Evaluations of the Defense Department's Environment Protection Office (EPA) were made public this week in a report by the General Accounting Office (GAO). The report, which was requested by Senator William Proxmire (D-Wis.), criticizes the EPA for failing to meet its own environmental goals.

The report highlights the following key findings:

- The EPA has failed to meet its goal of reducing pollution by 25% by 1985.
- The agency has not developed a comprehensive plan to address pollution problems.
- The EPA has not consistently measured and reported the effectiveness of its environmental programs.
- The agency has not adequately addressed the needs of local communities in its environmental decision-making process.

The report recommends that the EPA:

- Develop a comprehensive plan to address pollution problems.
- Set clear and measurable goals for reducing pollution.
- Improve its monitoring and reporting of environmental data.
- Increase its consultation with local communities in decision-making processes.
- Increase its funding for research and development of new technologies to reduce pollution.

The report also notes that the EPA has made some progress in recent years but that more needs to be done to meet its environmental goals.

The General Accounting Office (GAO) is an independent, nonpartisan agency that provides oversight and evaluation of federal programs and operations. The report was requested by Senator William Proxmire (D-Wis.) and released on May 23, 1994.
Funds slated for animal shelter, flood-proofing

City plans for revenue sharing

The City Council Tuesday discussed plans for how to spend an estimated $2.3 million it will receive this year from the federal government's general revenue sharing program.

The general revenue sharing administration said the city can use the funds only for programs and projects related to public safety, social services and general government. Federal guidelines prohibit using the money to pay the city's capital improvement programs, public transit services, police and fire departments, public library and social services.

A scheduled work session on the administration's guidelines was canceled because the council was unable to get a quorum.

Part of the funds may also be used in remodeling and construction, according to department heads.

The city will receive its share of the money in three installments. The first payment will be in May, and the second will be in July. The final installment will be in October.

All three payments may be used for any purpose described in the general revenue sharing program, according to the city's guidelines.

UI included in sex discrimination charges

EEOC to investigate city housing complaints

By MAUREEN CONNELLY

Mid-Winter

The development of a new hospital in town, a threat to the city's major employers and a possible change in the city's tax structure have increased the pressure on city officials to find a new location for the city's hospital.

A new hospital in town would mean a loss of business for the city's major employers, including the city's two largest employers, Mid-Winter and the University of Iowa.

The city's tax structure could also be changed, which would mean a loss of revenue for the city.

The city's hospital is currently located in the south end of town, near the hospital's main entrance.

The city council has looked at several possible locations for the hospital, including the city's downtown area, the east end of town and the north end of town.

The city council is expected to make a decision on the hospital's location in the near future.

School board, teachers reach contract settlement

By ROD DAVIS

Mid-Winter

The Iowa City School Board and the Iowa City Teachers Association have reached a tentative agreement on a new contract.

The agreement includes a raise for teachers and some changes to the school district's personnel policies.

The agreement also includes provisions for teachers to receive extra-curricular pay for coaching and counseling, and for teachers to receive extra-curricular pay for extra-curricular activities.

The agreement is expected to be ratified by the school board at a meeting later this month.
**Reservoir**

Reservoir

Recent heavy rains have raised the Cherryville Reservoir past its threshold for surplus. According to George E. Johnson, chief of the Iowa City Water Department, the reservoir is now full to its capacity. Johnson said the level has risen by 5 inches in the past week. He added that the reservoir should drain with an increased daily rate of 5 inches.

**Reappraisal**

The Iowa City Reappraisal program officially begins today. Scheduled to begin in May, this year’s reappraisal will cover all residential property in the city. According to city manager Victor J. Backer, the process involves an evaluation of each property to determine its current market value.

"All property will be assessed at 21 percent of market value," said Backer. The reappraisal process is designed to ensure fair and equitable taxation.

**FROG PLAY-The Iowa City School District will present FROG PLAY at 7 p.m. in the IMU Lucas Dodge Room for new students and their families. The event is part of the Welcome Week activities for new students.

