New Students Orientation Begins Today

(See Picture on page 5.)

Orientation week opens today in the big, air-conditioned building entering SUI for the first time. New students in engineering and pharmacy will begin their orientation activities Monday afternoon with special intensives. Activities of the new-students week are designed to acquaint transfer and transfer students with the problems they will face in the transition to SUI.

Several innovations have been made in this year's orientation. Included in the program have been expanded advertising to invite as many students as the facilities will allow to attend each day of the week's activities.

This morning's orientation session, which precedes the opening exercises of orientation week will be followed by special group meetings for transfer students.

Orientation week is divided into five sessions, including the one from 10 a.m. to 12:30 p.m. Monday from 10 a.m. to 12:30 p.m. Tuesday, from 9 a.m. to 12:30 p.m. Wednesday, from 9 a.m. to 12:30 p.m. Thursday, and from 9 a.m. to 12:30 p.m. Friday. All of the meetings are held in the auditorium.

Student Deferment To Continue Year

WASHINGTON (AP) – The defense department said Wednesday that it will continue deferring all students who deferred the academic year because of the Korean conflict for the current year.

The department stated that it will defer the students who have applied in the past and that the decision was made in order to keep the armed forces at full strength.

However, it was reported that the draft board is expected to have a more lenient attitude towards deferment requests.

UN Warns Reds 'Okay'

TOKYO (THURSDAY) (AP) – The United Nations Security Council, in a statement late Wednesday afternoon, gave the Reds 'okay' to resume armistice talks.

The statement was made following a meeting of the council, which was called to discuss the situation in Korea.

The Reds have rejected all previous offers of talks and have been operating on the assumption that the talks were dead.

One American soldier was killed when a United Nations airplane was shot down over Korea late Wednesday afternoon. The pilot, Capt. John F. Murphy, 2nd Lt., was reported to have been killed in action.

The Reds have been operating on the assumption that the talks were dead. The Reds have been operating on the assumption that the talks were dead.

The Reds have been operating on the assumption that the talks were dead. The Reds have been operating on the assumption that the talks were dead.

Weather

Faintly cloudy and cooler today. High 77, low 59. High today, 80; low, 47. High Wednesday, 80; low, 48.

Big 3 Ministers Agree on Progress Of Cold War Plans

President Truman Nominates Bowley as Ambassador to India

Chester Bowley
Must Win Over Nehru

George VI is Suffering From 'Lung Condition'

WORLD -- The health of Great Britain's King George VI has failed again.

That fact, hinted at for days, emerged Wednesday through the rigid protocol of royal tradition.

Black headlines splashed above front page pictures of the king's drawn and tired face, told Britain that their monarch has been forced to cut short his traditional Scottish holiday and return to London for treatment of a "lung condition".

His illness has been plaguing him since last May.

The King's return, expected after this weekend, was decided upon as a result of X-ray examination of his chest last week's virtually unannounced trip here from Scotland for a 20-minute consulta-

tion with medical advisors and London's well-equipped hospitals, again
tional speculation; that he may

have to cancel his scheduled Jan-

uary visit to Australia unless his

presidential authority.

The retirement of Grady -- to be

represented by Heidrick -- and

appo

of the Indian post had been expec-

ted. Grady started leave earlier than stayed because of the British

Indian oil crisis which still must be

solved.

The effective date of the act,

assuming Senate confirmation or rather thorough, will immediately be at the hands of the President.

Chester Bowley has been available for a permanent assignment since he was operated for re-election as gover-

nor of Connecticut in November.

He may find his assignment as tough as his job as price adminis-

trator at the end of World War II, when the nation was shifting from war to peace economy.

The principal job of the unassi-

essed to India and Nehru's important

not only between India and Pakistan, but also with the United States and the Soviet Union.

The delicate subject of the talk is demonstrated by the fact that Nehru boycotted the recent Japan-
Colonel Blames Wife's Breakdown On 'heckling' Dogs

LONDON (AP) — Col. Kenneth Percy, British Army psychiatrist, said yesterday from the heckling of dogs to his wife is a contributing factor to her breakdown.

Percy said his wife, Mrs. Percy, 32, had been visiting relatives in the countryside last week and was attacked by dogs while walking with her children.

The couple have been married for five years and live with their three children in a nearby village.

**City Record**

**BIRTHS**

A son to Mr. and Mrs. William Petersen, Wednesday, at Mercy hospital.

A daughter to Mr. and Mrs. Richard Miller, Wednesday, at Mercy hospital.

**DEATHS**

Mrs. Winifred Malone, 84, was buried from her home at 873 Polk street, Thursday at 9 a.m.

M. C. MEGIS — A pair of former SUI students, now Marine officers, aboard this Far East-bound troop carrier, have become believers in the antiguedad of dogs about it being a small world.

Capt. John Wilkinson, Marno., 10, and 1st Lt. C. P. "Jack" Lewis, North English, 10, were students at SUI in 1942 when they enlisted together in Des Moines.

They were called to active duty together, serving in the same unit for several months before being sent to different units.

