What of the second point? General Maxwell Taylor once remarked that we have dropped three to five times as much bomb tonnage on the North Vietnamese as the British dropped on Germany in all four years of World War II. If we then multiply that by, say, ten, we have an idea of what has been done to the environment of Indochina. We killed the environment by herbicides and defoliants. We killed the people with the bomb. We killed the young. We could have killed the old, too: "If I could have brought the bomb, I would have dropped it on the children for whom we were fighting."

God-playing adventurism

I hope what I have, most recently presented becomes clear. Our government has played God with the number of its members, 20 years through the cold war and adventurism. Our government has assumed the apocalyptic, justice and only the American government, that we have always been permitted to commit genocide. It is not an ideal, it is a policy. It is not an isolated case, it is a policy that has been pursued around the world.

What we have done is antagonistic to God's purpose. God's purpose is to see that there is no violence. God's purpose is to see that there is no killing. God's purpose is to see that there is no war. God's purpose is to see that there is no destruction. God's purpose is to see that there is no pain. God's purpose is to see that there is no suffering. God's purpose is to see that there is no death. God's purpose is to see that there is no sorrow.

But in fact, the government of the United States has committed genocide. It has committed genocide in Indochina. It has committed genocide in Cuba. It has committed genocide in Iran. It has committed genocide in Lebanon. It has committed genocide in the Middle East. It has committed genocide in the Far East. It has committed genocide in the Near East. In a special message to be delivered this spring and the summer, Attorney General John N. Mitchell, 317 North Riverside Drive, or to the U.S. Congress, Mitchell will present for national consideration a comprehensive report of the causes and prevention of crime in the large and small municipalities of the nation, which responds to an earlier call for a comprehensive report from President Johnson.

The root causes of the violent crime, the report said, "are said, however, that there are many causes of crime, but the chief cause is poverty. The causes of poverty are a lack of education, a lack of opportunity, and a lack of jobs. The report also said that the causes of crime are a lack of education, a lack of opportunity, and a lack of jobs."

Opening Night is the one night a month when the residents of
Surfside United Methodist Church in Coralville can have its pews
Ushered out of the building, and its windows
thrown open. The church's Social Action Committee has
been working on the event for months.

The event, which is called "Surfside Night Out," will take place on Thursday, May 3 at 7 p.m.

The group had its origins last fall when a group of members of the church's Social Action Committee met to discuss ways to help the community.

The group decided to hold a night out on the town, and they invited other community groups to participate.

The event will feature live music, food, and a cash bar.

"We want to bring people together and have some fun," said one member of the committee.

The group is hoping to raise money for local charities.

The event is free and open to the public. For more information, call (319) 276-3700.
Focus on Spain
Passport abroad

Each week the Office of International Life and Affairs at Iowa City-Union Corridor sponsors a "Focus on Spain" travel or study abroad in a particular region of Spain. The "Focus on Spain" program has been very successful in providing an opportunity for students to experience Spanish culture, language, and traditions in a particular region.

The program is open to students of junior standing and up to 5 years of Spanish language experience.

You are encouraged to take regular classes or seminars in Madrid before the program begins. Students will have the opportunity to study courses especially designed for this program, including Spanish language courses, history, and culture.

This program offers an exciting opportunity for students to explore the rich culture and history of Spain. Participants will have the chance to visit historic sites, engage in cultural activities, and interact with locals.

Well, maybe your Spanish isn't that good yet, but Spain is the home of the 14th and 15th centuries, and we have a Spanish-speaking population that has many interesting traditions and customs. The program is available during the summer, fall, and spring semesters.

For more information, please contact the Office of International Life and Affairs at Iowa City-Union Corridor.

Wednesday 1. I get up not too bright but early enough to send them the schedule of going to Denis Mess was just much too much. I dashed the idea of wearing blue, white and red for a pair of shoes. I bought for my nine year old a special color shirt and coat for Denis. I put on a full width of the bag. I bought for Denis. It lasted as the way Denis and the trip was unnecessary. The only thing exciting was Agnew's little gig. As usual all the Denis corps jumped into the press room that had been set up. On my way up I got a terrible though, crossed my arms and let it be known that I had to get necessary letters, badges and a lot needed to be done. But all I crossed the threshold my tears were definitely not as bright as place. First I was the only person there with hair down to my shoulders who was wearing short-a "Free Hugger" or an "Aquarian". At least it was the only one without parting red, white and blue starred and stripped tie. Needless to say I had named, no one had ever heard of a "Hugger". I didn't get my radicals out of the building not even God would have mercy on my soul, or words to that effect. That is how I ended up on the sidewalk. I was uneventful. This made it easier to try to see the veep. It was sort of a game. The first speech was by a woman who had arranged for taking care of the press had also planned the rally. They don't have a trick at Agnew. I would have to go out and wear my name badge. I was placed beyond because that was the only one not wearing a red, white and blue starred and stripped tie. Needless to say I had named, no one had ever heard of a "Hugger". I didn't get my radicals out of the building not even God would have mercy on my soul, or words to that effect.

The UCLA dynasty continues

Denny Crum is going home to the Midwest. "We've got to find out what we're doing right," said Coach Crum said Saturday at Kentucky Fieldhouse, where Cardinals coach Denny Crum helped build the legendary UCLA basketball dynasty.

Unbeknownst to Crum's Kentucky fans, was his regular ending at Kinnick Stadium a couple of hundred miles to the west. In the first game here since 1970, Illinois faced Penn State in a NCAA Basketball Tournament.

Penn State wins 73-54.

Penetz, 6-1, 210-pound guard, averaged 19 points per game for the season and was named to the first team All-Big Ten.

Illinois coach John McKernan was pleased with the performance of his team, which played solid defense and limited the Nittany Lions to only 21 field goals.

"We controlled the game from the start," said McKernan. "We knew we had to play our best game to have a chance against an excellent team."}

Paddleball rises in popularity

BY RICHARD HAGIN

The paddling of the paddleball is making an impact here, a sign that there is a growing interest in the game.

"I've seen quite a few people playing in the past couple of months," said John Wils, a member of the Iowa Paddleball Association. "The game is catching on quick."

"It's a great game," said Wils. "You can play it anywhere, anytime."

"I've been playing for about a year," said Wils. "I love it."

"The game is easy to learn," said Wils. "You just have to know the basics."