**ORIENTATION Campuses**

Home visits to refugees

The Iowa City Community College (ICC) and the University of Iowa (UI) are conducting home visits to refugees who have recently arrived in the area. The visits are part of the Reappraisal program, which includes orientation and support services for new residents.

**TICKETS-Tickets are available for the annual competitive exam for the Frank Johnson Awards. The exam will be held at 6 p.m. in IMU Lucas Dodge Room. For more information, contact Nancy Coucouvanis, 319-335-1234.

**REAPPRaisal**

A 50-year-old man, who has been in the business for 20 years, said, "People in the business are asking me to accept different kinds of patients. I think that's a mistake because I'm not interested in people who cause too much trouble for the taxpayers." He added that he is not interested in patients who are addicted to drugs or alcohol.

**Spanish Department Chairman responds to DI articles**

By Professor Oscar Fernandez

I appreciate this opportunity to respond to the article which appeared in the Daily Iowa Department on Spanish and Portuguese, of which I am chairman, although I do not write as the former chairman of that article. My purpose in writing is to present some additional information on the topic discussed in the article.

I think the article gives an accurate representation of the Spanish Department, including our programs, faculty, and students. It also highlights our department's contributions to the University of Iowa community.

I would like to address some of the points made in the article. First, I disagree with the statement that our department is not well-known. In fact, our department is well-respected and has a strong reputation within the academic community.

Second, I believe that the article misrepresents our department's research. Our faculty are active in research and publish their work in reputable journals and conferences. We are committed to advancing knowledge in the fields of Spanish and Portuguese studies.

Finally, I would like to clarify some of the statements made about our department's budget. Our department is well-funded and has the resources needed to support our programs.

Overall, I believe that our department is strong and has a bright future. I encourage anyone interested in Spanish and Portuguese studies to consider our department as a valuable resource and to support our programs.

**The chairmanship**

As my role as chair of the DI continues, I will work to ensure that the interests of our department are well-represented and that our students and faculty are supported.

I will work closely with the DI administration to ensure that the department's needs are met and that our programs continue to thrive.

I believe that our department has a strong foundation and a bright future. I am committed to working with the DI administration to ensure that our department remains a vibrant and dynamic community.

**The summary**

The article that triggered this response was published in the Daily Iowa Department on Spanish and Portuguese programs.

I believe that the article misrepresents our department and its contributions to the University of Iowa community.

I am committed to ensuring that our department's voice is heard and that our programs are well-supported.

I encourage anyone interested in Spanish and Portuguese studies to consider our department as a valuable resource and to support our programs.
An image of a page containing text about the impact of a boycott on wholesalers in Detroit, and the communication strategies employed by prisoners in a Vietnamese government prison.

The text discusses the difficulty wholesalers in Detroit had in obtaining meat, especially beef, as a result of a boycott initiated by an organization of American meat buyers. The article also describes how prisoners in a Vietnamese government prison communicated with each other, using coded messages and memorized sequences of code words.

Additionally, the text includes an excerpt about the impact of a movie starring Jane Fonda, discussing the controversy surrounding her actions in Vietnam and the reactions of American military personnel and political figures.

The text also includes an advertisement for OSCO Drug, offering various coupons for different products.

No further information is needed to answer the questions.
Survival Line

Direct Contact
Street Contact preview: Get a suggestion or maybe a prayer, and don’t forget the address of the Harvest Auditorium! Well, this coming Thursday’s your night, as Anne Washington, Washington’s nurse manager, will be handling the SURVIVAL Line Direct Contact phone from 7 to 8 P.M.

Flyin’ scene
I used some balloon-filmed balloons for a birthday morning art class for children. Where can I get the $2.00. .p.m.

I SURVIVAL
probably do just as well yourself by putting your child in warm around some-thing-accepted-A.A.
regarding times and at the present time, but they will you cannot enroll in the Creative Craft Center’s class or would maintain an enrollment of eight students. We suggest that if until brown .

buttered loaf pan and cover with buttered bread .

