70% reject ramp bonds

The community voted Tuesday whether to allow the city to build a ramp at University Operations Center. The Community Council denied the request, and 70 percent of the voters said it should not be built.

Kirkland was opposed to the ramp, saying it would cost too much money and that the university has other needs.

The council also voted to annex the UOC to the city, which some members said is necessary for the university to function properly.

The annexation vote was 7-0, with one abstention.

Several council members said they would support annexation, but some expressed concern about the timing of the vote.

A moratorium was put in place last year to prevent the city from annexing the UOC.

On The Eighth Amendment: A proposed amendment to the constitution of the United States, it states: "No person shall...be compelled in any criminal case to be a witness against himself..." This is the basis for the Fifth Amendment, which allows individuals to refuse to testify against themselves in criminal cases.

In the News: The Seattle Times reports on the outcome of the8th Amendment vote and discusses the implications for elections in 2018. They also provide context about previous attempts to amend the constitution.

Sengeheds on war powers

Another amendment to the Constitution, specifically Article II, Section 2, grants war-making powers to Congress. This amendment is important to understanding the balance of powers between the federal government and the states.

On the Senate: The Senate is the upper chamber of the U.S. Congress. It is composed of 100 members, two from each state. The Senate is responsible for confirming presidential nominees and ratifying international treaties.

On the Constitution: The Constitution is the fundamental law of the United States, established in 1787. It sets out the structure of government and the rights of citizens. It has been amended 27 times since its ratification.

On the Senate's powers: The Senate has the power to conduct investigations, make treaties, and confirm presidential appointments. It also has the power to try impeachment cases.

On the treaty: A treaty is an international agreement between states. It is negotiate by representatives and ratified by the Senate. Treaties are considered part of the U.S. Constitution.

On the amendment: An amendment is a change to the Constitution. It can be proposed by a two-thirds vote of both houses of Congress, or by a national convention called for by two-thirds of the state legislatures. An amendment must be ratified by three-fourths of the state legislatures or by conventions in three-fourths of the states.

On the amendment process: The process for amending the Constitution is complex and takes time. It requires a two-thirds vote in both houses of Congress, followed by approval in three-fourths of the state legislatures. This process is designed to ensure that amendments are carefully considered and widely supported.

On the Senate's role: The Senate is an important part of the U.S. government, and its role is to ensure that the Constitution is upheld. The Senate has the power to conduct investigations, make treaties, and confirm presidential appointments. It also has the power to try impeachment cases.

On the treaty: A treaty is an international agreement between states. It is negotiate by representatives and ratified by the Senate. Treaties are considered part of the U.S. Constitution.

Without U.S. ground troops
S. Viets go on offense

WASHINGTON (AP) — U.S. Attorney General Edward H. Levi announced today that the U.S. government had reached a settlement in its long-running legal battle with the South Vietnamese government over alleged corruption and misappropriation of funds.

The settlement, announced in a press conference at the Department of Justice in Washington, D.C., covers several years of allegations that the South Vietnamese government had used U.S. funds to bribe and腐蚀 foreign officials and to support covert operations.

Levi said the settlement would provide $25 million in compensation to the U.S. government and would require the South Vietnamese government to impose stricter accounting and transparency measures to prevent future misappropriation of funds.

"This is a significant step in the fight against corruption," Levi said. "We will never tolerate the misuse of our funds."

The settlement comes after a decade-long legal battle, during which the U.S. government had sought to recover millions of dollars in supposed misappropriations.

The settlement includes provisions for the establishment of a new committee to monitor South Vietnamese financial practices and to ensure compliance with the terms of the agreement.

Levi also announced that a special prosecutor had been appointed to investigate allegations of corruption in the South Vietnamese government.

"We are making progress in our efforts to hold the South Vietnamese government accountable," Levi said. "We will not rest until justice is served."
Will pay for audit, but 'under protest' 

Impressed with Chinese acupuncture

Doctor says invite surgeons here

Dr. Wesley Hall, AMA president.

WASHINGTON, D.C. — Acupuncture operations witnessed in China have convinced
President Nixon's personal physician that they have something very superior to our method of anaesthesia.

"I've had more than 30 acupuncture treatments so far to calm my nerves while waiting for Nixon," said the White House physician over a telephone call to Dr. Robert K. Smith, director of research at the American Medical Association.

"The Chinese are certainly the greatest
scientists of our time. They have something for everything, from colds to cancer. And I've never seen anything like it."

Smith said that the Chinese doctors used acupuncture needles to implant electrical current into the body of long needles followed by application of electric current through the needles. He added that he had learned much about and made use of electricity in a workable way during his study of the art under Chinese doctors.

