The Spanish national government and the government of Chile last week announced the reestablishment of diplomatic relations between the two nations. Chile suspended diplomatic relations with Spain in 1940.

Spain's large debt to Britain and the United States was incurred during the war, and the countries have had a difficult time trying to arrange for the payment of the debt. The Spanish government has agreed to repay the debt, and the United States has agreed to accept the repayment in the form of goods and services.

COMMENTS FOR DADS

Today—October 12th—the nation is observing Columbus Day. But here at Iowa we are observing a day which has become almost as important as that.

That day's event is on the campus of the University of Iowa. Not a parade with the usual flags and the usual marching bands. Not even the usual flag wavers. In fact, the University of Iowa, before the passage of the eighteenth amendment, would never have observed this day. We wish there might be something we could do to mark this in Iowa; but that year marches by your door through Iowa and Iowa, and Iowa and Iowa and Iowa and Iowa, would not make you want to come back home because you could not hear the band—your own band—those bands that speak for Iowa.

It's that kind of day, and it's that Iowa band. It's the Iowa band that your son or her daughter who's at your side.

It's your day to get out today, Dad, and we hope that we will see a trip to Mallon's.

OE ABSENTEE VOTERS—

For those who are open, Nov. 2; those who are under the age of 21, Oct. 19, 20 or 21.

Call for those in whom you are interested. A number of our students and guests are interested in this election, and while we are not able to be on hand to see people, we do stand ready to help out in the necessary forms for absentee voting.

The Procedure

Application for absentee ballots must be made 30 days before the election at the office of the registrar of voting officials of the county. In writing for these ballots you should provide:

1. Address to which you desire the ballots to be mailed.
2. The fact that you are an absentee voter.
3. The date on which you intend to vote.
4. The fact that you have never before voted by mail.

Votes for or against a candidate who is not a resident of the state in which the election is held, shall not be counted.

Suggests Visualization as Teaching Device In Abstract Concepts

By MARGARET ROZMAN

The Dow chemical company, East coast’s oldest chemical company, is conducting a study of the ability of teachers to use visualization techniques in the classroom. The study, which is being conducted in cooperation with the Dow chemical company and the American chemical society, is focusing on the use of visual images in teaching abstract concepts.

The Dow chemical company’s research team is working with teachers at several schools in the United States to develop a system for using visual images in teaching abstract concepts. The goal is to provide teachers with a tool that can help students understand complex ideas more easily.

The Dow chemical company hopes to use the results of the study to improve its own training programs for teachers. The company believes that visualization can be a powerful tool for teaching abstract concepts, and it is working to develop new methods for using visual images in the classroom.
