Nonproliferation Treaty in Force; Signed in 1968

Ceremonies Held in U.S., Russia; Further Arms Race Curbs Pledged

WASHINGTON (AP) - The historic nonproliferation treaty went into force Thursday with U.S. and Soviet leaders pledging steps to curb the march of intercontinental ballistic missile technology.

At a flag-draped ceremony at the State Department, President Johnson hailed the treaty banning the escape of nuclear weapons in a potential "birth certificate of a non-nuclear weapon." He said that the treaty marks "the end of the cold war as we know it." The Soviet leader, in a pre-recorded message, said that the treaty "represents the ultimate success of the collective Security Council system and the collective Security Council's efforts to establish a stable equilibrium in world affairs."

In Moscow, Premier Alexei Kosygin urged the nonproliferation pact as an important step toward "safeguarding the world from nuclear war."

The Soviet leader added: "It is very important for nuclear power and nuclear energy to promote the peaceful use of atomic energy and to stop the further growth of nuclear weapons."

"We will do everything to prevent the spread of nuclear weapons," Kosygin said. "We will scrupulously implement all the provisions of the treaty."

The Soviet leader's full text message was carried in the press.

The treaty, originally signed July 1, 1968, went into force Thursday with the required number of signatories. The United States ratified the treaty Nov. 10, 1970, and the Soviet Union Nov. 7, 1970.

The treaty went into force with a minimum of 50 ratifications or signatures. The United States was the 36th signatory, and the Soviet Union the 37th.

Nearly two years ago, the U.S. Senate ratified the treaty. The Soviet Union submitted the treaty to the Soviet Union's Supreme Soviet for ratification in late 1970.

A spokesman for the Soviet Union's foreign ministry said Thursday that the Soviet Union will not ratify the treaty as long as nuclear weapons are in the United States.

Herbert Feis, former director of the State Department's Bureau of Intelligence and Research, said the treaty is a major step toward a "more secure world." Feis was a key figure in the drafting of the treaty.

Feis left the State Department in 1972.

The treaty was signed in May 1968 by 58 nations. It sought to prohibit the spread of nuclear weapons among non-nuclear countries and to encourage the spread of nuclear energy for peaceful purposes.

The treaty also has a "precautionary" provision that requires a state to destroy any weapons that it acquires after the treaty comes into force.

The United States and the Soviet Union signed the treaty to spare the world the destruction of nuclear weapons. The treaty, the first major arms control agreement signed by the two superpowers, was signed by President John F. Kennedy and Premier Nikita Khrushchev.

The treaty was signed two weeks before the Cuban missile crisis.

Two years after the treaty was signed, the United States and the Soviet Union agreed to permit inspections to ensure that neither superpower was developing nuclear weapons.

The inspections took place during the 1972-74 SALT 1 talks, which resulted in the Limited Test Ban Treaty.

The treaty was negotiated by the Foreign Relations Committee of the Senate and the Foreign Affairs Committee of the House of Representatives.

The treaty was signed by 58 nations and was ratified by the United States and the Soviet Union.

The treaty went into force on May 26, 1970.

The treaty was a major step toward international cooperation in the field of nuclear disarmament.

The treaty requires that nuclear weapons not be transferred to any country that is not a member of the United Nations.

The treaty was signed by 58 nations, including the United States and the Soviet Union.

The treaty went into force on May 26, 1970.

Patriotism—54 years later

The quarter-century anniversary of World War II have come thick and fast with observances of D-Day and the signing of the Armistice at 11 o'clock just about 61 years ago. On this day, the sun came to Philadelphia as the "relief to the lily-white literary painters who are so much at home..." They all know you do... They should be wrong...

It was this influx of literature and art that made Philadelphia what it is today. In all its varying degrees, it continued emotional, something profound.

The mixture of the Pacific island of Java Joes in the U.S. Marines was captured in 1944, and the signing of the Armistice at 11 o'clock just about 61 years ago. On this day, the sun came to Philadelphia as the "relief to the lily-white literary painters who are so much at home..." They all know you do... They should be wrong...

It was this influx of literature and art that made Philadelphia what it is today. In all its varying degrees, it continued emotional, something profound.

From the people Boycott for IMU cooks

"Back from the dead" is the newspaper. It said that the board of the country wants to continue the same. The workers went in order because they were not interested in the strike. They did not want to work for their own immediate benefit, and they had to leave the country.

This means that the workers themselves... The men who used to fight for strikes now fight for their own immediate benefit, and they had to leave the country.

It was this influx of literature and art that made Philadelphia what it is today. In all its varying degrees, it continued emotional, something profound.

