President's Welcome

Through this special edition of The Daily Iowan, I welcome you to the University. Within these pages you will find much that will help you understand the University - its ideals and purposes as well as its more tangible aspects such as buildings and the curriculum.

This is the twenty-fourth occasion on which I have welcomed a new class of students to the University. Years will be the last class which it shall be here as President to greet in the fall.

On September 20, 1943 I stood on the steps of Old Capitol before the first class to come here during my presidency. In my remarks to that group of bright and eager young men and women I said:

"In the pleasant valley the people of the Commonwealth of Iowa have generously provided you with a great University - great not only in the physical plant and equipment which are usable to you, but greater still in respects which are not won usable to you. For here there has been collected a community of scholars and teachers who will guide you in the fields of history and politics, science and philosophy, languages and literature, economics and the professions. They will be stimulants and infections to you.

"But what you accomplish here will depend as much on what you bring to the University as on what the University brings to you. No one can deny you an education if you are determined to get it; no one can bar you to an education when you have the will to get it. I trust that you will do your part."

I am certain that this advice and challenge which I gave to those young men and women almost a quarter of a century ago is appropriate today, and therefore, I wish to repeat it as my message to you on this occasion.

As you make your preparations to come to the University, I urge you to reflect upon your real purpose for coming to the University and the reasons behind your decision to continue your education. I hope, too, that you will make every effort to know all that you possibly can about the University in which you have a.most chosen to become a member. In this issue of The Daily Iowan you will find much that you need to know and much that will help you in your life at the University.

—President Virgil M. Rauscher

Editor's Comments

This year's University Edition of The Daily Iowan has been designed to do more than merely introduce incoming students to the State University of Iowa. It is intended also to tell the story of a university in terms of the people who are a part of it. For the worth of any institution dedicated to education is determined by the quality of its people and the extent to which their ideas are manifest in their work.

For this reason, a new section, Research, has been devised to illuminate the University as it questions, searches, and discovers in old and new areas of knowledge. In the best tradition, the University is as macro - contained within a national desert of convention - where intuition and originality are not always rewarded, but sometimes respected.

However, this is not to denigrate the dual role the University plays as the transmitter of established patterns of thought. If you are new to university life, this latter role will grant you first, but it is the necessary role which is helping to make the turbulent changes in our world which are occurring and can read these words. It is a role which is indispensable.

Unfortunately, for every name mentioned in the following pages, other worthwhile names have been necessarily omitted. But each person who has been, or is now, an integral part of the University has already helped to make some contribution in some way to you as you begin your journey of becoming educated.

And it is a journey on a road which can lead you to a growing awareness of your capabilities and limitations, to a determination of the aspects which will direct your future, and to a realization of thousands of tangents and philosophies which are different, but not necessarily better or worse, than those that you will now be developing.

All of the people you will meet on your read and when you arrive at UIU will be guiding you, directly or indirectly, along this road. All that is required of you is that you do the walking. And, the hand of your educators cannot be completed in two weeks, or two years, or even four years, and maybe never. Its challenge is great.

But the rewards are greater.

—Jorat Mire
SUI Budget To Be $20.6 Million

To provide teachers for some 19,000 students, support research and planning for the year, and meet other expenses, the university's usual budget will be $20.6 million, a little higher than last year's. A $1.0 million increase is attributed to normal rate of inflation, and a $1.0 million increase is for parking. Thexlsx file contains a detailed summary of the budget.

Zoology Addition Will Be Erected

A new, more effective arrangement of research laboratories and the present dipicted buildings will be replaced by a new, larger addition on the east side of the present Zoology Building, the university announced today. The new building will be devoted to research and teaching in the fields of aquatic biology and animal behavior.

New Ramp To Be Completed by Fall

The ramp under construction west of the campus will be completed by the fall, university officials announced today. The ramp will provide direct access to the new Zoology Addition, which will be completed in the spring.

