In this year’s fight to open the school, the Supreme Court has a role in determining the outcome. The court has agreed to hear cases related to integration, including a challenge to the Little Rock school district’s desegregation plan.

Change in Sentiment Makes Situation In Little Rock Worse Than A Year Ago

By BELCHER MORGAN

LITTLE ROCK — The situation in Little Rock has become even more desperate now that a year has passed since the Supreme Court decided to hear the case.

Sentryman crystallized Resistance’s attempt to integrate Central High School, one of the most rigid, has become “truly ominous.” The atmosphere in the city has changed radically. A year ago, there were many efforts to achieve integration, but now the resistance is strong. The situation is urgent.

Richard C. Butler, an attorney at the National Association for the Advancement of Colored People, said, “We have been fighting for years to achieve integration. Now the resistance is strong.”

Eisenhower Extends Hope Of Cease-Fire

Eisenhower extended hope for a cease-fire in the Far East. The President said that the U.S. military situation is improving and that a cease-fire may be near. However, he added that the situation is still tense and that the cease-fire will not be easy to achieve.

Reds Rout U.S.-Escorted Convoy On Way To Quemoy

TATEF, Formosa — Communist troops yesterday knocked out a U.S.-escorted supply convoy headed for isolated Quemoy, Chao Aou, and other Formosa outposts. At least 200 American soldiers were killed and many wounded in the attack.

The attack on the convoy was a surprise and a major setback for the U.S. military. However, the President said that the situation is under control and that a cease-fire is still possible.

Weather Forecast

It’s not clear if the weather will be good for the convoy. The forecast indicates that there may be heavy rain and thunderstorms in the area.

New U. S. Budget In Bright Red Ink

The President has submitted his budget for the upcoming fiscal year. The budget includes increased spending for defense and foreign aid, as well as cuts in domestic programs. The President said that the budget is necessary to meet the country’s needs.

Eisenhower said that the budget is necessary to meet the country’s needs. He added that the budget is balanced and that it includes funds for education, healthcare, and social programs.

Federal Aid to Students

The U.S. Office of Education is
beginning to get the new federal aid to education law
operating before the school year goes far too far
Last week, 12 statesaid school
aided, under (State Superintendent J. D. Wright of Iowa) met in Washington
with Federal officials to discuss the
weeks what the states will have to take for
the need for federal aid.

The Federal-aid education bill authorizes the
spending of $900 million in Federal
funds for the next four fiscal years. Congress
appropriated $60 million to get the program
started. Of this appropriation, $407,000
is designated for use in Iowa.

The college student loan program in Iowa
will do $1,1767.5 of the total. The loan
program will be administered by the
individual colleges and universities in Iowa.
They will be allowed funds by the Federal Office
of Education based on enrollments, and this
means they will be able to get from the money
owed in Iowa's colleges. This program can get
under way as soon as the individual institu-
tions have completed the necessary agree-
ments with the Federal government.

One other key point will be
administered by the staff or public instruc-
tions, and in these programs, the money
allowed to Iowa has been from the initial $80 million
federal appropriation, not as it was stated.

For financial assistance in strengthening
public school science, mathematics and
foreign language instruction, through the avail-
ment of equipment and advanced teaching
materials, $350,791.

For guidance, counseling and tutoring, with special emphasis on the identification and over-
coming of the ability problems of black students, $80,873.

For the establishment of "area vocational
school" in Iowa, $60,302.

Our program must get underway as soon
as the state departments of instruc-
tion sets up machinery to administer this
new law that the approval of the U.S. Office
of Education.

No state enabling legislation will be
necessary at the outset. The money already
appropriated by Congress is to be used in the
same way as in the past.

Additional grant money is expected to be
made available by the U.S. Office of
Education for the Iowa schools for the
next four years.

A state department of public
education in Iowa should have
the same kind of problem that
wants to do with the Federal
money, and the state department of
education will run the Federal
program for Iowa before the end of the
year.

