Some Conclusions on the Franchise

The citizens of Iowa City will decide today whether to renew the franchise with the Iowa Water Works company for the next 30 years. This is an important decision for all of us, one that will affect the future of our city and the well-being of its citizens. This newspaper, while not having a political affiliation, believes that the franchise should be renewed because it will benefit the citizens of Iowa City.

The questions we face are: Why has the rate of business declined? Why has the city been in debt? Why hasn't the city been making progress?

As a general recommendation, we feel that the city should make fewer, but larger purchases. The economic depression is the main reason for the financial condition of the city. The very fact that the city is in debt is indicative of the need for more careful financial management. The other two questions are more involved and will be answered by a committee that has been appointed for the purpose.

Finally, we feel that the city should make every effort to attract business and industry to the area. The economic depression is a temporary condition and the city should take advantage of it.

We believe that the Iowa Water Works company has provided services to the city in the past and we hope they will continue to do so in the future.

The Law Is Yet an Ideal

A new hope and new "handicap" of an old trial, an all-day job, was last week such a suspense that it was necessary to have Wilson and Lindsley in the courtroom for the first time in two weeks.

We probably should be happy with the jury's verdict since a conviction is not a sure thing, and we shall have a new trial if the judge should set aside the verdict.

The information that was submitted in the case of the defendant's appeal is that he has never been indicted for any crime other than the one for which he is now on trial. This is an important fact in the case of the defendant's appeal, and it is important that he be given a fair trial.

Iowa Citizens To Vote On Water Franchise Today

Balloting Hours for Election
To Be From 7 a.m. to 8 p.m.

The welfare of citizens of Iowa City will decide today whether or not the franchise of the Iowa City Water Service Company is to be renewed.

The people own this important water franchise. Renewal or not renewal of the franchise will be decided in the ballot boxes by the votes of the people. Those owning stock in the company will have no voice at all, for the franchise is held in the name of the city.

The water company is the property of the people. The company is not answerable to stockholders, but to the city. The franchise is owned by the people, and only the people own this franchise.

In the past the city has failed to see that the company is not the property of stockholders, but of the people of the city. The shareholders, the officers of the company, have been chosen by the people of the city in the local elections.

The city elections have failed to provide for the election of an officer of the company to see that the property is not mismanaged or misused.

The city council has failed to see that if the company is to be reorganized, or if it is to be continued, or if it is to be sold, or if the franchise is to be renewed, that it is to be decided by the people.

The city council has failed to see that the money raised by the franchise is not used for the personal gain of the officers of the company.

The election of the people will be held under the commission regulations. The elections will be held in the town hall. The elections will be conducted by the city council, under the direction of the election commission.

The election of the people will be conducted under the direction of the commission, in the town hall, with the election commissioners conducting the elections. The city council will see that the elections are conducted in the town hall, and the city council will see that the elections are conducted in the town hall.

The city council will see that the elections are conducted under the commission regulations. The city council will see that the elections are conducted in the town hall, and the city council will see that the elections are conducted in the town hall.

The commission will see that the elections are conducted under the commission regulations. The commission will see that the elections are conducted in the town hall, and the commission will see that the elections are conducted in the town hall.

To the People of Iowa City

In 1942 we purchased the Iowa Water Service Company after the people of Iowa City had voted 2072 to 372 against Municipal ownership of the plant. The company was brought on the open market under the supervision of the Federal Security and Exchange Commission regulations.

Since buying the plant we have conscientiously tried to give the people of Iowa City the best possible water service, water and fire protection at the lowest possible rates. We take pride in the improvements already made.

It just hasn't been possible for us to talk to each of you personally as we would like to do and assure you of our sincerity and desire to co-operate with you in the future development of our city.

Therefore we have taken this means to give you our assurance and to request your support.

Respectfully
Dr. George H. Scanlon
J. Leo Scanlon

L.V. Carlton Files Object to Gas Tax Fund Release

Challenges Legality Of New Distribution Scheme

L. V. Carlton, Iowa City, Monday, brought suit in the state district court in Iowa City, Monday, to have the new distribution plan declared illegal. Mr. Carlton, who had been attorney for the Iowa district court, said that the plan involved a distribution of the state gasoline tax revenues that was illegal. Mr. Carlton said that the plan was an attempt to circumvent the state constitution by distributing the tax revenues in a manner that was not authorized by the state constitution.