37 Alumni, 5 in Iowa Now, Are Educational Leaders

Every institution of higher learning has outstanding graduates, the alumni are leaders in their respective fields. In one of these fields — the highly selected area of university president — SUI alumni are making a strong showing. These alumni have been chosen to remain at SUI, as well as at other institutions.

Don't Delay... Make Sure of Your 1964 Book

Hawkeye is the SUI Yearbook

...an annual you will cherish always...for memories of your years at SUI!

Yes, there are scores of things in college life you want to remember . . . a hilarious costume party . . . the campus beauty queen who sat next to you in class . . . the thrilling football and basketball games . . . the mixing-pot rallies . . . your own work and fun in various clubs and campus activities.

Hawkeye preserves these things for you in a big, wonderful volume. Attractively bound, the HAWKEYE has 450 pages or more ruled with pictures and stories to give you a permanent record of the times, your friends and your contributions to campus activities during your college days. You'll keep your HAWKEYE ever handy on the bookshelf . . . while you're in college and during all the years to come. Yes, for remembrance or reference, the HAWKEYE is your permanent record of your college career.

Lasansky: A Creative Printmaker

By Susan Love

Small black dots cloaked the 55-year-old Argentine-born printmaker as he worked in his studio at the University of Illinois at Chicago. Small black dots are the marks of his skill—Lasansky is a master of intaglio, a technique that involves scratching into a metal plate to create a print. The black dots are the result of his deft hand and the tools he uses—needles and a small, metal hammer.

Robert M. Frank, professor of art at the University of Illinois, has described Lasansky as a "genius" of the printmaking medium. He is known for his inventiveness and for his ability to create stunning works of art from ordinary materials.

Lasansky was born in Buenos Aires in 1914 and began his artistic career in Argentina. He moved to the United States in 1943 on a Guggenheim fellowship, and has since become one of the world's leading printmakers.

His work has been featured in exhibitions around the world and has been acquired by major museums and collectors. Lasansky is a member of the American Academy of Arts and Letters and has received numerous awards and honors for his contributions to the field of printmaking.

Lasansky's techniques are renowned for their precision and control, and his prints are highly sought after by collectors. His work has been exhibited in major galleries and museums, and he has been awarded numerous grants and commissions for public works.

Lasansky's commitment to his art and his dedication to his craft are evident in the quality of his work. He is a master of the medium and continues to push the boundaries of printmaking to create stunning new works of art.

Through his work, Lasansky has contributed to the development of printmaking as an art form and has inspired generations of artists to pursue their own creative paths.

Lasansky's influence extends beyond the art world. He has been a mentor and teacher to many students and has inspired a new generation of printmakers to continue the tradition of innovation and excellence in the field.

Lasansky's legacy will continue to be felt for years to come as his work continues to inspire and influence future generations of artists.
Drums and Mandolins
From the Iowa Strung Orchestra at the White House

Treger is a virtuoso, rather than an artist, as he might have been considered.

From Poland to the White House—
Contest Deems Treger a Virtuoso

By JEAN HUSKOE

On a cold day last November a young man stepped off a plane at the Chicago O'Hare Airport to be greeted by his family and friends. A music student at the University of Iowa, Treger was about to compete in the violin division of the Whenueski Music Competition.

But more important to the composer, Treger is a virtuoso. The distinction between an artist and a virtuoso is, Treger's opinion, devoted long before the person is recognized as a virtuoso. It is a difference in whether a person is more concerned with playing music technically correct or on the bottom line of music (a virtuoso).

For Treger, the difference didn't come suddenly at the contest. The music he played, his choice of music, the way he played, was all his, a reflection of the composer's depiction of the music. From the Iowa Strung Orchestra at the White House—

Treger's contribution to the contest is in an afterthought. It isn't something you have to think of. For Treger, the difference didn't come suddenly at the contest. The music he played, his choice of music, the way he played, was all his, a reflection of the composer's depiction of the music.

