Hawks Outlast Ohio State in Opener, 49-41

Catapult to 36-18 Lead at Half; Wier Sizzles with 17 Points

By RICK TURNELL

COLUMBUS—Ohio State's 12-11 lead after one period was wiped out by Iowa's 36-18 surge in the second half to give the Hawkeyes a 49-41 victory in the season opener here last night. The Hawkeyes turned a 12-11 advantage into a 27-17 lead at the half, never giving the Buckeyes a chance to take the entire contest.

The game continued in much the same fashion throughout the second half, but only three from the free-throw line and six in the second half gave Ohio State any points at all. At the very beginning of the second half, but at the same time as the Hawkeyes appeared on the floor after the intermission, the crowd let loose with the distinctive War Whoop. For a while it was thought the Hawkeyes might have to wear a whiteout on the floor to obscure the title of the game.

The Hawkeyes-Ohio State game kicked off in the first ten minutes, with Buckeye leading two to nothing. The Buckeyes in the meantime had cut the score to 12-11, mostly through the efforts of Bob Wier, who had three points.

At the start of the second period, the Buckeyes' journey into the lead was three points, but Iowa's Wier knocked in six points, followed by a basket by Jackie Jenkins in 2:30. Iowa's attack was led by Wier with six points in the first half, followed by Jenkins with 11. Iowa retained a six-point lead, with 17 points, center Roger Finley, 16 in the Hawkeyes with the second lead. Center Neil Johnston in the Buck who seemed to have given Wier a little assistance before his fall.

CAP KIPPING, 45-42--Without a doubt, the biggest surprise of the entire game was the fact that Iowa could beat Ohio State, even with a short bench. The Hawkeyes jumped off on a 24 point lead, and never gave the Buckeyes a chance to get within range of the lead.

President Truman's Commission Reports On Higher Education

by SAM GOTTENFIELD

This is the first of a series of articles discussing a report President Truman's Commission on Higher Education submitted to the government. The entire commission's work, we shall restore to the public.

Recognizing the need to re-examine the higher education system in terms of its objective, methods, and the social demands on it, President Truman formed a 13-man commission in December 1946 to make recommendations for its improvement.

Dean Carl B. Riefler of the College of Illinois is one of the commission's chairmen and a substantive member of the commission. He, together with the other members, seeks to achieve a better system of education.

The group is preparing a 500-page report, containing over 1,000 pages of information, from educational institutions throughout the United States.

The first volume of the report will be made public in a short time.

It is to be realized that the commission's findings are an effective instrument of social change. The commission will be in session this spring and its report will be ready for release by the summer of 1947.

The central topic of the report is: Education for a Better Nation and World

Educating for a Better Nation and World

by BURGESS DAVIS

It is the duty of every nation to educate its citizens for a better world. This is the main objective of the commission's report.

The commission's report is a comprehensive study of the current state of higher education and the problems it faces. It is a call for a more equitable and effective system of higher education.

The commission's report emphasizes the importance of education in shaping the future of the nation and the world. It calls for a more equitable system of higher education that is accessible to all citizens.

The commission's report is a call to action for educators, policymakers, and citizens to work together to create a better nation and world.
