SCIENCE CLUB OBSERVES ITS 26TH BIRTHDAY

Birthday Cake With 26 Candles for Club Al Party Given By Shambaugh

The twenty-sixth birthday celebration of the Science Club, which was held Monday night at the home of Prof. and Mrs. R. T. Shambaugh, was attended by eighty people. Professor Shambaugh is head of the political science department and a charter member. Other charter members still living in Iowa City are Judge Samuel Raynor, Judge Martin Z. Walsh, Prof. Jerry P. Finn of the history department and Prof. Herbert C. Brown, registrar.

The installation of the new president, Prof. Chas. M. Bailey of the history department, was held.

The outgoing president, Prof. Charles M. Oake of the sociology department, presented to the president the "Invisible Key to Prophetic Problems," a large key which is always presented to the president of the club. A paper on "Christianity" was read by Professor Shambaugh.

The installation of the new president was the kickoff of the day with twenty-six red candles.

The picture rights on the picture of the same name from which it is adapted.

"MANHATTAN CHARMS"

How far, you may ask, do we really know what do we know about the present society. Classical music is not so much in vogue as it was in the past. The public is more interested in the films of Thelma Todd, and not so much in the classics.

A group of people, mainly, prefer to read the latest headlines rather than the classical music. The average person is more interested in the latest news rather than the classics.

If this is the case, what can we do about it? If we continue to write the same old type of newspaper, people will continue to read it. But if we change our approach, people will be more interested in the new type of newspaper.

Initial Meeting for All Interested In Winter Sports To Be Jan. In Men's Gym

Considering the vast amount of interest that is being taken in winter sports by the students of the University of Iowa, the physical education department is planning to organize a club for the promotion of such activities as a distinct branch of University life. A meeting will be held for interested in the forming of a club for winter sports, both men and women, so that a place may be made in the organization of the club and thus provide an opportunity for the people interested in such sports to meet with other people interested.

In the physical education department we intend to arrange for those interested in winter sports to meet with the instructor in charge of the department and arrange for the instructions to be given in such sports as skating, tobogganing, and other activities which can be enjoyed in the winter months. Meetings will be held in the Men's Gym, and interested students are asked to come and discuss the possibilities of organizing such a club.
