blessed the world with words which are a mighty influence in
the present "season of influence." But the pillage of a mighty

3-run Eighth Inning Sparks Iowa's 7th Win

by HARRIET HODMAN
Assistant Sports Editor

A diving catch by center fielder Paul Kranse gave Iowa its ninth victory the season and sparked the Hawke to a three-run eighth inning which clinched a 9-8 come-from-behind victory over Bradley Monday night.

The Hawks, returning home after losing three games on the road, took a 9-8 lead in the second inning, but allowed the Braves three runs on a pair of hits and two errors in the top of the ninth, earning another win in the fourth when Bob Holman hit a double and scored on a fly ball by Dave Donaldson. Iowa's catcher came back from behind to hit a two-run single to tie the game at six and the Hawks won one more inning to complete the sweep.

Bradley leading 6-4 in the ninth inning, Charmas, who had three singles in five times at the plate, grounded out, Herzberg followed with a fly ball and Bob Carlson grounded out, tied in tied, to the Hawks. The Hawks catcher Gary Brinegar had hit a two-run single in the fifth, to give the Hawks their third run in the inning and the game was over in the ninth when Kranse, who was avaiabled at noon, was in a bunt to bring in the winning run.

As for the game, Iowa scored its third run of the season in the second inning on a three-run home run by Dave Donaldson. Iowa scored its second run in the sixth inning on a two-run single by Dave Donaldson. Iowa scored its first run in the eighth inning on a three-run double by Dave Donaldson.

What a Difference A Trade Makes

By Joe Bickman

Associated Press Sports Writer

Attention aeaeers: Hake! Shellback shirred? Shellbacked pearls? Pearly pastor, or is there a pearl in the shell? No, a shellback is a boater or yachtsman. Why? Because a shellback is where you find your pearl.

In general terms, shellbacks are people who love the sea, its history, and its culture. They are often seen wearing their beloved yachting caps, known as shellbacks, which are made from a soft, pliable material that offers protection from the elements while maintaining a classic style. Shellbacks are typically seen in the company of other shellbacks, often on the high seas or at sea-minded events.

These caps are often associated with the British Royal Navy, where the tradition of wearing a shellback dates back centuries. The term "shellback" comes from the practice of once-removed officers wearing a shellback instead of the traditional officer's cap, a tradition that continues today.

Away from the sea, shellbacks can be found in various forms, from the yachting clubs of the British Isles to the sailing communities of the United States. They are known for their love of the ocean, their sense of history, and their passion for the sea.

In the world of sports, Shellbacks are also a thing of the past. The term Shellback refers to a sports team or player who has been around for a long time, often considered to be a "tried and true" entity. Shellbacks are typically seen in sports where tradition and history are valued, such as baseball or football.

So, next time you see a person wearing a shellback, remember that they are a part of a rich cultural tradition that dates back centuries. Whether on the high seas or on the field, Shellbacks are a symbol of a love for the ocean and a respect for its history.
