GREEK TRAGEDY REACHES CLIMAX

Union Board Elections to Be Held Today

Hitler Invasion Ended
All Hope for Albania

German Entry Into Balkan Conflict Deemed Intervention of Fates to Seal Victory
At Crucial Moment

ZEMIR (BITHYNA). April 25 (AP)—To right cries of "Long Live Greece," Greeks clustered in thousands on the streets today to assume their last bit of hope that Hitler would not storm the Balkans.

The Greek army is now in a prewar state of semi-organized chaos. All hope was left on the能否 around the Balkan front as the Greeks attempted to hold the German blitzkrieg. It was a battle that was never to be fought again.

The Greeks were waiting for news of the Balkan front from Chimauros to Yugoslavia where the invasion was fought, with the effective spring offensive which was to be the fall of the Yugoslav navy.

Thousands of wounded in base hospitals at Corinna, Jannina and Arta prayed for speedy recovery as they could fight in the last battle.

Harriman gainers tore up their plans when Hitler launched his men and machines across the Yugoslav mountain range. Setting the Yugoslav collapse before it occurred, the Greeks surrendered their freedom and the impossibility of military aid. The Greek government left the field and gave the order for evacuations.

All ships, the brilliant cruiser, the battleship, the transports, were left. The British had built these ships but had no power to save them. The enemy was now in control.

Northern Coal Operators To Reopen Mines

Await Reply From Southern Directors

On F.D.R.'s Request

By Associated Press

WASHINGTON, April 25—Secretary of Interior W. A. Halsey has reported to the President that the coal operators may resume their strike if the President agrees to the response of the miners.

John L. Lewis, union president, said that he and the coal operators had been discussing the possibility of a settlement and the pinch of the miners. The President has agreed that the strike would continue.

If the workers do not accept the President's proposal, the coal operators may resume their strike.

Navy Transfers 20 Torpedo Boats to Britain in Rush to Aid Nation

WASHINGTON, April 25 (AP)—The transfer of 20 torpedo boats to Britain in Germany is a three-part move to aid the British in their war against Germany.

The transfer, which includes 20 U.S. destroyers, will be made to Britain, in order to aid the British in their war against Germany.

The destroyers were paid for by the British and will be transferred to the United States on a 99-year lease basis.

The transfer of the destroyers to Britain will be made at the rate of $5,000 per destroyer, to be paid by the British government.

Gov. Wilson Signs
6 Poll-Point Bill for Right of Assembly

W. S. THORNBERRY, April 25 (AP)—The Illinois General Assembly approved a bill that will allow the state's voters to vote on the question of whether or not the state should have a right of assembly.

The bill was signed by Governor Wilson today, who said it was an important step in the right to vote on such questions.

The bill provides that the question of whether or not the state should have a right of assembly shall be submitted to the voters at the next general election.

OFFICIAL DAILY BULLETIN

Thurs., April 18

Dr. Tremont, authority on domestic in- plating, says that a single use of the do- ing powder is enough to prevent infestations for weeks. This is due to the fact that the powder kills the eggs and larvae of the insects before they can mature and lay eggs again.

The Book Parade

By John Wilder

Today's Highlights

By Bill Donovan

University Calendar

The book parade is a yearly event in which bookstores, libraries, and other book-related organizations come together to showcase their latest offerings. This year's parade was particularly exciting, with a wide variety of books ranging from fiction to non-fiction, from adult to children's literature. The parade began with a parade of bookmobiles, followed by a march of book lovers carrying their favorite books. The parade ended with a festival of book-related activities, including readings, workshops, and book signings.

• American Social Problem—

Inequality or failure of any part of society to benefit in proportion to what it has invested in the past in a community to which one might belong, regardless of the causes of benefits and shares. This is not an easy problem to measure, but there are indications that it is widespread and of growing seriousness.

• A Friend in Need Is Worth It

We wonder if many persons realize how quickly an opportunity to help a friend may pass. The time may come when we have little or no power to effect much good, but it is never too late to do something to help a friend who is in need.

• Government Interest

Inconspicuous but significant was the government's interest in the recent move to a new government building. The new building is of a modern design and will provide a more efficient and comfortable working environment.

The White Cliffs of Dover—

Impressive Dramatic Performance

By George Tucker

New York (Daily News)—Ungovernable emotions swept through the thousands who gathered on the summit of the White Cliffs of Dover yesterday morning, where a spectacular scene was taking place. The crowd waited eagerly for the arrival of the first group of American soldiers, who were marching to the sound of drums and bugles.

Curbing the Problem—

Several moves to control and solve the problem of overcrowding in the city are being considered. One of these is the establishment of a regional planning board, which would coordinate the efforts of various agencies in dealing with the problem.

Emperor Jones

A new play, "Emperor Jones," has been experiencing great success on Broadway. The play, written by Eugene O'Neill, has been praised for its realistic depiction of life in the South. The acting is excellent, and the script is filled with powerful and evocative language.

Preliminary Work on Airport Improvement Project Starts

Workmen Redemption Equipment; to Finish Laying Paved Runway

Preliminary work for beginning construction of the county's new airport is underway, workmen are told, as workmen prepare the ground and lay out the site of the airport.

Dr. A. Bennett Gives Cancer Control Talk

"X-ray, radiation and surgery are the only three approaches to the cancer problem," Dr. A. Bennett told a large audience at the Ladies brunch luncheon meeting Monday. The meeting was co-sponsored by the American Cancer Society and the Ladies Auxiliary to the Red Cross.

The number of cancer deaths in the United States is increasing, he said. By the end of the year, it is estimated that 100,000 lives will be lost to the disease. This is about 3,000 more than the number of deaths from heart disease.

"The disease is the second greatest killer of women in the United States," he said.

"There are only two ways to fight cancer," he continued. "The first is to detect it early, when it is still treatable. The second is to treat it at once and aggressively."
