Helsinki Aides Ignore Pact, Continue Fight Against Red Finland

Helsinki (AP)—Joseph Stalin tonight concluded a long series of meetings with the new Communist-sponsored "people's" government of Finland, granted him consummate praise for having been granted the right to join the League of Nations "without even the slightest condition, since Finland is an independent state, a member of the League of Nations, a member of the North Atlantic Treaty Organization, and a member of the United Nations." He said the goals of the two countries were identical, and the friendship between them would be unbreakable.

Dadler Decrees Release of Fathers Of Two Children From French Army

PARIS, Dec. 2 (AP)—Thousand prisoners held in France by the German-occupied forces, including 1,000 Frenchmen seized by the Gestapo and 1,000 others, were freed by the new French government today after a conference of military and civilian officials. The prisoners were released in exchange for the release of Soviet prisoners held in France under the terms of the 1939-40 agreement. The move was seen as a gesture of goodwill from both sides, and it marked the first step toward a possible reconciliation between the two countries.

Religious Activities Suspension, Ministers The decision to suspend religious activities was made by the cabinet in response to the growing threat of a Soviet military buildup in the region. The move was seen as a precautionary measure to prevent any potential protests from religious groups.

Business Peace For '39 Best In 10 Years

New York, Dec. 2 (AP)—Business peace for '39 is this year's best in 10 years, according to an American Chamber of Commerce survey. The survey found that the business climate is improving, with a sharp increase in consumer spending and a decrease in unemployment.

Population growth is steady, and the economy is showing signs of recovery. The improved business climate is expected to lead to increased prosperity and higher standards of living for the American people.

The Finnish government has granted the right to join the League of Nations "without even the slightest condition, since Finland is an independent state, a member of the League of Nations, a member of the North Atlantic Treaty Organization, and a member of the United Nations." He said the goals of the two countries were identical, and the friendship between them would be unbreakable.

Straw Polls Indicate Dewey Is G. O. P.'s Choice, But Stewart Doesn't Think Capital Is Favorable

By CHARLES M. HAWKINS

The straw polls indicate that G. O. P. candidate Dwight D. Eisenhower is the choice of many voters. However, Senator Strom A. THOMAS, the Republican candidate for the Senate, does not think that the choice is favorable for the Republican party. He believes that the choice is not a good one and that it will hurt the Republican party in the next election.

To Organize New Division
Linder Will Make Surveys in Uruguay On Vidgline

A new plan for surveying in Uruguay was announced by Mr. Donald R. Goodwin, acting Superintendent of the Iowa Department of Agriculture. The plan will include the establishment of a new division of vital statistics in the department and assist in organizing it.

Linder, who graduated from the University of Iowa, is now in charge of the Iowa survey project. He has been in Uruguay for several months, learning the language and the customs of the country.

The plan to organize a new division of vital statistics in South America is based on the idea that the work in the United States has been successful in standardizing the methods and procedures of vital statistics.

Discussion Group Will Broadcast Over WSUI Tomorrow

The discussion group will broadcast over WSUI tomorrow night instead of tonight, as announced earlier.

To Organize New Division

In Again, Out Again!

Edward Halbrook, President of the Iowa State College of Technology, announced that he had received a proposal from the State of Iowa for the establishment of a new division of vital statistics in the University of Iowa.

Edward Halbrook has been associated with the University of Iowa for several years and is well known for his work in the field of vital statistics. He has been a leader in the development of the field and is well respected for his knowledge and expertise.