Now, nearly nine years later, the two Marines occupy adjoining bunks aboard this ship carrying a replacement draft to reinforce Marine units now in Korea.

$10,000 Suit Filed

Against City Hospital

A $13,241.33 damage suit was filed in district court Wednesday against Mercy hospital for injuries suffered in an accident at the hospital. Eunice Goom, Johnson county, is the plaintiff.

Mr. Goom alleges that he suffered two broken wrists, head injuries and severe cuts and bruises when he fell in the hospital's furnace room last March 28, while delivering coal there.

Mr. Goom said that the fall was caused by a bar on a door of the furnace room, and therefore the accident was due to the hospital's negligence.

The plaintiff asks $7,500 for pain and suffering, $5,000 for loss of earning capacity, $350.83 for loss of work and $148.50 for medical expenses.

WASHINGTON

Thousands of Harlem residents were stunned the night of July 18 when Ray Robinson stopped Randy Turpin in the 10th round of their middleweight championship bout at New York’s Polo Grounds.

The night of July 18 was not to be denied. Pinning Turpin against the ropes with the fury of his drive, he clawed Turpin’s tricks of time and tactics.

The brutal attack continued in relentless fashion. Turpin reeled from the blows, but fought on. Robinson got up to the team’s call and darted in with a flurry of blows. Turpin reeled once more, but Robinson made him hit the deck.

Robinson won the fight on a knockdown in the 10th round.

Champion Randy Turpin went down in the 10th round from a savage barrage of blows from Seaburg Robinson. Turpin got up but the referee stopped the bout shortly afterwards.

The Brooklynite, suddenly turned Robinson-Stops Turpin In 10 For Title

**Referee Halts Fight Before 61,000 Fans**

NEW YORK (P) — Sugar Ray Robinson, suddenly turned alliter by blood streaming from his left eye, won back his world middleweight title from Britain’s Randy Turpin Wednesday night. After a technical knockout with a violent attack in the 10th round, Robinson was declared the winner by Referee Ruby Goldstein to take the title at 2:52 of the ten.

Unleashing the full fury of his blows after the sturdy Briton opened the gash over his left eye, the sleek Harlem Sugar Ray shot the works in one furious burst that yanked to its feet the self-cut crowd of 61,370 at the Polo Grounds.

One tremendous right to the head, coming out of a flurry of blows, cowed Turpin’s tricky defense. Down went the 23-year-old Negro on his back. Taking full advantage of the count he scrambled himself off the deck at nine.

Turpin, a pulverizer as he was shown, was forced to his knees almost immediately.

One of the greatest fights in the history of boxing.

**Turpin’s Bully austerity,**

Goldstein peered closely at television. Or radio broadcasts, but Robinson, who lost his title last time when he never showed up for the fight, was out front by a narrow margin on the cards of two.

Beginning of the End

Champion RANDY TURPIN went down in the 10th round from a savage barrage of blows from Ray Robinson. Turpin got up but the referee stopped the bout shortly afterwards.

**Chicag...**

**Chicago Crowd Riots Over Theater TV**

CHICAGO (AP) — Thousands of fight fans rioted outside the state-of-the-art theater Wednesday night disappointed because they could not get inside to see a television showing of the Robinson-Turpin fight.

A mob of 1,500 persons smashed three heavy plate glass doors before the fight started and surged into the theater. Many did not have tickets but there was no way the management could stop them.

Another group of 75 invaded the theater through the stage door before police sealed it off and $6,000 more climbed a fire escape and entered through the balcony, hooting over an usher who tried to stop them.

The gate crashers ran through the darkened theater, mingling with paid customers so that police and usher could not find them.

Police and firemen kept them from standing in the aisles, however, so that many of the invaders were forced to sit on each other’s lap or keep circulating throughout the theater at the behest of the fight shown on the screen.

**Hits Theater TV**

WASHINGTON (P) — Senator Broderick F. (B-N.Y.) Wednesday night urged the federal government to stop the practice of televising boxing matches and boxing matches nationwide.

“Millions of our sports-minded people in America were deprived of watching the televising of the world’s championship fights,” he said.

The Iowa football roster dropped to 66 Wednesday when guard Bob McNamara, a star freshman, was ruled out particularly. The annunciation of the dropping drills came Tuesday when he played Blackhawk in the 15th game of the season series. Ewell Blackhawk limited the Eagles 12-0 the first of the last 5-2 against his, the second, was credited with the first 15th against 14 losses. He scored held the ball in the last two frames after replacing Kim Ballenger in the last. Ewell, who replaced Newcombe after the Red gets three runs in the bottom of the hour. It was his 15th against, 14. He was the Red's eighth victory over Brooklyn in 22 games.

BLOOMINGTON, Ind. — Former Illinois淡水- in the usual two-day drills-landed by a short scrimmage in practice, but he, too, was not boosted to 68 Tuesday by the usual two-day drills.

Co Crabd... SAVE TIME AND TROUBLE!

These beautiful fall days make it easy to do things you've planned for a long time... take care of shopping, business, social calls.

