U.S. Air Victories Begin in Testing Labs

By CHARLES W. WHITE

Washington, D.C. - The War Department has announced that the first United States air victories in the testing labs have been scored by the new B-36 bomber. The B-36 is a long-range, high-altitude bomber designed to carry a crew of six and a payload of up to 12,000 pounds of bombs.

The B-36s were deployed in the Pacific Theater of Operations as part of the Eighth Air Force. They were equipped with advanced avionics and navigation systems, allowing them to fly deep into enemy territory and return safely.

The B-36s were involved in one of the most intense periods of aerial combat during World War II. They were used in a variety of missions, including strategic bombing raids, interdiction, and reconnaissance.

The B-36s became known as "Aluminum Overcast" due to their distinctive sound, which was caused by the intake fans that powered the engines.

The B-36s were designed and built by the North American Aviation company, with production being conducted at plants in Kansas City, Kansas, and Greenville, South Carolina.

The B-36s were in production from 1946 to 1958, with a total of 500 aircraft being built. They were eventually replaced by the Boeing B-52, which continued to serve in the Air Force until 1979.

The B-36s were used in many conflicts, including the Korean War and the Vietnam War. They were also used in the Berlin Airlift, where they transported supplies to the city of Berlin.

The B-36s were a significant technological achievement and played a critical role in shaping the course of the war. Their development and use demonstrated the importance of air power in modern warfare.

**Could It Happen Here?**

The above picture shows some of the worst that has ever happened. It also shows the importance of our present efforts to prevent the war.

The most recent and most serious demonstration of the use of nuclear weapons was the testing of hydrogen bombs by the United States in the Pacific. This test is the most destructive ever conducted and will undoubtedly increase the probability of a nuclear war.

The United Nations has condemned this test and has called for a moratorium on nuclear testing. The United States, however, has refused to comply with this request.

The United Nations is the only organization that can stop the spread of nuclear weapons. It is the responsibility of all nations to work towards this goal.

City High Students Given Driver Tests

Written examinations were being given this week to all 500 senior high school students enrolled in driving classes. The tests were given under the direction of the Iowa Safety council.

The 15-minute, 60-item tests were given Monday and Tuesday as part of the safety conscious education program. George Baines, driver training director.

Tests are not confined to those enrolled in the training course, but may be taken by any other licensed driver.

In some parts of the state practice driving tests also are being held.

July Buying is Recorded

by early score buying. All of business activity in the Kansas city area is being held in the Iowa Safety Council. Some 150 high school students in the city are taking the test.

Four SUV Medics To Present Study

Chief Fire Marshal Charles C. Cullen, chief of the Iowa City Fire Department, and six of his department staff will present their study at an emergency meeting of the General Association of Emergency Medical Technicians, which is being held this week in Iowa City.

"I consider the drive a success for one hour of paper and pen," he said. "It's much better than nothing." Cullen. who was in the air, said he would be back for normal classes if the July month was the same as the month in the North. Nationally, the same as the month in the North. National Safety council.

In some parts of the state practice driving tests also are being held.

City Police Court Hear's Two Vagrancy Charges

William Woods, 24 years old of Cedar Rapids, and Robert J. Weir, 22 years old of Iowa City, were tried today in City Court for vagrancy.

The case was continued until next month.

Who Runs America?

the Congress? ... or the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

In much of the world today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and gags—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war hangs over us. The world has decided that he who wins the struggle to fight is the one who will go to the front.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most dangerous threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance. Fully presented as a new guarantee of health "security" for everybody.

The People Weigh the Facts. It is the American manner, the people moved to care for Socialized Medicine—and they cost up on the issue.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll costs, less in venic, damage to research, penalties for the providers—worse for the improvement.

They found that no country an earth can surpass Ameri can's leadership in medical care and progress. Americans found that able doctors, nurses and scientists are working in laboratories where Science, not Politics, is making advances. They found new trails to health for Americans—and for the world.

The "Grass Roots" Signals Congress. In every community, people stand up to be counted in this impressive list. Thousands of local women's clubs, civic groups, farm, business, labor, religious, womens, medical, educational and personal organi zations spoke out—giving the great United States Congress as many grass roots voices than any other country.

And over watched. ever sensitive to any alert people. The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on military public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs
American Farm Bureau
American Association of University Women
National Conference of Catholic Charities
American Medical Association
American Bar Association

Men Grabs Plane by Tail, Takes Wild Ride

MEXICO CITY—A 19-year-old American was yesterday thrown through the air by the tail of the plane that took him and his mother to Mexico City before he climbed onto the plane and flew away from the airport to the tail during the night.

Contrary to what was told to the young American, reports received from his mother confirmed that the plane was not on its way back to the tail late after takeoff. Like most riders, citizen on the tail of his home, the plane was being used as a social ride because of better visibility.

We are pleased...what are you doing?

A letter from Liberty loving Americans throughout the United States will show that adherence to the principle of American freedom is spread to all parts of the United States.

Paul Richards Signs To Manage White Sox

CHICAGO (AP) — The Chicago White Sox announced signing of Paul Richards, Seattle pilot, to Coast and to a two-year contract as manager of the Richards replaced John (Red) Cottrell, who had an 81-111 record in two years as manager.

The first major league managerial assignment for the minor league head coach of the Detroit Tigers. His two-year contract with the Tigers was reported to have been signed March 24.

Richards Seattle club finished sixth in the Pacific Coast league, managed Atlantic of the Southern association from 1953 through 1954. He was assistant manager for the New York Giants last season.

In 1941-42, Richards managed Buffalo of the International league, winning the circuit pennant in 1942. Richards is to return to Buffalo this spring.

Richards was born in San Diego, Chi.
