BOO 1938 Stock Exchange Stages Fun-Fest

NEW YORK, Dec. 31 (AP) -

The NYSE, now in its 101st year, and bodies known in the past as the Coffee, Sugar, & Cocoa Exchange, etc., held their annual New Year's Eve festivities. The Coliseum, also located in the downtown area, was packed with visitors. A fireworks display, conducted by the New York Police Department, closed out the evening.

Japan's Plan To Campaign Against Trains

By The Associated Press

Tokyo, Dec. 31 - Japan's wartime machine relying on the railroads to ferry troops, transport munitions, and carry war supplies into the field. This year, the nation's highways and roads will be the focus of a new campaign to strengthen Japan's rail network. The government is planning to increase the number of trains running between major cities and to improve the quality of service for passengers. This move is seen as a way to reduce the dependence on railroads and to increase the efficiency of transportation in the country.

City Looks Forward To Prosperous New Year; Bids Goodbye To 1937

No Recession In Iowa City's 1937 Business

By MELLE MULLER

Daily Iowan City Editor

With no reports, Iowa City has had a good 1937 with agriculture continuing to improve. The weather was generally favorable, and this has helped the city's economy.

The past year was a good one for Iowa City, with the city's economy continuing to improve. The weather was generally favorable, and this has helped the city's economy. The city has continued to grow, with new businesses opening and old ones expanding.

1937 Year of Advance In Education, Culture At University of Iowa

Enrollment Up; New Buildings Ready in 1938

10,765 Enrolled During Fall Year; All-Time Record

By MILDRED B. MILLER

a staff member at the Daily Iowan

The University of Iowa has seen a significant increase in enrollment this year, with 10,765 students enrolled during the fall semester. This is an all-time record for the university, breaking the previous high of 10,500 students.

The university has also seen a significant increase in student diversity, with more students from underrepresented communities enrolling each year. The university is working to make education more accessible and to support the success of all students.

Framboe Batters Way into City To Aid Rebels

By The Associated Press

Chicago, Dec. 31 - Framboe, a legendary figure from the past, has returned to help the rebels in their fight against the government. He has arrived in Chicago and is expected to join the rebels in the coming days.

Clellinger Gives a Few Tips On How to Keep Resolutions

BY JOANN CLELLINGER, M.D.

There is not much as much good advice as I know, not written and given clear, that can help us keep our resolutions in the coming year, and that will help us to succeed in the new year.

The best advice is the average advice, and that is the rule. We must be sure of ourselves and our strength before we decide to do anything for ourselves.

The most important advice is to make sure that we are sure of ourselves and our strength before we decide to do anything for ourselves. We must be sure of ourselves and our strength before we decide to do anything for ourselves.

Twelve Years Since

Twelve years since — Twelve years have passed since we published the established Stillwell Paint Store, an institution in which we had served long and faithfully. At that time we promised the people of this community that we would adhere to the same old policy of honest dealing which the store has stood squarely for more than three years.

Our promise to this pledge has been proven and we thank you for your confidence in us and in the store.

We now ready to serve you even better in 1938.

In addition to supplying your needs in wall paper, paint and paint supplies, for the last five years we have supplied the skilled labor, too, and thoroughly prepared job to start from finish. Many of Iowa City's finest homes have been painted and decorated in this manner.

The Daily Iowan

University—(Continued from page 1)

students on the campus—4,959—was the highest in the University's history. The previous high was 4,936. The increase was largely ascribed to the large group of new students this year. A new record was set in the number of women—2,853 as compared with 2,849 of last year, a gain of 44. The women make up 57.4 percent of the student body. The total enrollment at the University.

The greatest enrollment gain was in the beginning of work on the new Science Building. The finished plant will cost $500,000 and will have a seating capacity for 900 students.

The new structure, one of the most outstanding building projects for several years, is being erected north of the Administration Building and south of the Old College. The first stone is being laid on the brick foundations of the building on April 26. When completed, the Science Building will be of three stories and will contain classrooms for the departments of biology, anatomy, and physiology.

Ralph A. Kowert

Named New Dean

One new dean was appointed in the beginning of the 1937-38 academic year. Professor John T. Webber, who had served for several years as dean of the college of pharmacology, has been named to the new position. He succeeds Professor John H. Williams, who since 1929 has been dean of the college of pharmacy.

Professor Webber was born in St. Louis, Mo., on March 6, 1895. He received his B.S. and M.S. degrees at the University of Chicago in 1920 and 1921. He received his Ph.D. degree from the University of Wisconsin in 1927.

In 1929 he became a member of the teaching staff of pharmacology at the University. He served as assistant professor of pharmacology from 1930 to 1937, when he was named dean of the college of pharmacy.

The appointment of Professor Webber is expected to be of great assistance to the college of pharmacy, which has a large number of students.

One of the first things Professor Webber will do when he assumes his new duties is to select a new head for the college of pharmacy. The present head, Professor W. H. Hackett, has been on the faculty since 1932.

The appointment of Professor Webber was announced by Dr. W. E. Bell, president of the University.

Baldwin, who was born in St. Louis, Mo., on March 6, 1895. He received his B.S. and M.S. degrees at the University of Chicago in 1920 and 1921. He received his Ph.D. degree from the University of Wisconsin in 1927.
