The Charm of Individuality
IS REFLECTED IN
New Spring Suits

Suit-wearing days are fast approaching and here are the suits to don for them. Whether your preference be for two-piece modes, or a three-piece model you will find it represented in the new suits we are showing. All are authentic, and supremely attractive versions of what is best in suit styles for Spring. Won't you come in to see the new styles?

Clearaway Prices Prevail on All Winter Apparel

Mail Orders for Reservation of Seats

Mail your order to the Manager of the Iowa Theatre, 160 West Washington St., Iowa City, Iowa.

The University Theatre is bringing to Iowa City the toast professional dramatic production on tour this season.

Mail your check or the coupon ticket which you purchase at Wally's or from members of the Tau Upsilon Alpha and 0U-A, to Mr. Mable at once and get your reservations.

Be sure to state what price you wish to pay, whether you want mustard or oyster tickets and indicate a stamped and addressed return envelope.

STUART MATTIN 5:00 P.M.

Every Saturday night at the University Theatre

STUDENTS WHO WISH TO ATTEND MATINEES MAY OBTAIN ABSURDLY EXCUSED.

The Charm of Individuality is reflected in new Spring suits.
YOST, MICHIGAN COACH, SAYS FOOTBALL IS BIG FACTOR IN COLLEGE TRAINING

American people in too many homes of the nation live a life of luxury and ease. Unfortunately the opinions of Francis E. Yost, Michigan coach, as shown in an article in the Michigan Daily, are not parallel to those of the public. Playing the popular college game will cultivate the qualities of determination, persistence and courage, the various rallies clarified, that we nurture better than the spirit. Coach Yost believes that football, as well as other athletics, should remain a contributing factor of college training, as sport will enable students to become better fitted for their future careers.

"This is the view American gone and it is needed badly in our American life," Coach Yost said. "The benefits are derived not only by the thousands who play the game but by the many more thousands who witness them. Our boys in too many homes live a life of luxury and ease and spend too much time on the soft way richness of surroundings. What they need and must have is football as non-recreational, self-developing and developing of the football player, a strong body, a good mind, a keen, quick thinking mind, and that indomitable fighting spirit which overcomes all obstacles in the end." 

Coaches are generally regarded as a necessary part of our school and college life. 

The criteria of college athletics, especially football, support that we should have more football, not less, and provide opportunities for every.

Dame, Longcore, and Johnstone. The Wolverine quintet had lost an equally good Iowa team five in the last round. When the Wolverines and the Hawkeyes clashed at Lawrence Field, it will not be before too long a period of time. All football schedules are drawn by Thanksgiving day. So the more than these boys will be necessary to themselves to their group or institutions for the attainment of a season and, which results and work, will have to separate, to their benefit and service. We will cultivate the credit, confidence and development of students and good, and moral and intellectual, character.

"Even those who do not participate learn the lessons of service and duty and responsibility."
VARSITY QUINTET HAS EASY DRILL

Players Roll After Game With Gophers Before Starting Work for Maroons

After successfully eliminating Minnesotans and defending the Gophers by a score of 20 to 16, the Old Gold team returned yesterday afternoon and resumed practice in preparation for their game with the Maroons here Tuesday. February 5. The Hawkeyes played better basketball than the Gophers in all phases of the game and had a sufficient lead in the last minute to enable the team outside men to take the trip. Minnesota started the meeting by throwing the 3rd fund goal. The team that led the next week won up table points before the Gophers covered again. The next half the Hawkeyes led with accurate penalties against their opponents. For the first ten minutes of the second period. Coach Barry has been able to get some of the Iowa high schoolers interested in basketball.

After the game with the Maroons the Hawkeyes will face the Buckeyes February 18 where more than the usual crowd will be present. The Old Gold team will go to Columbus, Ohio, where they will play the Buckeyes. Indiana will come here February 22.

INDOOR GOLF COURSE INSTALLED IN GYM

The Buckeye gymnastics team went to Cedar Rapids last night to work with the Buckeye golf team at the University of Michigan. The Buckeyes are leading the conference and have won the past two meets. The Buckeyes will play Michigan, Ohio State, and Minnesota for the remainder of the season.

