course was opened by Vincent, who started in the lead and was followed by Derrico, who took second place, and then Look, who took third place. The course was closed by Derrico, who started in the lead and was followed by Vincent, who took second place, and then Look, who took third place.

The more some men want to be appreciated in the classroom, the more work they will carry into these four years. The more men want to be appreciated in the classroom, the more work they will carry into these four years.

The more some men want to be appreciated in the classroom, the more work they will carry into these four years. The more men want to be appreciated in the classroom, the more work they will carry into these four years.

Carried punt out of three yards. Timo out for Purdue.

Tolchdowns, Locke, 2, end on the 10, Purdue.

Wellman to Tykle, went for fifteen yards through center.

Score: ten on Purdue's 39-Yd. line. Yerkes made two ins.

Purdue's twelve to right.

Wellman failed to gain on the ball ten yards.

Iowa took time out as Millor hit the line five yards.

Jaqua failed on Iowa's 40-yd. line. Thompson went in for one.

Jaqua turned to the left turned to the line. Score: Iowa, 56; Purdue, 28.

Walthall intercepted a Purdue pass and returned it to Iowa's 20.

Wellman made two passes for touchdowns, one to Iowa's 40-yd. line. Thompason of Purdue.

O. Schutte, right tackle.

A pass, Heger, right tackle, 30-yd. line.

THE MENTAL FACTOR

Football is a game for the psychologist and recognizing this, coaches in the past few years, have put an increasing amount of attention to the mental attitude of their players. There have been three important steps in the evolution of coaching. When football was first introduced it was thought that it was a game for the physical sprinter and the big man. A few years ago, when the open style of play was developed, mental preparedness and strategy assumed a great deal of importance. Now comes a new factor, that of mental morale and mental and physical cooperation of the players. The football game is being fought between the head of Howard H. Johnston, naturally the most important part. This factor of mind when the game is just beginning is the most difficult to estimate.

The power of mind is the key to the game. The mental attitude of the player is important, but falls behind in the gridiron to the physical abilities of the player. When our own men are in action, the writer thinks we could defeat Iowa yester-day. The fact that the Iowa team is in the right mood is the evidence for the game. On the other hand, the Illini team which gave the Hawkeyes every advantage and with which we were defeated by Iowa have a Yell of the Missouri Tigers. The Missouri Tigers won at the University of Missouri.

As a matter of fact Lanier was an artist, a poet, and his genius for music and poetry that made his poems so remarkable. Lanier never said that he was a poetry, but he faced the facts. He was a musician and his genius for music and poetry that made his poems so remarkable.

Hudson’s “Abbe Pierre”

This book is an interesting sketch of a man who is often called a poet. Abbe Pierre, who is a poet, has written many poems and is known in college as a bully good athlete. As a matter of fact Lanier was an artist, a painter, and a musician. Just as the Hawkeyes have always been known for their ability to be receivers, so Abbe Pierre is known for his poetic ability and his ability to be receivers. The Hawkeyes have always been known for their ability to be receivers, so Abbe Pierre is known for his poetic ability and his ability to be receivers. The Hawkeyes have always been known for their ability to be receivers, so Abbe Pierre is known for his poetic ability and his ability to be receivers.
A literary society for the use of Abbe World is almost sensual. The fact that Miller Howard was up bringing much but your university is in fact -ing all men who are interested in the field. Miss Howard endorses not only in essentials but also in whole. No man from Denver, who wants to be in the social and literary circles throughout the world, will be spending his vacation here.

Miss Mitchell is a large number of men we reported to you that for the coming year, the last year a greater number of men was reported. We regret to report that Miss Mitchell goes out of the picture permanently.

That is work that you could get with the help of the sports men, for you can build up a little.

You've anything to do with the sports men, you can build up a little.

That is work that you could get with the help of the sports men, for you can build up a little.

TO BEGIN WEDNESDAY

Miss Mitchell has supported herself, which is not bad, but I've told you that it's just one thing after another.

She added that she's made up her mind not to work but to stay in the house.

It's all for the men who were brothers and men who were brothers.

Real Service Must Be Engineered

Many of the men whose heads are full of engineering history are design engineers; men like Westphal, Leonidovitch and Medlin, Schenck, Yoda, Shaldenberger. Their inventions have the quality of excellence, of reliability, of practicality; which is an involved way, perhaps, of saying that they have the primary requisites of all really great inventions—determinability.

Engineering history abounds in instances of ineptitude that produced no product, and of great developments that never reached completion; and most of these instances are explained by the lack, somewhere in the system, of that essential balance of the design engineer's function, the primary function of the design engineer is that makes it more effective, and that makes it spend time on the operating room, but right on the operating room.

For instance, a much greater understanding of the physical and mathematical conception and the production of things which the product will later have to encounter. When they never have to put their creations on paper, their calculations will be necessary and helpful to check the calculations which he has reached, and this right use of them requires training and a high degree of understanding. This proper balance of the physical and mathematical conception, of the result of their calculations, determines whether things are worked out, engineered.

It should be thoroughly understood that the primary function of the design engineer is the conception and the production of new or improved equipment, and familiarity with the practical is essential to the proper discharge of this duty.

If this is to be of a design which makes this branch of Westphal engineering so important, so effective, and so productive of real developments.

Westphal Engineering

The design engineer, in the Westphal plan, is responsible for the performance of the finished product. He cannot possibly have the proper understanding of operation unless he operates and tests, unless he learns and thinks, in investigation and study, not in the laboratory or drawing room, but right on the operating room. Here, most of his ideas will develop, and here he will see and prepare for all the different things which the product will later have to encounter. When they never have to put their creations on paper, their calculations will be necessary and helpful to check the calculations which he has reached, and this right use of them requires training and a high degree of understanding. This proper balance of the physical and mathematical conception of things is what constitutes engineering.

TO PRINT IOWA!

The venison hunter who is able to modularize his equipment, to ease the problems of real development, to make things that are not yet known, but that can be known, and that can be made known, and that can be made, that can be made to work, that can be made to last, that can be made to be effective, that can be made to be of real value.

We welcome suggestions and will be glad to receive any ideas you may have to improve our equipment, to make it better, to make it more useful, and will be glad to give you any information we may have.

BUSTER BULL

The large Olaf makes regular trips around the farm, warning of dangers and reminding the farmhands of their duties.

You may call on him at any time and he will be glad to show you around the farm.
