The scene was tense early today as President Truman gave the opening address in the House, and the session was punctuated by principal orations by the Republicans and the Democrats. The debate was halted until Monday morning, however, after the vote on the de facto and virtual two-week recess.

**Class is Dream Assignment for Teacher — No Assignments, Examinations, Grades**

There is one teacher in SUI with a "dream" assignment.

She directs a class with the largest enrollment of any given course at the campus; an estimated 10,000 — and she never has to grade an examination paper or answer a question from a peddy student intent upon stump ing her.

Like to know who she is and how she's done?

Study habits covering the problem of the teacher who teaches a class without a grade or an examination were observed by Mr. John P. Begle, SUI's program director, for a period of one year.

Begle in his report, "The Teacher Who Taught Without Grade," tells how the teacher was able to "adjust" her teaching to a "dream" assignment.