There will be a new indoor golf course installed in one of the back rooms of the new gym. The course, which will resemble the one at the Iowa State University, is being installed for the boys who have a strong interest in golf. Anybody in the University is eligible to play on this course and has the opportunity to play with the best men in the state. The course is to be an 18-hole course and is expected to be a challenge for all golfers in the University. The boys have been very enthusiastic about the new course and have been practicing on it every day.

The annual golf tournament next fall will be held on the new course. The tournament will be open to all University students and will be held on the 18-hole course.

For more information about the new course, please contact the Iowa State University Golf Club at 515-294-3333.
University Professors Participate In Four Days Program At Meeting

Iowa University was represented at the thirty-fifth meeting of the Iowa Engineering society held at Des Moines Thursday, Friday, and Saturday, by ten of the instructors and professors from the engineering college, Prof. Arthur M. Ford, of the chemical engineering department, Prof. B. R. Plato, of the college of applied science, Prof. Samuel E. Lambrecht, head of the department of civil engineering, Prof. Earl N. Waterman, associate professor of mechanical engineering, Walter Hoyt, associate professor of civil engineering, H. Holt, associate professor of civil engineering, Coykendall. of Ames, vice president, and Professors Kittredge, associate professor of descriptive geometry, all appeared as delegates in the business program. The other representatives were Prof. William F. Spectre, director of applied sciences, B. R. Plato, assistant professor of chemical engineering, Walter Schubert and Andrew H. Halt, economists and professors of civil engineering, F. E. Young, city engineer of Iowa City, and C. G. Carl, assistant county engineer, also attended the meeting.

There were two thousand engineers from all over the state present and a number of important departments were held, especially concerning highways. Papers were read on high- way and highway transportation and on legislation concerning roads and highways attracted most interest. At one meeting fifty members of the Iowa house of representatives were present and there was a number from the committee on roads and highways present at every session. On Thursday, forty Iowa engineers were present as a large group at the Iowa- na meeting.

Eleven of officers elected last year: A. Cowdell of Des Moines, who has been chosen from Iowa in civil engineering, in 1910, in the president; Prof. J. H. Beards, of Cedar Rapids, has been elected as a director; and C. C. Byrd, of Ankeny, vice president. The secretary is to be elected by the members and the officers already named, John H. Byerly, of New York City, formerly professor of sanitary engineering in Iowa University, and now in connection with the American Society of Civil Engineers, was re-elected as director.

MECCA WEEK PLANS VARYING COMPLETIONS

Plans for Mecca Week have been progressing rapidly ever since the meeting, and the men and women who will be on hand during this period of this month at eight o'clock in the Iowa Union auditorium. The program will be followed by the announcement of the Mecca program for the week, and the Mecca picnic Saturday.

E. Englehardt, chairman; Oliver W. Adkins, secretary of Des Moines; Thomas L. Bush, chairman of Fredericksburg; Robert R. Kirby of Peosta, Cedar Rapids, and Frank Brooks of Iowa City.

Overseer of Poor
To Give Vocational Talk To Y. W. C. A.

Today in the regular Y. W. C. A. meeting in Iowa's art drawings made from the ten pictures, and the third in the series of "American southwest," as issued and reviewed by the officers already named, John H. Byerly, of New York City, formerly professor of sanitary engineering in Iowa University, and now in connection with the American Society of Civil Engineers, was re-elected as director.

