Tips for the Polls

A few other thoughts served to stir now that all the election

votes have been cast. In Central Iowa, for example, we have

heard a number of candidates and their campaign managers

saying that they want to see how the results of the election

will affect the outcome of elections in other states. They

also seem concerned about how the results of the election

will affect the outcome of the presidential election next year.

We hope that the elections will take place on time and that

the results of the election will be announced as soon as possible.

We are looking forward to seeing how the results of the election

will affect the outcome of the presidential election next year.

A Job Well Done —

Our thanks and appreciation go to the Iowa City Street

Department for its efficient work in clearing the downtown streets after the snow

was cleared.

Two open slept of the public, parking-stall traffic were

brought to an end, and the downtown streets were

clear of snow. We wish the entire state could have witnessed just

how well the job was done.

Food Takes First Drop in Five Months

The cost of living dropped five cents in January, with the

consumer price index falling to 188.3 from 190.3 in December.

F. H. Campbell, chief of the Federal Reserve Board's economic

staff, told reporters the drop was the result of a "return to

normalcy" in prices and wages.

The cost of living in the United States dropped by 0.6 percent in

January, the first decline since November, when the cost of

living increased by 0.5 percent. The cost of living in New York

City fell by 0.8 percent, while the cost of living in Chicago

rose by 0.4 percent.

A Bad Low —

The National Weather Service reported that a strong

cold front moved through Iowa on January 17, causing

temperatures to drop into the single digits. The front

passed through the state early in the morning, leaving

behind a cold and windy day.

4-Step Treatment Urged for Respiratory Infections

New York (AP) — A nationwide campaign to prevent

respiratory infections was launched by the American
n
Pulmonary Association, which is sponsoring a

series of public service announcements on radio

and television.

The campaign, which will run through March, is

aimed at educating the public about the importance

of preventing respiratory infections such as

the common cold.

The campaign will focus on the importance of

washing hands, covering the mouth and nose

when sneezing or coughing, and staying away

from people who are sick.

A Re-Appraisal Needed

The government has been criticized for its

handling of the 1984 election, which was said

to be a "weak" election. Some analysts believe

that the government needs to do more to

ensure that future elections are held

fairly and honestly.

The government has been accused of

being too lenient in its enforcement of

campaign finance laws, and of

allowing too much money to be

spent on campaign advertising.

Many experts believe that the

government needs to do more to

ensure that future elections are

free of corruption and

manipulation.
Eight ROTC Students Chosen for Medals

Eight Freshmen and Sophomore ROTC cadets were chosen recently by the University of Iowa ROTC Council to compete in the national drill competition that began March 13 in such prominent universities as Northwestern and the University of California at Berkeley. The cadets were selected on their previous performance of the University of Iowa drill team and their personal qualifications.

The competition took place in Washington, D.C., on March 28 and 29, and the University of Iowa drill team placed seventh in the competition.

Family Budgeting Explained

In Simple Terms by Booklet

American families, as a result of high prices for food and other necessities, and budgeting and buying habits, are finding their money disappearing more rapidly than they can earn it. A booklet on this subject has been published by the American Insurance Company, a Columbus, Ohio, firm.
Government Spending $60-Billion A Year On Defense Material

WASHINGTON—The government disclosed Friday it is counting on a total of $60-billion worth of defense production in 1951, a 35% increase over 1950. A letter addressed to majority leader of the Senate, Mr. P. B. Cooper, stating he is in favor of the spending, was released on Monday. The letter stated that the government is in favor of the spending.

Communication Building Bids Open On April 4

WASHINGTON (AP) - For the next 10 years, the government is planning to build a new communication building on the site of the old building. The building will be 100 feet wide and 50 feet long. Bids for construction are to be opened April 4.

Iowa City "Dungeon" Exposed

IOWA CITY, Ia. (AP) - A year ago, the University of Iowa was asked to clear up the "dungeon" legends that were spreading on campus. A committee was appointed to investigate the matter, and it was determined that the problem was not as serious as had been feared.

Short Course Here To Stress Water Defense Problems

A two-day water wells course, planned to take place in the fall, is being advertised. The course is aimed at those who are interested in preventing water pollution and in conserving water resources.

Easter Sales Show 20 Percent Increase

WASHINGTON (AP) - The Easter sales figures for the past week indicate a 20% increase over last year. The figures are based on samples taken in 200 stores throughout the country. The increase is attributed to the warm weather and the increased buying power.

Geologist to Talk On Middle East Oil

Dr. K. E. Brown, research professor of the University of Petroleum, will talk on "The Geology of the Middle East" at the annual meeting of the American Association of Petroleum Geologists. The meeting will be held in New York City.

Big Ten Will Permit Freshmen To Compete

Davenport, Keokuk Win AA Sub-State Titles

Blue Devils Dip
Clinton, 65-54

SLI Downs Hawkeyes in Baseball Opener

State Tourney Pairings
Tuesday, 120 - Sioux City Central vs. Keokuk. 7:00 - Ft. Madison vs. Grant
Wednesday, 120 - West Rico vs. Pleasant Valley. 7:00 - Davenport vs. Waterloo

Says Robinson: He Will Run and Run and Run

Miami, Fla. (Pre) - Jimmie Roberts has named his starting lineup for the game against Florida State on March 24.

Williams Has Done It Again

Controversial Ted Spins in Direction of Stands

The Boston Red Sox outfielder who does what crosses nearly 100 percent of the time—whether it's an exhibition of his athletic ability or a combination of pure luck—has done it again.

The former centerfielder of the Athletics, who was generously allowed to walk a last week, realized that continuous errors were all it was. He would catch five to ten more.

"That's right," said the Speedbird.

The Speedbird has been his title. It was the direction Florida State outfielders had taken him by the shortstop.

The Speedbird was afterwards allowed to walk a last week, realizing that continuous errors were all it was. He would catch five to ten more.

Bremers Beat Ben in NAAU Tourney, 54-38

"LADY LUST" from the National Agricultural Association and a leading team in the National Association of Amateur Ladies, came to the Lady Bremers and a first round battle in the 1936 Southern District Tournament Tuesday evening, with a 54-38 victory over the Bremers. The Lady Bremers scored 1,200 points and the Bremers 38, with 19 points to spare.

Bremers, who were on the road for the first time, were unable to make the trip to the NAAU Tournament, which was played in Jacksonville, Fla. They were defeated by the Lady Bremers, who scored 54 points and the Bremers 38, with 19 points to spare.

Six-foot tall, red-haired, Six-month-old baby is held over the one-year-old extracurricular activities in an attempt to determine whether there is another activity that would be more beneficial to the student. The student's age, height, and weight are recommended for passage of a school board bus route in the Iowa liquor control commission. The measure, previously passed by the Senate, now goes to the House of Representatives. The schools committee recommended that the proposal of the Fort Dodge, Des Moines building be approved in the case of corn and the major protein crop in the world. The outlook for production next year is not as promising as the outlook for the current year.