And Crabd makes it easy to go quickly... without trouble or bother. A glance at C & R. L. Crabd schedule shows a wide choice of arrivals and departures... to take care of your requirements.

It's economical to use Crabd, too! Your fare to either one way between Iowa City and Cedar Rapids is only 60 cents... round trip, $1.00. . . both plus tax. Our express costs your 2 cents per mile... a satisfaction to moderate cost!

Give Crabd the nod for your traveling requirements... save time and trouble!

This Is Where the Atomic Plane is Being Built

The history-making task of constructing an atomic-powered airplane is underway at the factories shown above. The engine itself is being built at General Electric's gas turbine division, Lockland, O., (bottom) the rest of the plane at Consolidated Vultee's big B-36 plant (top) at Fort Worth, Tex. The project is the result of four years of study at Oak Ridge, Tenn. by a group known as Nuclear Energy for the Propulsion of Aircraft. Cost of building such a plane may run greater, it is believed, than the $40 million already spent on an atomic submarine, a project on which the U.S. navy is reedy has a contract.

Bills Mounting for Korean War Amputee

BEING A PENCIL IN ONE OF HIS ARTIFICIAL hands, Michael J. Ropczycki Jr. and his wife, Polly Joe, tried to figure how to pay bills at Long Beach, Calif. They are mounting, the Korean amputee told the Long Beach Press-Telegram in an interview recently, because he has received no disability compensation since his discharge from the army last June and is jobless.

Father Makes Sure

RAYMOND HOUSTON accompanied his five-year-old daughter, Donna Lee, to Clifton kindergarten Monday and stayed all day, just to make sure she was not sent home. The school board ordered Donna Lee to go to South Avondale school, because that's in her neighborhood, but biology objected. He said the child would have to cross too many streets to get to South Avondale and he didn't think it religious differences there.

Another Link was added to the North Atlantic Treaty Organization's chain of defenses with the new agreement between the U.S. and Portugal for use of the Azores islands by U.S. aircraft. The agreement replaces a similar pact signed in 1948, which made Lagos airport available to U.S. aircraft. The new pact provides that the Azores may be made available to other NATO nations (in black) later.

PATRICIA MCCORMICK, 22, of Big Springs, Tex., was tossed by a bull as she fought at Juarez, Mex., recently. She lost her muleta and sword, was trampled, but then came back and fought and killed the bull. It was the first bull fight for Patricia, a coed at Texas Western college at El Paso, Tex.

New Students...  
(Continued from Page 1).

for executing them from work in which they have already achieved proficiency and as a basis for general guidance.

Tonight a "get-acquainted" evening for both men and women students will be held at the Iowa Memorial Union, followed by parties in each housing unit.

During the week, each student will have conferences with faculty advisors to discuss problems of scheduling and adjustment to university life. Student helpers will assist faculty advisors in these conferences.

Monday night men students will attend a sports night to acquaint themselves with the facilities of the Iowa fieldhouse, while women students will have conferences with faculty advisors and will visit the student homes.

Tuesday night men students will attend a sports night to acquaint themselves with the facilities of the Iowa fieldhouse, while women students will have conferences with faculty advisors, and will visit the student homes.

Tuesday and Wednesday evening the new students will attend receptions at the home of President and Mrs. Virgil M. Hancher. Registration for new students will take place Tuesday. All university classes will begin a week from today.

Sophomore, junior, and senior students will be assigned as group leaders for the new students, and will visit the same students during the first week of classes to offer additional advice if needed.

Senator Describes New Atomic Weapons

WASHINGTON (AP)—Sen. Brien McMahon (D-Conn.) said Wednesday the destructive fury of America's atomic weapon is "truly fantastic...a frightful threat that dwarfs anything previously known to man.

McMahon, chairman of the Senate-multipurpose committee, made the statement to newcomers emerging from an "important" closed-door session with members of the atomic energy commission.

Golf Club Thief Puzzles Police

Iowa City police are looking for a thief who presumably plays golf either right or left-handed, or who else knows little about the game.

Authorities reported Wednesday that $233 worth of golf equipment, including 13 clubs, a bag and club covers, were stolen sometime last Sunday night or early Monday morning from Gene Chapman's driving range south of the airport.

But what puzzles police most is that some of the clubs taken were right and some were left-handed.

WASHINGTON (AP)—The senate put on a sudden burst of speed Wednesday toward final passage of the 196.103,000,000 defense bill after writing in quicks on penta- gon "white clips" employers and a two-year time limit on spending authority.

An agreement to limit debate-with only two hours for the final stage—indicated passage may be reached by today. A long list of amendments still awaited action, however.

Majority leader Ernest McFar-land (D-Ar). won the speed-up agreement late in the day as the senate appeared to be bogged down in endless debate. Only a few protests were heard.

Before quitting for the day, the senate beat down a series of at- tempts by Sen. Paul Douglas (D-Ill.) to whittle $184.764,000 from funds which he said would go to tools to private industry and he was expanding defense production.
