Highway Patrolmen—
A Devoted Group

By JOE LIPSCOMPT

Five men patrol nearly 1,300 miles of the 49 National highways that stretch through the county of Iowa. They are the Iowa Highway Patrolmen who are responsible for covering and this method has become the only one that can be used. These patrols are divided into two groups; the day group covers the hours from 6 a.m. to 6 p.m., and the night group covers the hours from 6 p.m. to 6 a.m.

Monday through Friday, the highway patrolmen are on duty. The only exception to this rule is when they have a scheduled off-duty period. The highway patrolmen are responsible for enforcing traffic laws and regulations, as well as providing emergency assistance to motorists. They are also responsible for investigating collisions and providing reports to the authorities.

The famous director of the film "The Great Dictator" will be visiting the campus today. This is the only time he will be available to the public. The film is scheduled to be shown at 7:30 p.m. in the Union Auditorium.
Buchwald reveals payments to Government officials

We're happy to see this has finally come to a head.

As a problem has been raised, and we have a duty to the public and to the nation, we are in favor of the Senate Committees on Appropriations, and we will take any further action necessary to ensure that this practice of defrauding the government is stopped.

On March 16, 1964, we took Congress to task.

I...-I...

I...

We must not let this stand. The Senate Committees on Appropriations have a duty to the public and to the nation to ensure that this practice of defrauding the government is stopped.

SUI Reorganizes Telephone System

By PAR PETERSEN

The Iowa State University of Science and Technology has announced the reorganization of its telephone system.

The new system, which will be implemented in stages, is expected to improve service and reduce costs. It will include the installation of a new central office and the expansion of the network to accommodate the growing number of users.

The reorganization will also involve the modernization of the existing equipment and the introduction of new technologies to enhance the service quality.

The new system is scheduled to be fully operational by the end of the year, with gradual implementation of the various components.

Other benefits of the reorganization include improved reliability and reduced maintenance costs. The university will also be able to offer additional services such as voicemail and call forwarding.

The reorganization project is a joint venture of the IT department and the telecommunications service provider. The project has been in the planning stages for several months and has involved extensive stakeholder engagement.

The implementation team has been working closely with the affected users to ensure a smooth transition to the new system. Feedback has been positive, with most users expressing satisfaction with the improvements and changes.

The university is expected to save over $1 million annually through the implementation of the new system, which will also improve the overall user experience.

The reorganization project is part of the overall strategy of the university to modernize its infrastructure and enhance its competitiveness.

The new system will also provide a foundation for future expansion and growth, allowing the university to keep pace with the evolving needs of its users.

Overall, the reorganization of the SUI telephone system is a significant step forward in improving service and enhancing the user experience.

Hawkeyes Host Strong Bradley Nine Today

Iowa Pitcher Bob Gebhard Seeks Third Win of Year

The Iowa Hawkeyes will be out to break a three-game losing streak today when they face their most formidable foe of the season, the Bradley Braves, at 2:15 p.m. on the Iowa field. The teams will meet again Saturday in a double-header.

Coach Dick Schuh will start the majority of his pitching staff, and Gebhard against the visitors.

Senior Bob Gebhard, who has the most experience in this series, will start the third game of the series. He has had four hits in nine times at bat this season for an average of .444.

Caption: "Jim Koehnk at second, Dick Ekerchik at first base, Bob Gebhard, against the hits.

The Iowa Hawk eyes will be out to break a string of losses in their game against the Bradley Braves.

Bob Gebhard pitched a fine game in last week's game, against the Porkies, with a single, double and triple, two runs batted in and one hit. Three other Iowa players, with a single, double and triple, two runs batted in and one hit.
