The average fowever taking part in training in seasons II, weights 165 pounds, and is the most popular. The seniors have a close finish of 500,000 as compared with 2,750 for non-seniors. However, the closest-competition belongs to a non-senior. Most men are still in line for the entering football classes this year. There appears to be no reason why, if the regular training should go on, the seniors should not make a similar race as they did last year.

"Mythical and Unauthentic," Wilson's Opinion of Sarah Bernhardt Story

Bozrah, Ia., June 16, 1899—Sarah Bernhardt, the world's famous actress, arrived here this week, and believes that she will one day acknowledge her relationship, according to the story, to the famous Iowan reporter. Professor Charles Bundy, head of the German department, investigated the situation by actually visiting the supposed residence of Sarah Bernhardt. After talking with these relatives, their claims to be her relations were accepted, and it appears now that she herself claims a relationship. According to the story, she herself claims halifax as her native county. This week, Bozrah, Ia., Jan. 8, at the home of Prof. and Mrs. Benjamin F. Humphrey.

THE YEAR OF 1922
The year 1922 has been a very prosperous one. Mr. Dohm and other men in stations report that we are just about back to normal. A new calendar shows business.

Business Conditions
Are Healthy For 1923
Business throughout the country has been increasing in the last year. Manufacturers and Retailers have a most thriving business. There is no just reason for idle hours anywhere. Opportunities are knocking all the time.

As To Our Own Enterprise
We are glad to say our own business has been most gratifying. Although our store has only been in operation since Nov. 10th, yet in spite of this fact we have done a very nice volume of business during the seven weeks of operation. In fact, our business was far beyond our expecation.

We wish to take this means to thank our kind friends and patrons for their liberal support and the confidence bestowed upon us and our merchandize. We shall strive to merit this confidence.

BRITAIN AND FRANCE MAY BREAK AWAY

Expect Split To Result From Wrangle Over Reparations Problem

By Roscoe Hawley (United News Service Correspondent)
Paris, Jan. 3—Great Britain and France stand at the parting of the ways. The allied premier confer-
cence adjourned until Thursday after Premier Bonar Law and Premier Poincare were squarely opposed at adjournment.

Premier Poincare sharply criticized the British plan which would reduce the indemnity to 5 billion gold marks and grant a four year moratorium. Premier Bonar Law declared the proposed plan of the French which signifies a two year moratorium, is not set in stone, and productive guarantees.

Wednesday's session only served to accentuate the differences between Britain and France and gave rise to predictions that only a disappearance was possible.

Britain, who outlined the British objections to the French proposal, declared it was his idea that Germany to pay reparations, and productive guarantees, a two year moratorium, no cut in wages, continued un-

Chicago, Jan. 3—Brandon hunting girls may not believe in signs, un-
less they are gray hairs and suspenders but the trade in Chinese horn and carnelian is booming.

The sharper the point on the nut, the longer the beard it brings will stick. What does it matter if the wearer looks like the favorite of a mistress or a "killer" at the stock-
patch, when the horn shaped charm dangles from her neck at the end of a young Severn which, in turn, is reminiscent of the attachment-to-be.

This is the legend that gives to the Chinese horn its magical powers and to its Chicago weaver reserved hope.

Thousands of years ago in south-
ern China a great drought came over the country and killed off most of the household and cattle for that office. So the women had a war-
fish with the Bear, proving itself far more grim and strong.

On the third night little fall and the Bear fish made a ascent to the mountains top, the nut is put to
