HUNDREDS OF BOMBERS CARRY OUT 2ND Big Raid on Essen Factories

LONDON (AP)—The RAF carried out what may be its biggest raid ever on Essen yesterday, wiping out 40,000 houses and destroying 200 factories.

In the three days since the last big raid on this city, Essen has been all but swallowed up by flames.

Hundreds of refugees are seeking shelter in Basel, Switzerland, which is the nearest town on the Rhine, and the Swiss are sending in food and supplies.

Smoke and flames can be seen from the town of Saarbruecken, 60 miles south of Essen, until the eye strains.

The German army in the Ruhr area has been ordered to evacuate the city, leaving it to the flames.

The city of Essen, with a population of 900,000, is situated on the Ruhr coal fields, about 50 miles from the French border.

The town has been under constant bombardment for the past three years.

Cafeterias at the pre-flight school have begun to feature programs of reconditioning their bodies and building them up to maximum effi- ciency. When drilled into the naval routine, the men are not only required to eat at set hours, but also to conform to the official diet. Moreover, they must leave the mess halls by 20 minutes after the hour and before the horn sounds. The cadets are not permitted to sit at the tables after 10 minutes, and the mess halls are not permitted to exceed 20% capacity at any time.

The cafeteria program is designed to reinforce the cadet's discipline, fitness, and a general improvement in his overall health. By following the strict rules of the cafeteria, the men are able to maintain a consistent and healthy diet.