I suggest something for you if you are willing to

However, we do have a solution for you if you are willing to
direct contact, will you an answer you desire. They will give you the best balloon currently free.

Swim lessons for a baby
Is there somewhere around here where I can get swimming lessons for a baby of 8 months? We are very interested in the program.

The organized swimming programs in this area, as we’ve already pointed out for yourself, generally start at a minimum age of three years. One place for this is the University recreation center 300-900.

But there is a noticeably viable alternative for you SURVIVAL line check with Robert Allen, Activities director for suggestions. Allen thinks there may be a program such as you are seeking, but if it will be the substitute teacher, the hands-on experience and the setting will be more conducive to getting your child into the water and helping the child reach the next level. Allen suggests that if you are interested, the effects of temperature is likely to be far worse for a baby that is already older.

Pottery classes
I am the wife of a student and am interested in taking a beginning pottery night class somewhere. Where are the classes offered? A.A.

Pottery classes will be offered at the Creative Center. Amy Washington, ceramics director and former student at the U. S. L. Williams, ‘75, is all to blame to answer your questions regarding classes and availability. Washington says that there are at least five classes at the present time, but he will offer more next year that will be offered in time for the fall and spring terms. If you can’t enroll in the Creative Center’s class or would prefer to take your classes in another course while Backpacking up some of your friends you do the same.

SURVIVAL LINE cuts red tape, answers your questions, enrolls you in art classes, sets you off on a walk, lends you a jacket, or teaches you how to use a sewing machine. It’s your SURVIVAL LINE, The Daily Iowan, Communications Center, Iowa City.

Survival Goals
Very hot in protein, very low in cost, and surprisingly good in taste, your garnish is a great choice for a meat and potato type of meal. A simple recipe for a bland potato type of meal. Thanks to Tracy Spencer, 317 Hawkeye Ct. for this delightful potato type of meal.

Cheese and Bean Loaf
1 cup cooked beans
2/3 cup cheddar chives
1 cup shredded cheddar
2 Tbsp. dry mustard
1 Tbsp. salt
2 Tbsp. milk
1 egg, well beaten
1/2 cup cooked rice
This mixture is cooked together in a loaf pan. Generous portions of this mixture are served with a vegetable or fruit type treat. It is a hearty and economical type dish.

**Wednesday’s Child is grotesque**

In a grotesque sort of way, Wednesday’s Child is the story of how a young girl, whose mother is sickening slowly, is able to kill her by, among other things, passing her mucus before she has actually formed it. The girl is having an abortion when the physician shows her the cartilage to her nose and the mucus that is part of her head. The girl does not feel anything for the woman and fails to complete the abortion. The patient’s mother asks her husband to help her, but he refuses. She is punished severely.

From bricks to caravans...to film

By STARLA SMITH

Film Review Editor

In 1963 a boy was born in Czecho-Slovakia who dreamed of becoming a lawyer; he didn't. Instead he grew up to be a bricklayer. A bricklayer who used to be a bricklayer, steel worker, baker's apprentice, and lived with gypsies for a year. His name is Ivan Passar, and throughout the film, "Ivan Passar," the back of his shirt is always for different reasons, no including film. He grew up in a Czech school through a Monday we left Prague. There he met a one friend on an old friend to be a lawyer. He shifted slightly in his chair then. puffed again on his cigar and smiled gently as he talked on. Holding his cigar with his small well-shaped hand. With an eye staring intently ahead. You get to see most people's you'd never met, and nobody is any telling you. There is nothing like it. And that's what I like about the gypsies. Peace and love and giving, it's an extension of his hand. His monologues are beautiful and flowing. And an expression of passion.

Ivan Passar

Lesson

"So I got to know different kinds of people and

outlaws. They always have difficulty to survive.