"I believe that thought of acupuncture as a treatment for conditions such as headaches, but in a way of thinking that the Chinese would not be likely to claim they have made a great discovery."

Smith declined to answer any questions on the use of acupuncture, at least in his use as an anesthetic.

"I have praised it on all (Chinese medicine authorities)" he said, "but that is all."

The White House physician said also in an interview that, while he had faith in the knowledge of acupuncture as a treatment for conditions such as headaches, he was "in no way of thinking that the Chinese would not be likely to claim they have made a great discovery."

Smith declined to answer any questions on the use of acupuncture, at least in his use as an anesthetic.

Labor leaders qut market dispute

LONDON-JAPAN—Britain's Labor Party was presented with a market dispute Thursday when its leaders appeared to be at war over the labor market. The party's leaders were divided on the issue of the labor market, with some calling for higher wages and others calling for lower wages.

Both leaders followed the reputation Washington Monday night of the party's leaders meeting with Japanese Prime Minister Eisaku Satō and Prime Minister Edward Heath. Both leaders appeared to be at odds over the issue of the labor market, with some calling for higher wages and others calling for lower wages.

Dear Friend,

We don't have to tell you about the urgent need to respond to the current situation in Indochina. This letter is being written under the radio signal that Nixon just unrolled the biggest bombing raid against North Vietnam since 1968. In addition to the Seventh Fleet pounding North and South Vietnam with its big guns and missiles, WE MUST RESPOND.

The intermittent PCP has been meeting in emergency sessions over the past three days and the enclosed Call to a Washington Articulation and Conference in one of the results. In addition PCP has issued a call for direct local actions against the escalating war. We hope you will write us soon, and let us know in Washington.

Please reprint the enclosed leaflet in mass distribution in your community. We've left a space for the name of your local group. The enclosed leaflet is suitable for reprinting by photo offset or mimeograph. Again, please reprint and distribute the enclosed leaflet—or write and distribute your own leaflet.

Because of the emergency nature of the Washington action and conference businesses should be reserved immediately. And, of course, curb our enthusiasm.

This is a Crisis

People's Coalition national call to action

"Vietnamization" Fails — the War Escalates

In the past week heavy fighting has begun again in South Vietnam. The U.S. controlled Saigon army is waging war with heavy American air and naval support. "Vietnamization" has failed — South Vietnam's military will be killed, more of our taxes and lives will be wasted and increased in Vietnamization as a war against South Vietnam and the United States.

From the NLF's victory in the Tet Offensive, the U.S. expanded its war efforts to increase its subsidiaries on a wide scale and to establish the most brutal methods in the Vietnamese revolution against war.

Moreover, Nixon's government is preparing to establish the "Protocol on Human Rights" which will end the Vietnamese peoples' resistance and the "agreement" of the corresponding war.

The Vietnamization, our people are the President of the General Government of the Vietnamese Revolution and the Vietnamese alliance, our total and unconditional support and with our brothers in all of Indochina and overseas, once again, we call on the people of this country to increase our capability of preserving the national liberation, the preservation of the foundation of President Ho Chi Minh.

Vietnam will win

PCP Staff

"I can assure you tonight with confidence that American involvement in this war is coming to an end."

Member of Pay Board schedules lecture here

Arnold B. Wiler, a former President of the Pay Board, will be the first to present a lecture in the series of the Dr. Katz, member of the faculty and staff. Wiler is currently in his second term as president of the board. He has decided to retire at the end of the term, and in his place, Willard T. Boyd has been named as the new president.

In a letter Tuesday to Allen S. Baker, director of the Pay Board, Wiler said, "We hope to see students have more time with their patients, a new communications system put the entire health care team in touch with one another with greater efficiency and possible savings in the expansion program to help improve services.

The system, which is the first class of the new Health and Physical Education Building, will allow the students and faculty to work with different groups in a more efficient manner. It is hoped that the new system will be an asset to the university and be a valuable tool for the future.
Refocus to picture more than 30 films
Norman Mailer, "Of course, it is more than 30 films."
More focus on the films and the festival.

**Mao's poems and paintings tonight**

Chairman Mao is giving a poetry reading tonight. The event is scheduled for 7 p.m. in the main hall of the Beijing University of Technology. Mao's works will be displayed alongside his original poems and paintings. The event is being sponsored by the local arts council and is expected to attract a large audience.

**Tickets remain, April 16**

Madonna's concert on April 16 at the Civic Auditorium has sold out. Tickets for the event are currently available for purchase through Ticketmaster. The concert is scheduled to feature the hits from her latest album, "Like a Virgin."

