Airline Proposes Flights to Chicago

No One Cares

Even though Iowa City is probably one of the few places in the United States where the newspapers are interested in the arrival of a national hunting boat, the Hawkeye Clinch and the 10th Big Ten Tournament.

Last week, Mr. and Mrs. Downer, Iowa City, the coasting company, announced that they had just bought a new boat, a 100-foot floating restaurant, which they plan to build in Milwaukee.

Downer said that the boat would be ready in time for the hunting season.

"We have a lot of business this year," Downer said. "We are planning to hold a grand opening on the first of October."

Dear Sir: If one is a legislator, he may consider himself happy to have his bill discussed. His critics can be of at least two types - the believers and the non-believers. It is in their case that the believers are by far the most important. The non-believers are, in a way, the test that the believers make. The non-believers, in most cases, are those who think in terms of the law of ideas, as it were, and they are the people who make the law. The non-believers, in most cases, are the people who make the law. The believers are the people who work behind the scenes, and they are the people who make the law. The believers are the people who work behind the scenes, and they are the people who make the law. The believers are the people who work behind the scenes, and they are the people who make the law.

Happiness is 12 and Zip for J.J. & the Dealers

By JENNIFER BERGMAN

Happiness is winning the Big 10 and breaking the Hawks out of the Big Blue Egg.

So says John Johnson, Iowa Hawkeye basketball guard. "I'm 12 and 3 in Zip for J. J. & the Dealers, a blues and country band. I won't make it to 13 this birthday. But I can't wait to see the Hawks take on the Michigan State Spartans in the Big 10 title game. That's when the real fun begins.

When asked if he was more excited about his birthday or the upcoming basketball game, Johnson replied, "I'm 12 and 3 in Zip for J. J. & the Dealers. That's more important than my birthday. It's the completion of a season that I've been working hard to achieve."
Winter Madness Hits Iowa

By LOWELL POTE and DAN SHEFFT

At 4:30 p.m. there were only a few leftover riders for the race place between the lighthouse Halks from Purdue and the Iowa Halks. By 5:30 p.m., the crowd had gathered and a few dozen buses began to roll out of Iowa City. The buses were packed with riders, but no one knew exactly how many. The buses headed for the apron, but all of whom were in line to welcome the main event and the fans that they did.

Traffic on Highway 1 was a sight to behold for about two miles. At 11:45 the highway was little more than a solid stream of traffic. It stretched the greenbelt of Iowa City and the countryside. With the Seraphin building in sight, the fans could see the end of the race near.

Glass Vials was the first to get the crowd up to their feet. The cheering by the fans was deafening, but all could see that the victory was their own. The fans continued through the gauntlet of fans and inside book pockets. In the end, the Iowa Halks had driven past the Purdue Halks and into the apron.

Navy's Public Relations Efforts Include Giving Out Chewing Gum

By ALAN BOLES
The Dispatch News Service

EDITOR'S NOTE -- Alan Bole has written for the Wall Street Journal and the New Republic, and is currently employed by the Consumer Buyers League in Chicago.

The United States Navy is now using Wrigley's chewing gum in its worldwide public relations program.

During 1965, the Navy distributed about five tons of Wriggley's 16 ct. brand chewing gum to children in Latin America. Dubuque is a part of Wrigley's plan to give away gum through the Chicago-based Naval Reserve Public Affairs Company, of which William Wrigley, president of the gum company, is a minority owner.

The goal was to highlight Navy month held throughout Latin America. At the request of the Navy's "Project Handshake" program, which distributes athletic equipment, handball, school supplies and other items to people overseas by casting out funds from which the gum was channelled to "Project Handshake" through the Wheaton, Ill.-based Naval Reserve Public Affairs Company, of which Wrigley is a minority owner.

A representative of Wrigley stated that his donation contained 15,000 packages of gum, which have a retail value of $7,800. William Wrigley, president of the company, is a minority owner.

The Wrigley gum was given to the children of Latin America, since "some people chew gum for hours and others for only a very short time."

Wrigley's secretary, secretary of Wrigley's, said the firm plans to give away gum to charitable organizations and government agencies. In recent years, Wrigley has furnished several dozen tons of free gum to Voluntary Health and Welfare Organizations, and has donated millions of gum sticks to charitable organizations and government agencies. University of Mississippi Must Consider Man's Survival, Prof Says

A professor at the University of Mississippi has called for a reevaluation of the university's policies and procedures regarding the survival of individuals with disabilities. The professor, speaking at a recent conference, expressed concern about the lack of support and resources available to students with disabilities. The professor called for a more inclusive and accessible environment, emphasizing the importance of addressing the needs of all students, regardless of their abilities. The call for reform comes as the university continues to face scrutiny over its handling of disability-related issues.

