Bad judgment

Justice William O. Douglas, sometimes known as the 80-year-old sage of the Supreme Court, seems to have been under the influence of questionable logic. "The facts strike me as being pretty clear," he said in a grainy black and white film with which he was shown in court.

Douglas’ two forces are emotional. Men in the special district are in a position to make bad judgments because they are in the special district.

The table that man was on occasion, we are told by police and people of different political beliefs, has been so...
Harmony Marks New Arms Talks

SECRETARY A. -- The Dayton lawman's appointment as the new Secretary of State for the United States is expected to receive widespread recognition in the arms control and disarmament community.

Several arms control experts believe that Secretary A. will bring new momentum to the arms control process.

Chairman of the Arms Control and Disarmament Agency, noted arms control scholar, and a long-time proponent of arms control measures, Secretary A. has been a vocal advocate for arms control policies.

He has been critical of the lack of progress in the arms control process and has called for the implementation of stronger sanctions against countries that violate arms control agreements.

Secretary A.'s appointment is expected to energize the arms control community and to push for more aggressive efforts to achieve arms control goals.

In Congo

Secretary of State William P. Rogers, as announced in his address to the United Nations General Assembly, will visit Congo this week to discuss the situation in the country.

Rogers expressed concern over the situation in Congo, where violence and instability have been prevalent.

In his address, Secretary A. stressed the importance of a peaceful resolution to the conflict in Congo.

In line with this, he will meet with leaders of various factions to discuss a way forward.

Faculty Council Approves Study of UI Committees

As all the Commission to study University committees has been approved by the Faculty Senate, the executive body of the Faculty Senate. The negative plan for the Commission's composition was that the Faculty Senate would have a chance to form the present space of standing University committees, and to make recommendations in the respective governing body for modifications or changes of the constitution and by-laws, staff and faculty bodies on the premises of the state.

The first step is for the Faculty Senate, Staff Council and the Board of Deans to approve the Faculty's position on the Commission to study University committees.

The goal of the study is to make the Commission to study University committees or the Board of Deans, and to make recommendations in the respective governing body for modifications or changes of the constitution and by-laws, staff and faculty bodies on the premises of the state.

The second step is for the faculty, three representatives from the Faculty Senate, the Board of Deans and the Board of Administration to form an ad hoc committee to study the present space of standing University committees, and to make recommendations to the Commission to study University committees.

The purpose of adding an ad hoc committee to the elected representatives of the Commission is to make sure that the Commission's jurisdiction is consistent with the University's constitution and by-laws. The purpose of the ad hoc committee is to make sure that the Commission's jurisdiction is consistent with the University's constitution and by-laws.

The final step is for the ad hoc committee to present its findings to the Faculty Senate, Staff Council and the Board of Deans to approve the Faculty's position on the Commission to study University committees.

The goal of the study is to make the Commission to study University committees or the Board of Deans, and to make recommendations in the respective governing body for modifications or changes of the constitution and by-laws, staff and faculty bodies on the premises of the state.

Illinois Misses Last Two Shots— 
Iowa Mark to 9-0, 83-81

In the final seconds of the game, Iowa led by two points, 81-79. However, Illinois was able to tie the game back up with a free throw from Mike Slutsky. Down to the wire, Illinois had a chance to win, but Iowa's Fred Brown made a free throw to take the lead back to 79-77. With 35 seconds remaining, Brown led the Hawks with 22 points, including a jumper off the fast break to make the score 81-79. The game ended with a rush of basketball, but Illinois was able to secure the win with a basket.

LAWYER'S WhISKY
Frazier: I Want To Fight the Best

NEW YORK — Joe Frazier declared that making his way out of the shadows of former world champion Muhammad Ali was not an easy task. "It's not going to be an easy task," Frazier said.

Frazier was speaking of his upcoming bout with World Boxing Council champion Muhammad Ali, scheduled for March 8 at the Forum in Inglewood, Calif.

"I want to go out there and fight the best," Frazier said.

Frazier's lifting schedule is being followed closely by the press, who are eager to see if the former world champion, who lost his title to Ali in a 15-round decision in 1971, can regain his former glory.

Frazier, who has been training in the shadow of Ali, said he is ready for his comeback fight. "I'm ready," he said.

"I want to fight the best," Frazier repeated.

Frazier's trainer, Angelo Dundee, has said that Frazier is in the best shape of his career and that he is ready to fight.

"Frazier is in the best shape of his career," Dundee said.

Frazier's opponent, Muhammad Ali, is also ready for the fight.

"I'm ready," Ali said.

"I want to fight the best," Ali said.

Frazier and Ali have had a long history of fights, with Frazier winning the only one that mattered. Frazier defeated Ali in a 15-round decision in 1971.

You could buy one of those small cars. But look what you don't get.

Engineering Graduates: Put yourself in our place...

...and you will find the natural gas industry offers you immediate responsibility and a wide-open future. "Our place" is a 10,000-mile-long natural gas pipeline system plus a sophisticated communications network stretching over ten states from Texas, Louisiana and Oklahoma to upper Midwest consumer areas. Our home office, with headquarters of our 2,000 employees, is in Chicago; there are three production offices in Texas and many operational units along the pipeline. At NGPL, you will work with other highly-trained people who specialize in agricultural, chemical, civil, electrical, industrial, mechanical and petroleum engineering. But you will never get lost in a crowd, for business demands individual talents and our Company rewards individual achievements. At the present time, about 80% of our management are engineers.

If you are creative enough to welcome the challenges of increasing market demands and expanding gas technology, our place is the place for you.

We would like to talk over your career plans with you. Write Chuck Rose in Chicago to arrange an interview. Or sign up for an on-campus interview (call Wed., Feb. 25 to register). Contact your placement office for time and location.
