Army Demands Fourth of All Meat

Power Workers Reject Settlement Plan

Union Leader Frees to Vote In Secret Poll

PITTSBURGH (AP) — Striking steelworkers yesterday righteously considered a settlement proposal of the United Steel Workers of America, issued in a press release, and then went to vote in secret. The union-American plant workmen attending a special meeting of the executive board at headquarters of the United Steel Workers, 1550 Grant St., Pittsburgh 22, yesterday afternoon. It was announced at 12:37 p.m. yesterday.

The strike, which has been on since Jan. 1, 1956, involves workers' demands for a 10 percent increase in salary and other fringe benefits. The union claims that steel companies are making a profit of more than 10 percent on their capital.

The settlement proposal includes a 10 percent increase in wages for all workers, a 10 percent increase in the company auto allowance, and a 10 percent increase in the company auto allowance. The union also demands the restoration of the 10 percent increase in the company auto allowance, which was abolished during the strike.

The settlement proposal also includes a 10 percent increase in the company auto allowance, and a 10 percent increase in the company auto allowance. The union also demands the restoration of the 10 percent increase in the company auto allowance, which was abolished during the strike.

The settlement proposal also includes a 10 percent increase in the company auto allowance, and a 10 percent increase in the company auto allowance. The union also demands the restoration of the 10 percent increase in the company auto allowance, which was abolished during the strike.

The settlement proposal also includes a 10 percent increase in the company auto allowance, and a 10 percent increase in the company auto allowance. The union also demands the restoration of the 10 percent increase in the company auto allowance, which was abolished during the strike.
Atomic Bomb Test on a Town

By ELEANOR GERSCHEIDER

* * *

The news that called the desert town of Trinity, N.M., to attention was a dire warning of the future...a draft of the sixth column of an atom bomb. It was at this time that the world took notice of the atomic bomb test.

Trinity was chosen as the site of the test because it was a small town with a population of 2,000, which would allow scientists to study the effects of the explosion on human beings. The test was conducted on July 16, 1945, and was the first time that an atomic bomb had been detonated.

The blast, which was equivalent to the force of 17,000 tons of TNT, destroyed much of the town and caused widespread damage. The blast wave was felt as far away as 12 miles, and the shock wave was felt as far as 50 miles.

The test was conducted by the Manhattan Project, a top-secret military project that had been established to develop an atomic bomb during World War II.

The success of the test provided the United States with a strategic advantage over its adversaries, and it marked the beginning of the nuclear age.

Since then, atomic bomb tests have been conducted in various locations around the world, including the Marshall Islands, Nevada, and South Dakota.

The tests have had a significant impact on the environment, as well as on international relations. The tests have led to concerns about nuclear proliferation, and the United States has been involved in efforts to reduce the number of nuclear weapons in the world.

The Trinity test was a significant event in the history of the atomic bomb and the development of nuclear weapons. It marked the beginning of the nuclear age, and it continues to have a profound impact on the world today.

The BASEBALL SCOREBOARD

IWANSKIE (AP) — Woody Walters, star of the University of Iowa's baseball team, has been suspended for the remainder of the season after being arrested on a charge of disorderly conduct.

The incident occurred during a game against the University of Minnesota on April 12, when Walters allegedly started a fight on the field.

Walters, a junior, has been a key player for the Hawkeyes this season, hitting .324 with 10 home runs and 40 runs batted in.

Iowa head coach Rick Heller said Walters will miss the remainder of the season and could face additional punishment for the incident.

The Hawkeyes are currently in third place in the Big Ten Conference, two games behind Michigan and Ohio State.

Walters' suspension comes just days after Iowa's loss to Minnesota, which dropped the team to a season-high of 11-12.

Iowa will continue its conference schedule with a weekend series against Illinois, with the first game scheduled for Friday at 7 p.m.

Brock University (AP) — Brock's baseball team is in the midst of a difficult season, with a record of 5-19 so far.

Head coach Mike Johnson said the team is struggling with the 2019 NCAA rules, which limit the number of pitches a pitcher can throw in an inning.

"It's a tough pill to swallow," Johnson said. "But we're trying our best to adapt and find ways to make it work."