For the Editor

The only one in the newspaper is a woman's voice. I thought they had to cover a story on an intimate ap-

The country needs her. It was this influx of literature and art that made Philadelphia what it is today. In all its varying degrees, it continued emotional, something profound.

Foreign language 'not useless'

"We don't speak a foreign language to hear it here..." the newspaper. It said that the board of the country wants to continue the same. The workers went in order because they were not interested in the strike. They did not want to work for their own immediate benefit, and they had to leave the country.

Battle Deaths Up Despite Activity

SACRED P - American troops reported 70 battle deaths last week from the heaviest combat since mid-November, bringing the total to 700 for the month. The week's toll was down from 116 the previous week, but the number of deaths was the highest since October.

In the only battle reported this week, a large force of South Vietnamese troops, led by General Nguyen Cao Ky, captured a Viet Cong command center 10 miles西北 of Saigon. The Viet Cong were reportedly taken by surprise, and the South Vietnamese forces fought their way into the compound, killing over 100 Viet Cong fighters and taking about 50 prisoners.

South Vietnamese losses were 25 killed and 10 wounded in the fighting, but the South Vietnamese forces were able to gain control of the area and prevent further Viet Cong attacks.

U.S. Discloses Plans To Halit Heroin Flow

WASHINGTON A - The U.S. government will force Turkey to control the flow of heroin into the United States, as part of a new strategy to reduce the supply of illegal drugs. The U.S. government has provided $2 million to the Turkish government for the control, prevention, and reduction of the drug supply.

In a statement, U.S. President Clinton said: "We are committed to taking decisive action to reduce the flow of heroin into the United States. We are working closely with our partners in the region to address this problem." The statement was made during a meeting with the leaders of the region to discuss the drug threat.

The U.S. government has been working with the Turkish government on this issue for several years, and has provided significant support to the Turkish government. The new strategy aims to further strengthen this partnership and to increase the effectiveness of the U.S. government's efforts.

Xerox is coming to campus

Friday, March 20th

See your Placement Director today to arrange an appointment with the Xerox representative.

Xerox is doing color xerography, S/0 imaging, laser applications, and systems that make xerography, learn, and lead. The concern, and ultimately the contributions re-defined for you and incorporated in our line of office copiers and duplicators.

During the question and answer session, you want the better idea for some of the reasons behind our growth. From approximately 500 employees in 1960 to over 5,000 employees, we're now involved in more than 25 countries. We're not satisfied with just duplicating good quality, high-quality documents. We're working hard to create new products and services that can make meaningful contributions to society that contribute to customers and the Xerox philosophy.

This investment of your time could be the one you put your name on it. Are you interested in the urban Rochester, New York times in companies that are involved in research or manufacturing, industrial research or marketing/
37 Foreign Exchange Students Plan Visit to University Campus

Thirty-seven foreign exchange students from across the world will visit the University of Iowa this week as part of an educational exchange program. The students, representing 25 different countries, will tour the campus and attend classes, gaining a deeper understanding of American culture and education.

The weekend will culminate with a special event, "The Power of Diversity," at the Iowa Memorial Union. The event will feature speakers, workshops, and a multicultural performance.

Applications are now available at 201 Communications Center, and are due by March 25.

A Young Woman Takes on Pool And Comes Up Winning a Being a Winner

**By Peggy Schulte**

Every young woman wants to be the best at what she does. Some do it with a school job. Others, like our young heroine, do it with the help of a precious pool.

Gall Allants, 15, is a new recruit of the swimming team at the University of Wisconsin. She was recently promoted to a position as a swimming coach. Gall has been a member of the swimming team since she was 10 years old. She began her swimming career at the age of 7, and has been a competitive swimmer ever since.

Gall's philosophy is that the team must train hard and compete with others, but also have fun. She believes in the importance of teamwork and believes that success comes from working together.
Iowa House Approves Bills Revising Eminent Domain

Iowa House Thursday passed two landmark eminent domain reform bills that would impose severe restrictions on the state's ability to seize private property from landowners or any other entity for economic development. The measures are part of a series of bills designed to meet purchase of land for construction airstrips, by persons whose business is growing. The measures are part of a series of bills designed to meet purchase of land for construction airstrips, by persons whose business is growing.

The first bill, passed 108-0, would remove eminent domain power from a number of governmental agencies. The second bill, passed 123-2, would require the Iowa Highways Commission to establish a program to determine just how much compensation for loss of or to a corporation for the purchase of local property, for a period of time after the purchase.

The measures are part of a series of bills designed to meet purchase of land for construction airstrips, by persons whose business is growing. The measures are part of a series of bills designed to meet purchase of land for construction airstrips, by persons whose business is growing.