Treger's contribution to the contest is in an afterthought. It isn't something you have to think of. For Treger, the difference didn't come suddenly at the contest. The music he played, his choice of music, the way he played, was all his, a reflection of the composer's depiction of the music.

SUI Belongs to Long Listing Of University Organizations (by Jim Erhardt, Staff Writer)

The Association of American Colleges (AAC) was founded in 1900 and is a professional organization of 222 member colleges and universities. The primary purpose of the association is to promote high standards of education in higher education. AAC's membership includes the majority of liberal arts colleges and universities in the United States.

In addition to AAC, the Teachers Insurance and Annuity Association (TIAA) and the College Retirement Equities Fund (CREF) were founded in 1937. TIAA-CREF is a nonprofit financial services organization that serves the higher education and research communities. It offers retirement planning, investment management, and other financial services to its members.

The Association of American Universities (AAU) was founded in 1908 and is an organization of 40 research universities in the United States. The AAU's mission is to advance the frontiers of knowledge and support the development of the next generation of leaders in science, scholarship, and public service.

The Association of American Universities (AAU) and the American Association of Universities (AAU) are both professional organizations that provide resources and support for members of the higher education community. The AAU is a nonprofit organization that provides a range of services and benefits to its members, including research funding, professional development, and advocacy for higher education policies.

Rebuilding of Quad Begins This Autumn

Conferences and workshops will be held at the University of Wisconsin-Madison as part of the AAU's 100th anniversary celebration. The events will focus on the future of higher education and the role of universities in society.

OGDF Gives Scholarships To Students

Sorority sisters at UI have been named to the OGD Foundation Scholarship. The foundation provides scholarships to female students who have demonstrated excellence in their field of study.

AND ALL THE ACCESSORIES...
Iron Curtain Countries Are Studies In Contrasts," Says Journalism Prof.

By JOE CROW
Staff Writer

Contrasts abound in the Iron Curtain countries, as statesmen, writers, and journalists who recently traveled there are quick to point out. The two most recent visitors were Prof. John Boll of Kansas State College, and Prof. Robert Smull, also of Kansas State College. Both men spent several weeks in the countries of the Eastern bloc, and both bring back tales of contrast.

For example, Prof. Boll was impressed with the cleanliness of Moscow, as compared to the litter found in American cities. He also noted that very patriotic fence posts were placed every other block in Moscow, and each carried a flag.

Prof. Smull was equally impressed with the East German cities, which he described as "too clean." He said he was surprised to see so many German flags on the streets.

"The contrast is dramatic," said Smull. "There is a marked difference between the way people live in the East and the West."
I'm Mrs. Sue Kaplan and I always shop at RANDALL'S SUPER VALU. The meat department at RANDALL'S SUPER VALU is perfect for everyday shopping bargains. The meats are displayed in gleaming cases, refrigerated to protect the natural flavor. RANDALL'S meats carry the famous S.V.T. (Super Valu Trim) seal which means RANDALL'S SUPER VALU will double your money back if you are dissatisfied with your meat purchase. This is your best protection on any meats in any store.

RANDALL'S SUPER VALU has a produce department that covers one whole side of the store! The sparkling display cases are refrigerated to preserve the natural freshness of the fruits and vegetables that are shipped directly from the growers themselves.

Breads, pies, pastries and sweet goods are baked fresh daily right at RANDALL'S SUPER VALU. Only the finest ingredients are used, including pure butter rather than shortening. This insures you of only the best baked goods anywhere.

Hundreds of different varieties of frozen foods are displayed in the spotless frozen food department of RANDALL'S.

The highest quality ice cream sold at the lowest possible prices is made possible by a special recipe developed by RANDALL'S SUPER VALU.

RANDALL'S SUPER VALU gives Gold Bond Stamps with each and every purchase. Save Gold Bond Stamps and you will be able to own the beautiful premiums that you have always desired. There is a Gold Bond Stamp redemption center right in the store.

