Israelis Claim Victory:
Arabs 'Will Fight On'

By THE ASSOCIATED PRESS

Israel commanders claimed a startling victory in the Middle East war today, saying that they now had control of the whole area.

They said that they had captured the entire area around the Jordan River, including the city of Jericho, and that they had also taken control of the area west of the Suez Canal.

The Israelis said that their forces were now in full control of the entire area around the Suez Canal, and that they had also captured the area west of the Nile River.

The Israeli forces had made a series of rapid advances in recent days, taking control of key areas and defeating Arab forces in a series of fierce battles.

The Israelis said that they were now in a position to launch a major offensive against the Arab forces, and that they would begin operations as soon as possible.

The Arab forces, they said, were now in a position to be defeated, and that the war was now at an end.

The Israelis said that they would continue to attack the Arab forces, and that they would not negotiate with them.

The United Nations Security Council was scheduled to meet later today to discuss the situation.

The Israeli forces have been in control of the area around the Suez Canal since the war began, and have made rapid advances in recent days.

Organization sees need to bolster financials of governmental units

Washington — A program to bolster the financial health of state local governments was recommended Wednesday by the Committee on the Costs of Government Services to the National Association of Counties. The report details various ways governments can save money and improve their fiscal health.

The committee, chaired by John A. Kagan, director of the New York City Department of Citywide Administrative Services, said governments should consider the following steps:

1. Establish procedures for a regular review of all major financial policies.
2. Conduct a comprehensive study of the financial needs of the state and local governments.
3. Establish a system of financial management and control for governmental units.
4. Develop a system of financial planning and budgeting.
5. Establish a system of financial reporting and accountability.
6. Develop a system of financial control and supervision.
7. Establish a system of financial auditing and evaluation.
8. Establish a system of financial analysis and evaluation.
9. Establish a system of financial research and development.
10. Establish a system of financial training and education.

The committee also recommended that governments consider the following steps:

1. Establish procedures for a regular review of all major financial policies.
2. Conduct a comprehensive study of the financial needs of the state and local governments.
3. Establish a system of financial management and control for governmental units.
4. Develop a system of financial planning and budgeting.
5. Establish a system of financial reporting and accountability.
6. Develop a system of financial control and supervision.
7. Establish a system of financial auditing and evaluation.
8. Establish a system of financial analysis and evaluation.
9. Establish a system of financial research and development.
10. Establish a system of financial training and education.

The committee further recommended that governments consider the following steps:

1. Establish procedures for a regular review of all major financial policies.
2. Conduct a comprehensive study of the financial needs of the state and local governments.
3. Establish a system of financial management and control for governmental units.
4. Develop a system of financial planning and budgeting.
5. Establish a system of financial reporting and accountability.
6. Develop a system of financial control and supervision.
7. Establish a system of financial auditing and evaluation.
8. Establish a system of financial analysis and evaluation.
9. Establish a system of financial research and development.
10. Establish a system of financial training and education.

The committee concluded that governments should consider the following steps:

1. Establish procedures for a regular review of all major financial policies.
2. Conduct a comprehensive study of the financial needs of the state and local governments.
3. Establish a system of financial management and control for governmental units.
4. Develop a system of financial planning and budgeting.
5. Establish a system of financial reporting and accountability.
6. Develop a system of financial control and supervision.
7. Establish a system of financial auditing and evaluation.
8. Establish a system of financial analysis and evaluation.
9. Establish a system of financial research and development.
10. Establish a system of financial training and education.

The committee further recommended that governments consider the following steps:

1. Establish procedures for a regular review of all major financial policies.
2. Conduct a comprehensive study of the financial needs of the state and local governments.
3. Establish a system of financial management and control for governmental units.
4. Develop a system of financial planning and budgeting.
5. Establish a system of financial reporting and accountability.
6. Develop a system of financial control and supervision.
7. Establish a system of financial auditing and evaluation.
8. Establish a system of financial analysis and evaluation.
9. Establish a system of financial research and development.
10. Establish a system of financial training and education.

Iowa ‘Partners’ Announce Extensive Plans
For Increasing Effectiveness Of Program

The Iowa’s plan for increasing the effectiveness of the
program, Randall’s announced, is to increase the
number of units and to improve the program by
adding more
firearms and providing more
services.

Joe Miller, the program manager, said that the
announced plans would result in a more effective
program.

The Iowa’s have increased their efforts to
increase effectiveness of the program by
increasing the number of units and providing
more services.

Fears Grip Cairo As Israelis Near

CAIRO—Rocks of Cairo were pelted with stones Thursday by militiamen who rioted against the government in response to the opening of the Israeli port of Alexandria.

Police fired tear gas and rubber bullets to disperse the mob, which had marched to the city's west side from the Soviet military base, where it had gathered earlier.

The riot was the latest in a series of demonstrations against the government's policy of negotiating with Israel in the current Middle East peace talks.

The government has been under pressure to clamp down on the demonstrations, which have occurred throughout the country, despite a recent agreement between Syria and Israel.

The demonstrations have been fueled by the government's decision to reopen the port of Alexandria, which had been closed for more than 20 years.

The port is expected to open next week, and the government has said it will be used to transport goods to and from Israel.

The demonstrations have also been fueled by the government's decision to grant amnesty to thousands of Israeli prisoners and to allow them to return to their homes in Israel.

The government has said it will not interfere with the demonstrations, but has warned that it will not tolerate violence.

The demonstrations have been held in various parts of the country, including Cairo, Alexandria, and El-Arish, where the port is located.

The government has said it will not interfere with the demonstrations, but has warned that it will not tolerate violence.