**fire and ice**

Kirkwood fire buff wins Oscar contest

It's an "impossible dream" for an entire generation, but the Oscar nominee—Kirkwood fire buff Mark Beachell—found it mine. "It was a very thrilling experience," Beachell said. "I was so excited when they announced my name."

Disappointment, as well as happiness over his nomination, were apparent among some of the extras who called the scene perfect every time. "I knew that it was a good scene," he said. "I knew that I had a good chance of being nominated."

The fire buff, who is enrolled in the Computer Science program at Kirkwood Community College, completed his fire buffing duties by 10:30 p.m. that day. "I was able to get a universal joint replaced," he said. "They quoted me $14.70 and $27.81. This indicates that you should shop around a lot."

Tobacco is that someone at the gas station and new-car department stores might carry the apple jack, but have not been able to stock it. What will I do? Also, what will I do?"

Lakers aiming to even series after poor show

LOS ANGELES (AP) - Held to 113 points in Game 7 in their first playoff meeting with the Milwaukee Bucks, the Los Angeles Lakers aim to even the series Wednesday night in what has become a routine encounter.

The Bucks, defending National Basketball Association champions, scored 31 in the first quarter, winning 120-84. The Lakers scored 120 in 1972, winning 150-112.

In fact, the Lakers' 1972-73 season ended with a 136-133 win over the Milwaukee Bucks. The current series is being played in the same arena as the 1972-73 season.

There was an argument about lighting at the Forum for the opener of the best-of-seven series, Tuesday, that saw the Lakers lose 111-101 to the Bucks. The Lakers scored 26 points in the first quarter, the Bucks scored 28.

"I'm not saying the lights weren't fast," said Van Breda of the Forum. "I'm saying the forum was too slow for our team." The Lakers scored 11 points in the first quarter, the Bucks scored 16.

The Lakers' 112-102 loss to the Milwaukee Bucks was their fourth loss in five games in the current series.

Make-up up pay last strike hurdle

NEW YORK (AP) - Striking hotel workers won another appeal in their efforts to get back pay, the latest victory for a West Coast hotel chain against a federal judge.

John Gahlen, executive director of the Hostel Information Office, said the chain had offered to give up the 6 1/4 hours per week that the workers had already won in previous court cases. The offer was withdrawn after the workers rejected it.

The workers, represented by the American Federation of State, County and Municipal Employees, had argued that the chain had failed to pay them for work done during the strike.

"We're very pleased," said Gahlen. "We're happy to see the strike end." The workers had been on strike for 13 weeks, from July 14 to September 14.

Lakers Bradley
rally New York

NEW YORK (AP) - The New York Knicks, with Jerry Lucas and Dave DeBusschere returning from their respective injuries, rallied to beat the Los Angeles Lakers Wednesday night.

"We were down two games to none," said Lucas. "But we fought back." The Lakers scored 111-101 in the game.

The Lakers posted 120 points, while the Knicks scored 120.

"We're not saying the lights were fast," said Van Breda of the Forum. "I'm saying the forum was too slow for our team." The Lakers scored 11 points in the first quarter, the Bucks scored 16.

The Lakers' 112-102 loss to the Milwaukee Bucks was their fourth loss in five games in the current series.
No hitting, Hawks lose

BY REN BROWN
Iowa Sports Editor

When Iowa managed Drake's last hit yesterday, Darrel Banks wasn't too concerned about the Hawkeye batting.

Tuesday afternoon Banks was definitely concerned Iowa Hawkeyes aimed their attention toward Indiana.

Hawkeyes manager Darrel Banks managed the Hawks to a 7-2 victory over the Toronto Maple Leafs Tuesday night at the Old Smokey-Only Hotel in Chicago.

The game was played in front of a sellout crowd and was the first meeting of the two teams.

The Hawkeyes led from the start and never looked back, winning 7-2.

Cyclone sacrifice fails

Iowa shortstop Ray Smith hit a three-run home run in the second inning of the game to lead the Cyclones to a 7-2 victory over the Hawks.

The Cyclones scored two runs in the first inning and added five runs in the second.

The first inning saw the Cyclones score when Lefty Brewer hit a two-run triple off Iowa pitcher Mike Gillespie.

In the second inning, Iowa scored three runs when Bob Paulson hit a bases-loaded triple off Cyclone pitcher Mike Gillespie.

The Cyclones added two more runs in the third inning when Lefty Brewer hit a two-run triple off Iowa pitcher Mike Gillespie.

Iowa's defense was solid behind Gillespie, allowing only two hits in seven innings.

The Cyclones scored three runs in the fifth inning on a three-run home run by Lefty Brewer.

In the seventh inning, the Cyclones added two more runs on a two-run home run by Lefty Brewer.

The Iowa defense was solid behind Gillespie, allowing only two hits in seven innings.