RANDALL'S SUPER VALU has many extra conveniences. RANDALL'S modern cafe, open from 6 A.M. to 9 P.M., serves the most palatable home cooked food and the freshest cup of coffee. RANDALL'S sells Merchant money orders so you may send money through the mail safely. Merchant money orders may be purchased in any amount.

MOST OF ALL, I shop at RANDALL'S SUPER VALU because of the Lowest Food Prices in the Midwest. This is a wonderful aid to my family budget. You can enjoy all of these conveniences by shopping at RANDALL'S SUPER VALU, Iowa City's one-stop supermarket. By the way, there is lots of free parking in RANDALL'S huge parking lot.

Highway 6 West, in Coralville
Here are some of the answers—

"The news is great—can't be beat! Associated Press and United Press International leased wires make national coverage tops! State and local news is the ultimate! Tremendous! Really good! Ya know?" — B. Mouth

"Well, dawling, you might say that I am particularly enthused about the art show and theatre reviews, the editorials by staff members and nationally syndicated columnists, cartoons by Tom Irwin and Herblock, and, oh yes, the B.C. and Beetle Bailey cartoon characters. What a hoot, dawling!" — O. No

"I like The Daily Iowan because I can carry it awhile after the carrier boy has delivered it to the door. What service!" — A. Dog

"I read The Daily Iowan because I work there. I've worked in the Editorial, Advertising, Circulation and Photography Departments. I'm a journalism student. I'm terribly well-educated."

— J. Smart

"None of your business, fish!" — O. Roy

Chat with the editor

I saw in the paper the other day when still another distinguished educator said we have to produce more scientists to keep up with the Russians. This vaguely irritated me and I couldn't figure out just who said it aloud or me that I had also read, a few pages back, a plea from somebody for bigger muscles in all of us so we could keep up with the Russians.

Well, let me try to make two points about all this worry over the Russians. First, I worry about them, too. Things are scary and very frustrating. Okay, no argument, and we need defense and all the rest of it. But—and here is point No.2—it just gets silly to try to settle every problem by the amount of worry we allegedly will have to do about the Russians if we don't solve it. Since when are the Russians setting our standards for us?

The production of scientists and the development of muscles do not have some sort of priority in the whole scheme of things we ought to concern ourselves about. But the frame of reference, to see some approved pupil, surely is larger than the coefficient of the worry factor applied to the Russians. Maybe we ought to try to turn out more lyric poets even though the Russians might laugh like mad at lyric poets seem to make sense to us on their own merits.

I have a suspicion, on top of all the rest of this, that the Russian economic system is half-baked, that police states have 600,000 more problems than they talk about, and that it may be their turn to worry about how to keep up with us. Would you agree that we might give this approach a try?

**Reading for Profit,**

**THE KIPLINGER BOOK SERVICE...**

...can help you cash in on the prosperous years ahead

By joining this program now, you can turn your present reading hours into a profitable investment in the future. For this unique service concentrates on books that will help you make or save money—get ahead in your work, and broaden your knowledge of business, public affairs and the whole exciting world of tomorrow.

**INTRODUCTORY MEMBERSHIP OFFER:** Any 2 books chosen on this page for only $3.95 for both. With continuing benefits as follows:

**GUIDANCE** Membership includes a free subscription to the lively Kiplinger Book Letter—a critical review of the most important books published each month, regardless of whether we can offer them to you at special member prices or not.

**SAVINGS** Initially, you may enjoy 2 books of your choice for only $3.95 (although their list prices may run as high as $17.50). Then you may buy other books at discount prices. Books recommended to the same Kiplinger editors who have helped thousands of readers handle their business and personal affairs more successfully...by the same editors who publish 5 other well-known Kiplinger advisory services including CRAMMING TIMES.

**CONVENIENCE** At least one book per month will be recommended to you. If you want it, it will be delivered to your promptly, and charged to your account. You may order only 3 books at special member prices during your first year as a member, in addition to the 2 you get for $3.95.

This time, like all times, is a very good one if we but knew what to do with it successively.