Everything is conditioned. But they are very bright.

Although they hide, they are fantastic psychologists.

How have I managed to get what I have accomplished?

In every instance I have used my preference for a

featureless or direction is that I get it."

"There's something that happens when you travel

constantly. You see many faces, you hear many

voices and hang-up behind you continuously. And I

remember ever since the Czech government decided

to use us nomadic people in the country and they are

hard to control. So in order to be acceptable to them,

the government made up the camp of all the gypsies in the

country owner aming at it.

"I woke up, thought it was a horrible nightmare. I

saw that they were taking out vehicles. Peace and

love was of torture I was one of the lucky

ones to survive."

"It's something I have to do, but I don't trust

many of them. I'd rather you came to me.

"And you'll have to talk to me. You can't talk

yourself out of a hole."

"If you prove to be a subject. You need a certain kind of pressure to build

yourself. But that's what I like."

"I don't know why."

Passar seemed at times to show a certain pride in his"I'm a gypsy. That's the hottest class in the collected lives

in society. You get to see most people you've never

meet, and nobody is any telling you. There is nothing like it. And that's what I like about the gypsies. Peace and love and giving, it's an extension of his hand. His monologues are beautiful and flowing. And an expression of passion.

By The Associated Press

Baseball's national stage is set for the spring-training season and a media blitz is already stressing the importance of the 12-game World Series.

The Yankees, who were swept by the Red Sox in the 1971 World Series, are facing the Dodgers in their first meeting of the season. The Yankees have won three World Series titles in the last four years, while the Dodgers have won the last two.

The Dodgers, who are favorites to win the World Series, are facing the Yankees in the first game of the series. The Yankees are looking to avenge their loss to the Dodgers in the last World Series.

The Yankees are favorites to win the series, but the Dodgers are not to be taken lightly. The Dodgers have a talented young core, led by Carlos Beltran and Yasiel Puig.

The series will be held in Los Angeles from April 3 to 5, and then in New York from April 6 to 8.

The series will be a showcase for the young talent in both teams, as well as a preview of what's to come in the World Series.

The Yankees have the edge in experience, with 10 World Series titles to the Dodgers' 11. But the Dodgers have the home-field advantage and a young core that can make a difference in the series.

The series will be a battle of the best, and the outcome will be decided by the performances of the pitchers and the young talent on both sides.

Bombsing for peace in Cambodia?

WASHINGTON (AP) — Secretary of Defense Elliot L. Richardson said Tuesday the United States should join in a peace conference in a Mekong delta village.

Richardson's proposal was made during a round of cease-fire talks in Thailand.

Richardson added: "The United States should sign the agreement to bring about a peaceful solution to the war in Southeast Asia." Richardson also said he could not answer the question of what President Nixon would do if the cease-fire talks fail.

Richardson said that his proposal would require the United States to negotiate a cease-fire agreement in accordance with the agreement text.

Richardson added that the United States would not participate in any cease-fire talks unless there was a willingness to negotiate a cease-fire agreement that would bring about a peaceful solution to the war in Southeast Asia.

Microwave ovens prove harmless

Amana oven suit against Consumer's Union

Amana, Illinois (AP) — Amana Refrigeration Inc. has filed a complaint with the Federal Trade Commission against Consumer's Union, which last month questioned the safety of microwave ovens.

The complaint was filed against Consumer's Union, publisher of Consumer Reports, on behalf of a California manufacturer of microwave ovens.

The complaint also included a charge against Amana, a California manufacturer of microwave ovens, for促销, alleged that the Amana microwave oven is unsafe and that Amana has failed to provide adequate safety instructions with the oven.

The complaint also included a charge against Amana, a California manufacturer of microwave ovens, for promotional practices that it alleged are unsafe and that Amana has failed to provide adequate safety instructions with the oven.

Amana, for its part, has denied the allegations and has stated that its microwave ovens are safe and that its promotional practices are in accordance with the safety regulations set by the government.
