Gen. Bradley Calls Service Row Harmful

WASHINGTON — Five-star Gen. Omar Bradley told congress Wednesday that the dispute between him and President Truman is "completely inaccessible to the public." He said the issue was "merely a misunderstanding on the part of the military as to the correct interpretation of the government's position on the Korean War." Bradley said he had been "overreacted" to the President's statement about the possibility of a military operations committee.

"I am a member of a joint board," he said. "I have been overreacted to the President's statement, and I am going to try to do something about it." Bradley said he had been "overreacted" to the President's statement about the possibility of a military operations committee. He said he was going to try to do something about it.

Coal Negotiations Stalemated; Steel Industries Feel Shortage

WASHINGTON — Negotiations between steel and coal companies reached a "stalemate" stage Wednesday, as the two sides continued to wrangle over the terms of a new labor contract.

The Steel Companies Association and the United Mine Workers of America are still far apart in their positions on key issues, including wages, benefits and working conditions.

On the other hand, the coal companies have agreed to a 10-cent-per-ton hike in wages, but they want a 20-cent-per-ton increase in benefits. The mine workers are demanding a 20-cent-per-ton increase in wages, but they want a 10-cent-per-ton increase in benefits.

The talks have been marked by bitterness and deadlock, with both sides accusing the other of bad faith and lack of willingness to compromise.