The state department of public

**India Debates Border Issues With Pakistan**

By J. M. ROBERTS

The prime ministers of Pakistan and India are scheduled to meet today to discuss border disputes which have been escalating in recent months. The meeting is expected to include discussion of the long-standing dispute over territory that has led to a series of border incidents.

The meeting is important because it comes after a series of border incidents in recent months have raised tensions between the two countries. The meeting is expected to be focused on reducing tensions and finding a way to resolve the dispute.

In recent months, there have been a series of border incidents, including gunfire and shelling, that have raised tensions between the two countries. The meeting is expected to include discussion of these incidents and how to prevent them from escalating.

The meeting is also expected to include discussion of other issues, such as trade and economic cooperation. Both countries are important trading partners, and there is potential for increased economic cooperation and trade.

The meeting is scheduled to take place in New Delhi, and it will be attended by the prime ministers of both countries. It is hoped that the meeting will lead to a peaceful resolution of the border dispute and improved relations between the two countries.

This Scene Had to Go...

JUDGES TOO HOT FOR THE SCREEN, this scene from the movie, "I Love Life,," was favorably received from the audience. The scene ended: "The movie cannot be sold or distributed," said producer Jerry Wald. "And although nothing happened to the screen, it does have a little bit of the imagination." The free scene involved actor Brad O'Donnell and actress Ann Morgan. Miss Morgan had complained to Wald that the sequence created the impression that she was wearing a bra.

An Approaching Marriage and A Birthday

THIS WEEK WAS A HAPPY ONE FOR at least three people. Ernest Borgnine, Oscar-winning actor, and Mexican actress Katy Jurado arrived in Guadalajara, Mexico, Tuesday and relatives in Mexico City said they were married. Doctor friends of a California doctor recently granted bankruptcy with, however, it has never been known. In Paris, French film and stage star Maurice Chevalier (right above) previewed his 70th birthday anniversary cake. C's mother's birthday is today. He became a star at 14 as a song and dance man in Hollywood. Then played debonair Gaile beer roles during his younger and middle-age periods. Today, his face bears the marks of a father and uncle. He says he has been asked several times to appear in the Canadian Franchise, France's great classic theatre.

Happy After Heart Surgery

KIDS WERE HAPPY, TOO. THIS WEEK, Ricky, 6, left, and Howard, 5, were happy to hear that Mr. and Mrs. Ben Schwartz of Minneapolis, Minn., were both born with blue eyes in their hearts. Last October, Howard had his heart repaired in an operation at the National Institutes of Health, Bethesda, Md., near Washington. On Sept. 1, Ricky had the same operation. Both boys were able to play with their degree when repaired. Doctors 6889, of the hospital Tuesday.

The Eternal Triangle Made the Headlines

by Ann Thwaits

Hollywood = Los Angeles, Calif. "It's not true what they've been saying," said producer Jerry Wald. "I don't want this marriage to break up. There are a lot of kids involved and a beautiful woman involved in it." Thus, a new chapter in the eternal triangle via the press.

Extra's Not Today

While the girls talked, the first member of the trio, golden-haired Eddie Fisher, kept silent. After October 30, Eddie announced a double marriage. But, they're editing. The record is unannounced and reportedly is working as an engagement.

Finland was parity together the background of the affair. From words of the principals and reports of close friends, it appears to be a possibility.

Eddie-brother married Miss Todd had lost his father, littered by Fisher. They want to travel together, and their wives were not along, too. As with many split relationships, the worried were not close friends. Look and Debbie had known each other since grade school, but they went their different ways. Eddie married Miss Todd, but Debbie did not. After a period of grief, Eddie returned to work and Debbie returned to her screen.

Straws of Chance?

The girls decided to take a trip to Europe. By a device of chance, perhaps, she was in New York when Eddie had split from Fisher. She went on one tour, and Debbie announced Tuesday night from the White House. The President attempted to explain the position of the United States in regard to the Far East situation.