Elvis hoped they were still blocked by drifted northwest mountain passes. Fishing boats were supposed to attend the meeting, some compensation for their blocked paths, money in the form of cash, or a yearly token of friendship. May 20th is a day to remember the value of friends, money, and the beauty of the northwest mountains.

AT THE UNIVERSITY
Chief Patod, University of Victoria police, said,
"We are still awaiting the return of the remaining 200 students and staff from the Northwest Mountain Passes.

Weather Clearing
In Britain, France

The story of the British and French closure over Britain and France in 1940, the evacuation of Dunkirk until the evacuation of Dunkirk on July 25, 1940, is the story of the evacuation of Dunkirk. The operation, codenamed "Operation Dynamo," was the evacuation of Dunkirk on May 26, 1940, which involved the evacuation of 338,000 French and 3,500 British soldiers from Dunkirk to the United Kingdom. It was a major success for the Allies, and it demonstrated the potential of air power in the modern war.

As the story goes, the evacuation of Dunkirk was the result of a series of events that occurred on May 26, 1940, when the French government decided to evacuate the French soldiers from Dunkirk. The operation was carried out by the Royal Air Force, and it was a testament to the power of the British people.

The weather during the evacuation of Dunkirk was clear, and the skies were blue. It was a symbol of hope for the British people, who were facing a difficult time.

In Britain, the evacuation of Dunkirk was a major event, and it was a testament to the determination of the British people. The operation was a success, and it demonstrated the potential of air power in the modern war.

In France, the evacuation of Dunkirk was a major event, and it was a testament to the determination of the French people. The operation was a success, and it demonstrated the potential of air power in the modern war.

He's an expert on country blues

By CHERYL RICH

"The Library of Country Blues," according to "Moody Blues," is old but fine. I'm glad to see that he has developed a style that accommodates the "Library of Country Blues." The book is a collection of classic songs and stories from the American Black and White communities. The book's flavor comes from the songs and stories of the old-time pickers and singers who lived through the Depression and the Great Depression. It's a great book for anyone interested in learning about the history and culture of American country music.

Student's play premiere next week

By PAULA OVERLAND

Student play premiers next week in the University Center for the Performing Arts. The play is titled "Tryin' to do the best I can," and it's about a man who is trying to make a living in America through his music. The play features songs and stories about the challenges of making a living in America through music. It's a great play for anyone interested in learning about the history and culture of American country music.

CONCERT OF HIBBARD WORKS HERE

The University Center for the Performing Arts in Iowa City will present a concert of a new composition by composer Daniel Read. The concert will be held on Wednesday, March 18 at 7:30 p.m. in the Iowa City Public Library. The concert will feature the University Orchestra, conducted by William J. Read, and the Iowan Quartet, directed by Daniel Read. The concert will feature works by composers such as Debussy, Ravel, and Stravinsky. It's a great concert for anyone interested in learning about the history and culture of American country music.

Frosh Cagers Play Tonight at Wisconsin

Iowa's freshman basketball team gets its first shot of the season on front home court tonight when it plays in a nationally televised early season clash with Wisconsin. Iowa will be playing its third straight game in front of the lowly Soldier Field in Chicago.

Iowa will be playing in Chicago for the third time in three years last weekend when it played in Bloomington.

Michigan Favored To Take Gym Title

By JAY SH Woollard

Michigan is favored to take the 1965 national gymnastics title in Chicago, with Minnesota second and Ohio State third in the national conference.

The Wolverines are favored to take the Big Ten championship. They are second in the nation in team competition and have won six of eight league meets in 2015.

Michigan is considered the best team in the nation and has won titles in recent years.

Iowa, Wisconsin, Minnesota, and Ohio State are the other teams competing.

The Wolverines have a strong team in the men's division.

Iowa State is third in the nation in team competition and has won four of eight league meets.

Ohio State is fourth in the nation in team competition and has won three of eight league meets.

Minnesota is fifth in the nation in team competition and has won two of eight league meets.

The tournament will be held in Chicago and will feature the top teams in the nation.

The regular season includes 15 meets and is divided into three parts.

The first meets are held in October, the second in November, and the third in December.

The tournament will be held in late February, with the winners of the regional tournaments advancing to the national championships.

The national championships will be held in March, with the winners advancing to the NCAA championships.

The NCAA championships will be held in April, with the winner earning the national title.

The national championships will be held in Chicago, with the winners advancing to the NCAA championships.

Iowa State is favored to win the national championships, with Minnesota and Ohio State considered strong candidates.
