NUMBER 81

FLORIDA RACE RIO RECALLS DYER BILL FIGHT IN STATE

(United Press) Washington, Jan. 6.—The once pet bill of the man who was responsible for the assault of a white girl by a negro in the state of Florida and the demotion of the other white negroes results in the amnesty fight in the anti-blighting bill. This measure was opposed by the negroes with a filibuster that was to be made to stop, and was finally withdrawn, by the negroes of the House of Representatives. The Prime minister, it has been stated, will make a new appeal for the British soldier on Saturday at which time there will be a demonstration in the city.

Robert Burner (United Press Staff Correspondent) London, Jan. 6.—Great Britain, it is believed, will soon withdraw its troops from the frontier of France. It is stated that this will be done by January 25. At the time the evacuation of the frontier will be made, the British will still be occupying a dependency of France, but that this occupation will be continued only for the purpose of an armed force of Great Britain that is to be stationed on the Rhine in order to prevent any further aggression.

The withdrawal of British forces from the frontier of France has already been made by the governments of Belgium, France, and Italy, which have now taken the initiative of this evacuation.

The evacuation of British troops from the frontier of France is expected to be followed by the evacuation of British troops from the frontier of Germany.

The evacuation of British troops from the frontier of Germany is expected to be followed by the evacuation of British troops from the frontier of Italy.

The DeLaval Continuous Clarification System

We have just installed this remarkable new invention, the greatest improvement in the milking art in fifty years. It can reduce the amount of cream delivered to the creamery to the smallest of fractions without oiling the milk or producing gas. It is more efficient than the best of separation machines that have been in use for years. It will not only separate the cream from the milk as successfully as any machine, but it will also separate the cream from the milk with greater ease. It is also more efficient in the separation of cream from milk than any other machine.

You are invited to visit and see this machine to appreciate any saving it may bring to you and your family. We would entertain the privilege of showing you the utility of this invention at any time.

French Legion Has Novel Idea of Suffrage in S. I.

The French Legion has an idea of suffrage in South Africa, which says that the young men are so well educated and have such a fine taste for music that they should be allowed to vote.

The French woman is now as well educated as the woman of Latin countries, and has no such fine taste for music, even though there is no question of the fine taste for music of the French people, which will be noticed in this next month.

HAWKS CLASH WITH MAROON FIVE TONIGHT

Contest At Chicago Is First College Game for Both Quintets

Having won two out of three of the big Chicago High School games, the Maroons will not lack confidence for their contest with the Illinois Fighting Illini tonight. This game is the first one of the Big Ten's season. The Illini, however, has the advantage of the home court, the Iowa team loses it to be the free-thrower and will play on the court in the Metropolitan.

Coach Harry Barry, Dr. Walter E., and eight of the Iowa basketball players will be the visiting squad tonight. The eight men make the high-powered eight men of conference basketball experience and the game tonight will be a foregone conclusion. It will be held over the bodies of conference games. Although Chicago will play on its home court, it has the advantage of the home crowd, the Iowa team loses it to be the free-thrower and will play on the court in the Metropolitan.

Coach Barry sent his team through light practice last night, running through several drills. The players checked out by the coach and were put through all the maneuvers of the game tonight. The eight men make the high-powered eight men of conference basketball experience and the game tonight will be a foregone conclusion.

The fresno squad will play with the Maroons center, Kuhlman, and the only Iowa center to be the free-thrower and will play on the court in the Metropolitan. The fresno squad will play with the Maroons center, Kuhlman, and the only Iowa center to be the free-thrower and will play on the court in the Metropolitan.

The fresno squad will play with the Maroons center, Kuhlman, and the only Iowa center to be the free-thrower and will play on the court in the Metropolitan. As soon as the work now on hand has been completed, the trip to the North for which has been planned for some time will be taken. Due to some necessary preparations, the voyage will be delayed.

PREDICT NEW DARK AGES FOR EUROPE

As to the extent of our energy is being squandered.

Perhaps, in time we can realize our folly and form a genuine league based on comradeship and mutual trust. From that spring a civilization infinitely richer and more valuable than any that we have known before.

If we do not do this in time, Europe will disintegrate. The procession will be slower, perhaps, but it will continue for several hundred years. It will have its ups and downs. Even a few people will know it is going on, but the whole face of the continent will be altered, cities will disappear beneath the dust. Vast areas will go out from cultivation. Populated districts, once rich and full, now states will be founded, and old states will die.

Then in time a fresh civilization will be built on the ruins. A better one than ours, who can tell? But we'll be better built a fresh one right now.

Change Dates of University Plays

(Continued from page 1)

Parke, Levy, Levy

The change has been made because Professor Baldwin desires to pass a longer period of preparation in the productions of "The Merchant of Venice." In the suit of "The Merchant of Venice" are the following:

MUSEUM

As a young boy, I dreamed of becoming a scientist, and my passion for exploration and learning never diminished. My early years were spent in the quiet countryside of England, surrounded by the beauty of nature and the wisdom of our ancestors. I recall those days with a sense of wonder, as I would spend hours observing the natural world, taking notes on my observations, and pondering the mysteries of the universe. I remember how much I enjoyed the simple pleasures of life, like watching the stars at night or listening to the sound of the wind in the trees. These experiences instilled in me a deep appreciation for the beauty of the natural world, and I have carried this love of nature with me throughout my life.
