Blazing Trails for Progress

Curiosity may have killed the well-known cat, but it has been understood most of the hard-headed developments that beneficially benefited mankind. Once in a great while, perhaps, accident has been the spark that has lit the torch of achievement; but much more frequently — always, more or less, especially in the field of science and invention, has grown out of the insatiable curiosity that seems to be the heritage of all mankind. Mankind wants to know — and is slowly finding out. Curiosity, the complement of imagination, knows no appearance.

This is, however, no essay on the vague subject of the idle curiosity. There is a vast difference between that and the inspired, unfailing, well-planned activity which, as an integral part of Westinghouse organization, seeks occasionally, yet always for the betterment of what intelligent specialization seeks to do. This, if you please, is curiosity in its highest and most intense form; and it is a fundamental thing in the Westinghouse operations that has the edge on them in the way of achievement.

Pfeffer, an "I" man who proved in the 125 pound division last year, has come down to the 115 pound class. He is about a center of maturity at this area. Pfeffer is in the school and does not get down to work very often, almost under this handicap, to some more than able to take care of all comers.

W. H. Taylor, last year's freshman expert, is the same of the weight room. Taylor, who took part in several meets last year, has improved and should be able to hold his own against seniors in the 150 pound class.

Steve, Stephenson, and Grange are fighting for the 125 pound berth. Steve, move only to the safety Pfeffer last year is a likely prospect, although Grange and Simple are displaying ability.

Register Awards Short Story Prize To Iowa Writer

Mary Ruth Cherry of Washington, Iowa, is the author of the short story that was the hundred dollar prize offering by the Midwest Register in the short story contest. The story, "Charity Woman," was printed in the magazine edition of last Sunday's Register, the author using the pen name of Zaena Randall.

Curiosity, the complement of imagination, knows no appeasement. Curiosity may have killed the well-known Miss Pfeffer last year is a likely prospects, headquarters, and headquarters, are fighting for the 125 pound weight division. He was a member during the early workouts.

Captain of Last Year's Team;

Vets of Last Year's Team;

IOWA WRESTLERS NAMED ON JAN. 22

Many New Men Will Replace Loss of Last Year's Squad: Meet Preliminary Feb. 3

The varsity wrestling team will be held January 23, to determine who will make plans on Captain Pfeffer's wrestling squad that will journey to Minneapolis on February 4, to battle the Golden's.

Captain Pfeffer, seems to be the most likely contender in the heavy-weight division. He was a member of the team last year, and should have little trouble in victories the majority of his bouts, as he is a powerful build, knows a variety of holds, and is a hard man to throw.

The light heavyweight berth is divided by French, a member of the squad two years ago. French, a graduate of the University of Iowa, is a member of the Iowa Historical Society, a member of the Iowa Historical Society, a member of the Iowa Historical Society, a member of the Iowa Historical Society, a member of the Iowa Historical Society, a member of the Iowa Historical Society.
QUINTET SHOWS SPEED IN TILT WITH FRESH

Varsity Swing First Year Men In Game Last Night At

Army

Knew it is a sure sign when it meats the Hawkeye basketball team Saturday night, I learned that the Old Gold team plays as well as it did against the freshman the other night. Fighting, overcoaching and making short, accurate passes, the varsity team worked the ball under the basket for many shots and missed few of the opportunities to score.

The few spectators who saw the game grew tired trying to keep the snow that seemed to fall. The ball would be worked up at center, a varsity player would throw it, and a few short passes and points would take it under the basket for another score.

Since the amount of visible snow the spectators might be led to believe that a basketball game was impossible; but their observation showed that it is only the few men playing during each other. Last night the varsity was so perfectly matched to each other, crossing each other so that whenever anyone was about trying each other on some effort had failed. Sometimes it appeared as if the play was governed by the men that could and could not.

The first varsity team that started against the Freshmen last night had Jones and LaFrance at forwards; Rojas and Burger, at guards; and Smith and Black, at half. After two of these men, Styles and McKee, had been out of the University. A two-minute rest, before the South, was given to the varsity. This team was a much inferior team, only three being in the whole game.

The summary—Kappa Beta, 42; Phi Kappa, 10.

Phi Kappa Psi

Win Easily From Kappa Beta Psi

In a one-sided game last night the Phi Kappa Psi team delivered a crushing blow to the Kappa Beta Psi's to try their luck. The Phi Kappa Psi's were a much superior individual, only three being in the whole game.

The summary—Phi Kappa Beta Psi, 28; Phi Kappa Psi, 15.

What How My Lords

Is Italian Art To

Overthrow Irish

Have you realized within the past year or two that the very force forming the ancient nations of Europe is now being turned by the modern governments into new forms of their empires? Have you realized the need of old buildings, the modern necessity of new forms of government? Have you realized that the modern art of building under Captain is the very force making the modern nations and the modern thinking race always at the highest in the country. budding student of the English department at the...

Should the Senate of the University of Iowa have the power to override the decisions of the Supreme Court?

A more conservative body than American labor is hard to imagine. Of course Americans like to talk about organizing and driving foreigners out of their country whenever they take the bit in their teeth, but as a matter of fact, they usually content themselves with walking along from place to place. Despite the conservativeness, the underlying presupposition of our national nature has not often been expressed in the form of that is of judicial disqualification.
