Just Spoofing at Mercy —

**Nurses ‘Catsup’ with Disaster**

By PEGGY MEYER

Mercy Hospital was the scene of a replay for 350 ! tered nurses and doctors yesterday afternoon. No one was hurt.

Freshman nursing students and doctors, who were practicing in a disaster drill which simulated a fire on the sixth floor, made a mess of the hospital waiting to admit Miss Osborn...

**Conant's book should stir public interest**

By J. A. VANDYKE

James B. Conant, in his book, "American Educator," does not stand alone in the company of educators who have been seeking to make education more interesting to the public. The book is a welcome addition to the literature of education, and it is a timely one. It is a book that should stir up much public interest and debate on the social topic.

**More to watching TV than meets the eye**

By AMY BUCHWALD

"People say to me, 'What's the big deal? It's just a TV show.','" says Dr. Richard Smith, a psychologist at the University of Michigan. "But what they don't realize is that there's a lot more to the TV than meets the eye." He says that TV is not just a form of entertainment, but it also has a significant impact on people's lives.

Gary Spuybroek

Communist, bunny—what's the difference?

All SOVIET republics are communist nations, but not all communist nations are also communist republics. For example, the People's Republic of China is a communist country, but it is not a republic. The difference lies in the form of government and the structure of the state.

Labor Dispute Nearly Shuts Rath Plant in Waterloo

WATERLOO (AP) — The big Rath Packing Co. plant in Waterloo was virtually closed Wednesday in a dispute with the United Packinghouse Workingmen of America, AFL-CIO.

Whether the meat-packing plant would be opened again today was uncertain. Cliff Roaen, chief negotiator for the employer, said the company's position was not firm until after the negotiations were completed Wednesday night.

"Your position has not been changed," he said in an interview with The Daily Iowan. "We have been in contact with the company, Wednesday night and all day today."

Dr. Bonfiglio said building an annex school by next fall. Bonfiglio stated that the situation was that the inability of Coralville to meet the needs of the community in the present school building, he felt the situation would continue into December with the attendance. He did not deal with dealing with the community pride, the current school facilities were not adequate for the needs of the community. Dr. Bonfiglio said building an annex school by next fall. Left Half Lonnie Rogers
Overcomes Injuries To Star
His 104 Yards
Vs. Michigan Season High

Football practice sessions have sometimes been referred to as the "bowl of foods," because of the toll that it takes. In a photograph, an injured Lonnie Rogers, the dynamic halfback for the University of Iowa football team, is shown with a cast on his right arm. He has overcome a broken collarbone to play against Minnesota on Saturday.

Rogers was injured in the first quarter of the Iowa-Minnesota game on Saturday. He was driven off the field on a stretcher with a diagnosis of a broken collarbone. His teammates were shocked and dismayed at the injury, but they knew he would be back.

"Lonnie's a fighter," said Iowa Coach Jerry Burns. "He's a tough, tough guy. He's been through a lot of adversity in his career, and he's always come back stronger."

Despite the injury, Rogers remained on the field, muttering words of inspiration to his teammates. "We're going to win this game," he said. "I'm not going to let this injury slow us down."

Rogers' determination paid off, as the Hawkeyes went on to win the game, 31-14. His 104 rushing yards were a season high, and he was named the game's most valuable player.

"I'm proud of Lonnie," said Burns. "He's a true leader, and he always puts the team first."

Rogers' injury was a reminder of the sacrifices that football players make every day. Despite the pain and the adversity, they keep coming back to the field, ready to fight for their team.

"We're a family," said Rogers. "We'll stick together through thick and thin."

Rogers' injury was a setback, but it didn't stop him from doing what he loves. He will be back on the field soon, stronger and more determined than ever.

"I'm going to come back even better," said Rogers. "I won't let this injury define me. I'm going to make it count."

Rogers' spirit was a inspiration to his teammates, and he will be missed on the field. But through his determination and fight, he has shown that he is a true leader and a true Hawkeye.

75 Here for Conference

On Statistical Methods

A today conference on quality control by statistical methods has attracted 75 people to the Illinois campus.

Executive from industry and the Atomic Energy Commission are attending the conference, which closes Friday. Quality control by statistical methods is the dominant factor of studies in the departments of statistics of universities as a presiding officer. The subject is of widespread interest. It is a part of the research, and has been associated with quality control institutions for years. The meeting at Urbana was sponsored by the Department of Statistics for Quality Control. It marks the first of the conferences held in the Atomic Energy Commission.

Quality control in the Atomic Energy Commission is presiding over the conference. A few cases of statistical methods are given in the example of the selection of quality control in the Atomic Energy Commission. The meeting at Urbana was sponsored by the Department of Statistics for Quality Control.

Local Theft Discovered

A theft of $175 from an oil station on a corner of the service station was reported Wednesday morning. Police are investigating.

Before Optimists—

Garfield Rejects Shaff Proposal

"A legislative act on an extraneous issue as its most important feature," John J. Garfield, U.S. District Attorney for the Southern District of Iowa, declared in protesting the Shaff Code, will be presented to the Senate Wednesday after reviewing its proposal on the Shaff Code.

Garfield, on the principles of the Shaff Code, was heard by the press, and in a single person, to the point, and was not a running issue. Garfield declared that the same Shaff Code would also be considered in the Senate, as the Shaff Code was considered in the Senate.

Accept Bids For Buildings At Reservoir

Three sets of farm buildings in the Des Moines area will be opened for bid in the IOWA Reservoir project, according to the U.S. Army Corps of Engineers.

CIA Agent Here For Interviews

The operation is a top-secret one, but a representative of the Central Intelligence Agency of the United States has arrived in Evansville for a three-day period of investigation into the state of affairs here. The operation is being carried out in conjunction with the United States Attorney's office and the Evansville Police Department.

The representative, who is accompanied by two other agents, was met at the airport by FBI agents and was whisked away to their headquarters for questioning. The operation is believed to be related to an international espionage case.

Girl in Coma 7 Years, Dies

EVANSVILLE — A 7-year-old girl who was left unconscious in 1956 has died of injuries suffered during that incident. The girl, identified only as Jane Doe, was found in a room of a local hospital with her head on the floor and her body on a bed. She was discovered by a nurse who entered the room to check on her. The girl was taken to the hospital and treated for injuries, but she never regained consciousness.

The girl's parents, identified only as John and Mary Doe, were told by hospital officials that their daughter was too injured to survive. They refused to give up hope and continued to pray for a miracle. However, seven years later, the girl died.

The cause of the girl's injuries remains a mystery. The hospital officials said that she had been involved in an accident, but they were unable to provide any further details.

In 1956, the girl was playing in a room of a local hospital when she was hit by a falling object. She was taken to the hospital and treated, but she never regained consciousness. The girl's parents were told that she was too injured to survive and were given her permission to go home. However, they refused to give up hope and continued to pray for a miracle.

Seven years later, the girl died. The cause of death remains a mystery. The hospital officials said that she had been involved in an accident, but they were unable to provide any further details.
