Morel Meat Workers Ask 
For Free Holiday Hams

OTTUMWA (AP) — The CID Packinghouse Workers of America hopes to get from John Morel & Co. a majority of its local demands — including two free holiday hams per employee a year — the union president here said Tuesday.

"It's not a request or a demand. The local No. 1 with a membership of 2,850, and the union is currently negotiating with the packer firm for revision of wages and other items, including 27 "local" demands formulated by the Ot
tumwa union, plus the "inter-
tional" demands sought from all plants.

In addition to the free 15-pound ham each Christmas and Easter, "local" demands include:

- Two hours paid travel time per working day for each employee — an hour before and an hour after the working hour.
- A day off for each birthday for an employee — paid at the regular eight-hour rate by the company.
- Free lunches furnished by the company, or a dollar in pay in lieu of them, and the 30-minute lunch break to be considered working time.
- Meat to be sold at wholesale to Morel employees.

While the company had no immediate comment on the "demands," Van Tassel stated: "we can't expect to get all of them, we hope we can get a majority of them. They are "bargaining points," he said.

Van Tassel said the "local" demands, as well as the "international," are compiled from employee suggestions offered at union meetings during the year. The demands made, he explained, or the ham request, and others, Van Tassel said, "they aren't so unreasonable. Many companies have the custom of purchasing employees with their families to visit friends or Christmas gifts."

He also stated that most companies would be "under a radio operators for much of the radio communications service needed, but estimated that if a company, willing to purchase public radio transmitting and receiving equipment, they could obtain satisfactory sets for approximately $650 to $850."

Hunter pointed out that the amateur radio operators in Iowa have already established a civil defense network which is ready to send assistance in an emergency. Also during the morning pro-
gram, V. W. Clarks, area dis- trict commander for the North-
ern Iowa Bell Telephone company revealed that all Bell exchanges throughout the state were reported in "fair" condition.

Transferred to the inactive list were Thurman McAlister, 4, Ottumwa, and Dennis Hin- nings, 5, Davenport. A request was made to the local hospital to give the hospital total seven, officials said.

South Des Moines Plan to Defeat Truman

WASHINGTON (AP) — State's Rights Leader Leader H. Perot of Louisiana said Thursday the state's Rights Party will meet in Des Moines to select a candidate to run for President.

He added that Gen. Dwight D. Eisenhower, the Republican candidate, is also expected to run, even as the Republican nominee.

The Louisiana lawyer, leader of the movement which put up the state's Rights candidates in 1948 and 1952, said that anti-Truman sentiment is continuing to grow.

He said the party cannot stop Mr. Truman in the Democratic primaries, but it can move in Chicago next July, and again in November.

The anti-Truman formula will be to put the presidential candidates chosen by the various southern states under mandate to support a presidential candidate more to their liking. It would not involve a separate ticket as in 1948.

It would work in different ways in different states, depending on state election laws. It didn't work in 1948, when the state rights ticket carried only Alabama, Mississippi, Louisiana, and South Carolina.

The party depends upon anti-Truman forces holding central lines in South Carolina, and on organization, particularly in states where the party has had some influence in the selection of presidential electors. Since the 1948 elections, the forces have gained control in Alabama.

He concluded that the rise of pro-Truman forces in Alabama is a greater worry than the anti-Truman formula will face.

The plan, he said, will outline the presidential ticket for several southern states — more than enough to make a strong showing.

He said the anti-Truman sentiment in the south is not limited to the Negro right issue but has become a "universal socialist trend." He listed the Brannan Farm plan, the compulsory health insurance proposal of Chancellor...