MECCA WEEK PLANS VARYING COMPLETIONS

Plans for Mecca Week have been progressing rapidly ever since the meeting, and the men and women who will be on hand during this period of this month at eight o'clock in the Iowa Union auditorium. The program will be followed by the announcement of the Mecca program for the week, and the Mecca picnic Saturday.
CONTEMPORARY OPINION
(New York World)

THIS LEAGUE AND NO LEAGUE

The attention of the New York Printers' Bureau Committee brings to the Bahr question before the League of Nations. The first League has very possibly at the present time Lord Curzon may or may not be able to turn over the main problem to the League. But the fact remains that the heads of powerful governments continue to think of the League when the ordinary business of the League falls to his share. They think of it because they need it. The only reason they do not think of it otherwise is because they believe it is far too long a half-year, looking as it does, in the next ten years, to European, Germany, and Russia, and the most powerful nation in the world, America. America civilised men there are. They can abandon the whole idea of a League. They do so in hopes that the hopes of everyone else and where to and that the necessities of practical experience. They can try to form a new League. The chivalry of America has been rent asunder. Mc. Harding, who paraded the idea, has abandoned the attempt. They can make that League strong by joining it, and if necessary constructing it.

This third choice is the only one which really counts as possible politics in the world today. The others are either purely declarative or quite visionary. For as Dr. Nunnan says in a letter to the Nation: "I see no hope of forming a new league. Such deep disappointment would be counted in the minds of all who believe in a better future than they certainly would do all efforts to found a new league."

The last note between this League and no League, and he might have added, between interna.

PHARMACISTS CARRY ON WORK IN WIDE FIELD

Many Graduates Own Retail Drug Stores; Others Work In Laboratories

The college of pharmacy numbers in its graduate group a number of successful men and women in the various fields of pharmacy throughout the country. About two-thirds of these are in the retail drug business, some in the laboratory and manufacturing laboratories, and others in college faculties, while a small number are in various capacities of the state pharmaceutical association. The most outstanding of these deserve mention.

Dr. James B. Hall, after teaching for several years, took a position as the director of general chemistry in the research department of the Dow chemical company of Wilmington, Del.

Miss A. Chisholm, '98, is the owner of the Flexibility laboratory at Cedar Rapids. This laboratory does bacteriological and chemical testing for public health officials in connection with the laboratory on college faculty, while at the same time he is one of the leaders in the knowledge of the therapeutics of Iowa. H. E. Eaton, '92, is secretary for the Iowa State board of pharmacy.

Previous to this he was connected with the Lilly and company at Indianapolis, Ind., and was for several years on the faculty of the Western Reserve University in the college of pharmacy and medicine. He is now head of the department of pharmacy at Indiana University. He has just completed original work in experimental pharmacology, involving materially the knowledge of the therapeutic properties of chloroform.

Another graduate who is connected with the faculty of a college in Bay City, Ohio, is Dr. C. F. Mok, '95, who is the director of the College of Medicine at Miami University in Oxford, Ohio. M. E. Stiles, '94, has been with the Memphis and company, manufacturer of pharmaceutical products at St. Louis.

One of the men to be retained by the college of pharmacy here was W. E. Karaske, '17, who did research Edward H. Craig, M. D., '96, in the Chicago office of the E. M. Mallard company, manufacturer of biological products. He was was connected with the company with a pharmaceutical pharmacy in Chicago.

Edward E. Swanson, '93, is in the employ of the American Medical and manufacturing company in Champaign. He is also in charge of the chemical laboratory at Vail during several years and is now working for his doctor's degree here.

Dr. Paul J. Harlan, '98, was a member of the faculty of the Western Reserve University in the college of pharmacy and medicine. He is now head of the department of pharmacy at Indiana University. He has just completed original work in experimental pharmacology, involving materially the knowledge of the therapeutic properties of chloroform.

Mayors of Des Moines and Council Bluffs attend Dennis's funeral.

Richmond, Ind. (AP) - Mayor of Des Moines and Council Bluffs attend the funeral of Richmond Mayor Dennis E. Gard, who died Monday.

Gard, 54, who had been mayor for 13 years, was killed in an auto-truck accident on Interstate 64.

Gard was a Democratic Party faithful who had been serving in Richmond since 1956.

The death of Mayor Gard is the second death of a Richmond mayor in as many years. The previous mayor, E. J. Kennedy, died in 1963.

Mayor Gard was praised by his colleagues for his ability to get along with others and his dedication to the city.

Mayor Gard was survived by his wife, Mary, and two children, William and Jane.

The funeral will be held at 2 p.m. Thursday at the Richmond Methodist Church.
