ECKERSSAL'S ALL WESTERN ELEVEN

The Iowa City Press-Citizen, Sunday, January 10, 1920

TO THE EDITOR OF THE IOWA CITY PRESS-CITIZEN:

Sirs:

I write to express my appreciation and dissatisfaction, respectively, with the treatment of the all-western football eleven.

I am dissatisfied with the treatment of coach John St. John, in that he was given only three mentions instead of the nine he was deserved. Coach St. John has done more for the Iowa football team this year than any coach in the country. He has played over thirty games this year and has led his team to victory in nearly all of them. He has taken on the task of training an inexperienced team into a champion and has succeeded in doing so.

I am satisfied with the treatment of coach A. A. G. Smith, in that he was given at least the same number of mentions as coach St. John. Coach Smith has done a splendid job this year and has led his team to victory in most of their games. He has taken on the task of training a team of former basketball players into a champion and has succeeded in doing so.

I am satisfied with the treatment of coach W. W. Polk, in that he was given at least the same number of mentions as coach St. John. Coach Polk has done a splendid job this year and has led his team to victory in most of their games. He has taken on the task of training a team of former basketball players into a champion and has succeeded in doing so.

I am satisfied with the treatment of coach W. W. Polk, in that he was given at least the same number of mentions as coach St. John. Coach Polk has done a splendid job this year and has led his team to victory in most of their games. He has taken on the task of training a team of former basketball players into a champion and has succeeded in doing so.

The Football Peninsula

A vacation period that is not full of football is not a vacation period. As the season which football has spent in life for years was not uneventful. In his many capacities—vice president of the university, professor of history, and editor of the university—Professor Gilbert has been active. A foregone conclusion in success of this football season was that the vocational interests and the mental growths of the students, particularly the football fans, would be encouraged by the successes of their team. This was not the case, however, as the football season has been marred by many disappointments. The team has played poorly, and the fans have been constantly disappointed with the results of the games.

The Problem of American Colleges

The football season has been one of the most important events in the history of the college. The team has won many games, and the fans have been thrilled by the victories. The team has been well-coached, and the players have been skilled.

The Educational Importance of Football

In recent years, the importance of football has been emphasized in the college. It has been shown that football not only provides physical exercise, but also mental and social development. The team members have learned to work together, to cooperate, and to develop a sense of discipline. The fans have been encouraged to support the team and to develop a spirit of school pride.

The Role of Football in Society

Football has played an important role in society. It has been a source of joy and excitement, and it has provided a means for people to come together and to socialize. The team has been a source of pride for the college and for the city. The fans have been a source of energy and enthusiasm, and they have contributed to the success of the team.

The Future of Football

The future of football is uncertain. It is possible that the team will continue to be successful, and that the fans will continue to support the team. It is also possible that the team will lose, and that the fans will be disappointed. However, football will continue to be an important event in the college, and it will continue to provide joy and excitement for those who participate in it.
