Blowout Sends Death Car Across Path Of West Bound Auto

BY ROY DOOLITTLE

Berlin, Germany (AP) - A woman was killed and seven others were injured yesterday when a passenger car crashed head-on with a gasoline tanker. The accident occurred on the outskirts of Berlin.

A spokesman said the navy department here had previously passed by the Senate. The Senate then completed its consideration of the draft extension of the Federal Service Act.

On the same day, the Soviet Air Staff command in Moscow announced the establishment of a new aircraft formation in the city.

The move comes shortly after the German invasion of Poland.

The announcement was made by the chief of the German air staff, General Erich von Wehner, who was visiting Moscow today.

The new formation will consist of ten fighter squadrons and two bomber squadrons. It is expected that the new formation will be ready for action by the end of the month.

Erich Schmal, chief of the German air staff, said today that the new formation was being established in response to the growing military threat posed by the Soviet Union.

Schmal said that the new formation would be equipped with the latest German fighters and bombers, and would be capable of rapid deployment in the event of war.

The move comes at a time when the Soviet Union is reportedly increasing its military spending and expanding its nuclear arsenal.

Last week, the Soviet Union announced that it had tested a new type of intercontinental ballistic missile.

The new missile is reportedly capable of carrying multiple nuclear warheads and has a range of over 10,000 miles.

The test was reportedly carried out from a site in northern Siberia.

The test comes amid growing tensions between the United States and the Soviet Union, as tensions rise over the issue of nuclear disarmament.

The United States has previously called for a moratorium on nuclear testing, while the Soviet Union has refused to sign the proposed treaty.

The move is likely to be seen as a reaction to the United States' decision to resume nuclear testing.

The United States recently announced that it would resume testing of nuclear weapons in order to maintain its technological edge.

The Soviet Union has previously threatened to respond to the move with its own tests of new weapons systems.

The move is likely to heighten tensions between the two superpowers, as they continue to engage in a global arms race.

The United States and the Soviet Union are currently engaged in a dispute over the issue of nuclear disarmament.

The United States has called for a comprehensive ban on nuclear weapons, while the Soviet Union has refused to sign the proposed treaty.

The move is likely to be seen as a reaction to the United States' decision to resume nuclear testing.

TAXI'S SMEARED
By WHITNEY MARTIN

Bob Feller of the Cleveland National
League, baseball's No. 1 pitcher, in a
perfect personal appearance in the
 multimillion dollar contests in the
 majors, went into action last night
 at Cleveland, Ohio, and before a crowd
of 35,128 fans, the largest ever to
 see the Indians at home, turned in
a perfect season in which he
smoldered like a Roman candle.

In the second inning, however, the
Chicago White Sox made it 2 to 0
and the crowd went wild in the
feeling that Feller's season was over.

But the vast throng was to be
delighted again as Feller again went
into action and turned in a four-inning
no-hit game, which broke the
record of 27 straight innings without
letting a hit, set by Jo Jo White of the
New York Giants.

The Lefties, who were leading 5 to 1 in
the ninth inning, were stopped in
their tracks as Feller turned in a
three-hitter. The White Sox scored
three runs in the third inning and
two in the fifth. Feller's strikeout record
was set at 18 and his earned run
average was cut to 1.00.

The Indians fought back in the
ninth inning for two runs, but the lefties
were in command and the game
ended 5 to 3.

Feller's strikeout record was set
at 18 and his earned run average
was cut to 1.00.

S. J. Woolf Interviewed the Great—

ARTISTIC JOURNALIST

As He Sketches Their Picture

NEW YORK. (Via the Associated Press) — S. J. Woolf, the English writer, sat down to sketch the greats in New York this week, and the results are to be published next week. Woolf, who has been sketching famous figures for over 20 years, is known for his realistic drawings and his ability to capture the essence of his subjects. In this interview, Woolf discusses his experiences and insights into the lives of the people he has sketched.

**Analysis:**
- S. J. Woolf is an English writer known for his sketching of famous figures.
- He is publishing his sketches next week.
- Woolf has been sketching for over 20 years and is known for his realistic drawings.
- This interview provides insights into his experiences and perspectives on the people he has sketched.

**Relevant Knowledge:**
- Sketching is an art form that involves drawing quick, loose, and spontaneous sketches to capture the essence of a subject.
- S. J. Woolf's work likely reflects his ability to convey the character and spirit of the people he has sketched, whether it be through his technique or his choice of subjects.

**Questions for Further Discussion:**
1. What are some challenges Woolf faces when sketching famous figures?
2. How does Woolf convey the essence of his subjects through his sketches?
3. What impact has Woolf's work had on the art world?
