LEADERS AFRAID OWLSLEY’S BONUS IS IMPOSSIBLE

Congressmen Not Ready To Consider Measure At Present Time They Say

The leaders of the Senate and the House of Representatives are not ready to consider the bonus measure at present time, they say. The bonus bill, which was introduced by Senator Owlsley, is expected to be a major issue in the coming session of Congress. However, the leaders of both parties are not ready to take up the bill at the present time.

The bill, which would provide a bonus of $500 for all veterans of the World War, is expected to be controversial. The leaders of both parties are concerned about the cost of the bill and the potential for political patronage.

Expect League to Handle Oil Field Question

Amiable Disposition Is Anticipated as Talks Begin. To Join

(United Press) - London, Dec. 1-—Amicable dis-

the Near East, is anticipated following the decision

made clear that she will not
cede the regions for the
area from the league of nations and could not
recognize a return to Turkey without the
league's consent.

Now, in all probability, Turkey, when
she is admitted to the league, will agree with England that the

GOLF

The royal and ancient game of golf, as George Adams has so well pointed out, is coming to be looked on as little less than a national sport. The playing of it has spread to the point of being looked upon as a necessity of fashion, or in the centers of population, but has been carried forward in the country without any small towns but even villages have organized golf clubs. We have seen that tests of ten years from now will not be a municipality in the country without a course of golf. Another striking proof of the growing popularity of golf, is the increased expenditures with which the British professional, who tour the United States, are being showered. At American courses in Europe, American tourists have spent very closely to English golfers. The number of American golfers, who are over-worked and the character of our courses and golf teams is well patronized by both students and faculty. Although students at this University may have been some of the first in the country to have the golf course, stage will be taken toward arranging for one. Now is an upper time to begin if we wish to enjoy the comparative freedom of the object, which is the course of golf.

GOLF

BY WAY OF ADVENTURE

To the air, perhaps, is nothing new under the sun, yet there are still many varieties of sport which help to keep common life alive and the imagination of the world.

CAMPUS SKETCHES—THE FLAPSHOT

The common or garden variety of campus sketch is to be found in the halls of all the colleges. The same sort of thing is true of the student, for who would think that his education was complete unless he could tell a story about himself, and his experiences of the day. This is the story of a student who has not only kept up with the current of events, but has also managed to keep up with the current courses and golf teams as well. He is a student of the University of Michigan, a student who has the ability to make himself known to the world, and to be recognized by his fellow students. His story is one of the many that are to be found in the halls of all the colleges, and it is one that is to be found in the halls of all the universities.

CAMPUS SKETCHES—THE CLASSIC

One of the most interesting things about the student is that he is capable of being himself. He is capable of being a student that is not only hard work, but also hard work that is capable of being enjoyed. He is capable of being a student that is not only hard work, but also hard work that is capable of being enjoyed. He is capable of being a student that is not only hard work, but also hard work that is capable of being enjoyed. He is capable of being a student that is not only hard work, but also hard work that is capable of being enjoyed. He is capable of being a student that is not only hard work, but also hard work that is capable of being enjoyed.
