Humphrey Reported Earning Dividends while on Cabinet

WASHINGTON — Former Vice President Hubert H. Humphrey, who is spending 10 weeks in England as a consultant to London's Barings Bank to improve its efficiency, was paid $3,500 in dividends from the companies he owns for the second quarter of 1961.

The dividends were paid Wednesday by his two companies: the Batten & Humphrey Communications Corp., of New York, and the H.L. Humphrey Corp., of Los Angeles.

Humphrey, who was at the Barings Bank in London on Tuesday, said he did not know whether he would continue to spend time in England after his London job was completed.

Webb Predicts U.S. Will Be First to Moon

NASA Officials Say Russians May Make 1st Trip Around Moon

WASHINGTON — NASA officials said Wednesday that U.S. moon program will by far surpass planned Russian moon flight, and that it is possible the United States might send astronauts to the moon in the next few years.

The officials said the American moon program was far ahead of the Soviet program, and that it is possible the U.S. might send astronauts to the moon before the Soviet Union.

Mail Truck Robbery

Five Men in Red Costumes

WASHINGTON — Five men in red costumes, believed to be members of the Black Liberation Organization, held up a mail truck Wednesday in the downtown area.

The robbers, who were wearing masks and carrying guns, stole $10,000 worth of mail from the truck.

Senate Halts Quorum Calls

WASHINGTON — The Senate adjourned Wednesday night without completing its quorum calls, which had been going on for two days.

The adjournment was requested by Senator William Knowland of California, who said he was not in the Senate at the time the quorum calls were made.

**Negro Voter Registration**

Four years ago, the Justice Department began a voting suit in Terrell County, Ga., to prevent low enforcement officials from intimidating prospective Negro voters into not registering to vote. It was the first suit of its kind ever filed by the United States under the 1957 voting rights act. Since then this suit of the 5,000 eligible Negro voters who have been registered, the case has been called the "Terrell County case" and has aroused much interest. The case is that the Negroes are being denied the right to vote. The Department of Justice is pursuing the suit to secure registration of Negroes to vote in the county.

**Prosperity Is Dwindling Spain's Charm**

By JOHN CROSBY

WASHINGTO,N, D.C., July 10—The Iberian peninsula, an island of easy charm and green hills, is slowly but surely losing its allure to many of the American tourists who have been flocking to see the land of Columbus. The decision of President John F. Kennedy to pay a state visit to Spain next fall has led to an increase in the number of tourists there. But some of the hotels and restaurants are giving away to the tourist trade. The result is that the country is losing some of its charm. The people there are becoming accustomed to the tourists and are becoming less interested in their presence.

**Peace Corps Bliss**

By KATHARINE EVANS

WASHINGTON, D.C., July 10—The Peace Corps was created in 1961 to send Americans to developing countries to help them improve their quality of life. The corps has been highly successful in achieving its goals. The corps members were placed in countries and worked on various projects. The corps has been a model for other organizations and has been widely hailed as a success.

**Same Economic Ills Plague U.S., Europe**

By GASTON CoLEMAN

WASHINGTON, D.C., July 10—The same economic ills that plague the United States are also plaguing Europe. The two continents are facing similar problems, such as high unemployment and inflation. The situation in Europe is more severe, however, as the European Union is still in the process of forming. The United States and its allies will have to work together to help Europe address these issues.

**The 'Alliance' Is Failing But We Can Still Win It...**

By RISEUO DEJIKU

WASHINGTO,N, D.C., July 10—The alliance between the United States and Europe is falling apart. The alliance was formed to counter the threat of the Soviet Union and to maintain a balance of power in Europe. However, the alliance has failed to live up to its promise and is now struggling to survive. The United States and Europe must come together to save the alliance and to ensure the future of Europe.

**Educational Method Spreading—**

_Montessori 'Prepares' Child's World_

**By Larry Barrett**

Written for The Daily Iowan

A reasonable percentage per-

centage of parents believe that a

system of early education for chil-

dren was needed to fill the gap be-

tween the Montessori method and

the traditional methods. However,

the Montessori system was intro-

duced in the United States in 1912

and the first Montessori school

opened in Chicago in 1914. Since

then, Montessori schools have

spread throughout the world.

The Montessori method was

developed by Dr. Maria Montessori,

an Italian physician, in the early

1900s. She believed that all chil-

dren have the ability to learn and

that education should be designed

to help children develop their full

potential. Montessori believed in

allowing children to learn at their

own pace and in an environment

that was conducive to learning.

Montessori schools are designed

with materials that are designed to

help children develop their motor

skills, language, and reasoning

abilities. These materials are

organized in a way that allows

children to learn by doing and

exploring. For example, the

mathematical materials in a

Montessori classroom include

number rods, bead stair, and

sandpaper numbers, which help

children learn about numbers and

mathematical concepts.

Montessori schools also place

an emphasis on individualized

education. Teachers work with

students one-on-one to help them

achieve their individual goals.

In conclusion, the Montessori

method has spread throughout the

world and is becoming increasingly

popular in the United States. It is

important to note that Montessori

schools are not the only early

education system, but they are

one of the most effective and

successful methods of early

education.

**SUI Satellite Still Missing**

The SUI Satellite, which was sup-

posed to be launched on April 10,

is still missing. The satellite was

scheduled to be launched from a

rocket at the Cape Canaveral Air

Force Station in Florida. However,

the launch was delayed due to a

problem with the rocket. The SUI

Satellite is a small satellite built by

the University of Iowa, and it was

expected to provide valuable

scientific data for the university.

Despite the delay, the university

is hopeful that the satellite will be

launched soon and that it will still

be able to provide the expected

data. The university is currently

working with NASA to resolve the

problem and get the satellite into

space.