Local Bus Service Nearing 'Its Death'"n
By JOHN CAMP
"In a city as small as Vientiane, the bus system is not
seen as a viable mode of transport. The system is not
sustainable and the service is not very reliable."

VIENTIANE, La., March 4 (ANNA PHOUMA)—Bus
service in Vientiane, the capital of Laos, is on the
brink of collapse. The city's aging bus fleet is
struggling to keep up with the demand for public
transportation. Amalgamation of government
resources has led to a decrease in the number of
service days, resulting in a decline in service quality.

The current bus system, which dates back to the
French colonial era, is not only inefficient but also
unsafe. The aging vehicles are in poor condition,
posing a risk to the passengers. The city is
considering alternative modes of transportation to
reduce traffic congestion and improve public safety.

Local authorities are looking into the potential for
introducing a bus rapid transit system, which
would involve the construction of dedicated bus
lanes and the purchase of new, modern buses.

The project is in the early stages, with preliminary
studies and feasibility assessments being conducted.
However, funding remains a significant challenge.

The Vientiane Metropolitan Authority, which
oversees the city’s transportation system, has
collaborated with international partners to explore
options for modernizing the bus service. An
international tender for the development of a bus rapid
transit system is expected to be launched in the
near future.

The city hopes that the new system will not only
improve public transportation but also attract
investment to the local economy.

The current bus system is also facing competition
from other modes of transport, including
motorcycles and tuk-tuks. The city is considering
regulating these services to ensure they do not
compromise the safety of passengers on the roads.

The future of the bus service in Vientiane is
uncertain. The city is taking steps to modernize its
transportation system, but it remains to be seen if
these efforts will be enough to save the service.

reporter for the Daily Iowan.
Introducing...  
**OSCO Drug's Family Record-Keeping Service**

Your OSCO Drug Store provides a new kind of service in their Pharmacy Department—It's a Family Record-Keeping Service, and it's going to mean a lot to you.

Under this system all records of your family's prescriptions will be kept together, under your family name, on file at your OSCO Pharmacy. Each time you have a prescription filled for yourself or some member of your family, all the prescription information is added to your family record. Yes, doctor's name, prescription number, date of prescription, and the date the medication was filled. This will help you and your doctor keep track of the medicine you're taking. And it will help you with insurance claims, too.

**Here are the advantages you're going to appreciate with this new OSCO PHARMACY SYSTEM:**

- **Detail, without delay.** A prescription whose number you have lost.
- **An accurate record at your years and of your family's medicinal expenses to insurance purposes.**
- **Your whole family's complete medicinal history available.** Mentally should your doctor need it and know life.
- **Your file can be transferred should you move to a different area.**

For your personal records, you will receive an official record of each prescription purchase on your receipt—to be kept for tax and insurance purposes. Next at tax time, add the total amount of your record receipts. Then ask your OSCO Pharmacist to sum up the total amount of your family's yearly purchases from his Family Record-Keeping File. You'll save money, time, and be able to send in an official account of medicine purchases to the Income Tax Bureau.

**Candidates Comment**

**EDITOR'S NOTE—** The race for the 1st District Congressional seat in 1974 was more than a campaign. For the Daily Iowan and the Daily Iowan will conduct a campaign to familiarize candidates with the people who will be voting for them. Each candidate will be asked questions about their views on issues, their qualifications, and their goals.

**ALBRIGHT**

Senator Albright, a candidate for the Democratic nomination, said Sunday that there are some candidates for the 1st District who will not survive the primary election. Albright said that the American Indians' "momentum" is a major opportunity for the Democratic party to make up its vote and win for both the Democrats and the socialists.

**OSCO DRUG**

Stop in at Your Osco Drug Store with your very Next Prescription

... and start your Family's Record-Keeping File. You'll find many other things to like about Your Osco Pharmacy, too—including the extra prompt service and comparatively low prices.

This Service Means Safety, Too.

In case some member of your family is allergic to a certain drug, this fact can be added to your Family Record File. Should your prescription call for this type of drug your pharmacist would be alerted to it immediately and not only can notify your doctor for a change in medication, but can also provide you with additional information on any medication you may be taking.
