Secretary of State Henry Kissinger has resigned from the Ford administration, according to an official source close to the President. Kissinger has been working on a plan to work out a peaceful settlement to the Arab-Israeli conflict. The President has reportedly been considering Kissinger's resignation for some time.

President Ford met with Kissinger on Tuesday to discuss the situation. Sources close to the President say that Kissinger's resignation was not unexpected and that the President had been considering it for some time. Kissinger himself reportedly made the decision to resign on his own.

Kissinger's resignation is expected to have a significant impact on the foreign policy of the Ford administration. Kissinger has been a key figure in foreign policy for many years and has been involved in many of the major foreign policy decisions of the past few decades.

It is not yet clear what the future holds for Kissinger. He has been a controversial figure in the past and his resignation may cause some unrest in the foreign policy community. It is also not yet clear who will replace him in the role of Secretary of State.

In the meantime, the President will have to find a new Secretary of State who can work with him to achieve his foreign policy goals. This will be a difficult task as he will have to find someone who can work well with Congress and who can be trusted to represent the interests of the United States.

Overall, this is a significant development and it remains to be seen how it will affect the foreign policy of the Ford administration.
Senate will fight fee increases; UPS wins constitution battle

By KRIE JENSEN

The Senate will meet today in the auditorium at 7 p.m. to vote on an amendment that would increase fees for students. The Senate meeting will be open to the public.

The amendment, proposed by Senator Tim Huyck, is Article III, Section 7. The amendment states that the Senate has the authority to increase fees for students. The amendment was proposed by Senator Tim Huyck, who is a member of the Senate Finance Committee.

The Senate will vote on the amendment today at 7 p.m., and the vote will be open to the public. The Senate meeting will be held in the auditorium at 7 p.m.

The amendment was proposed by Senator Tim Huyck, who is a member of the Senate Finance Committee.

The amendment states that the Senate has the authority to increase fees for students.

The Senate meeting will be open to the public, and the vote will be open to the public.

The Senate meeting will be held in the auditorium at 7 p.m.

Year of the Long Knives: Chile Since the Coup

The Indian Ocean, Big Powers, and Africa

Editor's Note: The following article is an update of an article that appeared in The Daily Iowan on September 30, 1971. The article was written by Archibald Cox, former special prosecutor on Watergate, and the author of Good Hope to Cape Guardafui.

The company recently submitted its annual report, which stated that it had been granted permission by the government to continue its operations in the area.

The plan was allegedly rejected, however, President Pinochet announced a new plan to use U.S. corporate buildings in their current form.

Joseph Collins of the Institute for Policy Studies in Washington, charged that U.S. actions in Chile were a strategy to cause economic chaos in the country.

A State Department official officially indicated that the U.S. had abandoned the idea of using U.S. corporate buildings designed to cause economic chaos in the country.

The state has seen three separate American initiatives in central America, which have been described as "deeply damaging in their financial, political, and military aspects, and raise serious questions about the future of the hemisphere.

The policy of the Popular Front government in Chile is basically one of national self-defence, with the military and the police being the instruments of national self-defence.

The Chilean Communist Party has been one of the most significant actors in the political life of the country, and has played a key role in shaping the course of events.

The contradiction is, of course, that the military junta rules over a country that has been described as "centralist" and "authoritarian." A U.S. official once remarked that the military junta is "a truly exceptional case."
There's one way to get better schools... without higher property taxes.

Let a teacher tell you how.

Any teacher will tell you that if we want better schools, we have to make a federal case out of it.

We have to make the federal government rearrange priorities so education is at the top of the list when funds are allocated. That way, local property taxes won't have to go up. Essential school services can continue. And quality education can be a reality for all our children.

Toward that end, teachers are campaigning right now to enact a Pro-Education Congress. We've studied the voting records of all incumbents and have issued a Congressional Report Card that tells who voted for what. We've done our homework on all other candidates, too. And we endorse those Senators and Congressmen we think will provide more federal funds for schools.

So don't be surprised if a teacher drops by to tell you what we think. Review the facts that he or she has to offer. And remember—your vote makes the difference in the education of your child.
Coogan brings new order to women's center

BY CHRISTINE BRUM
Coogan brings new order to women's center

The women's center at E. Market St. is such a busy place that even the door gets crowded. Mary Coogan, the woman behind the door, is working to find a house for a group of women relocated from Cole Park. They collected a sign on the front porch.

Most of the women in the group are young and have left home for a variety of reasons. Some are pregnant and need a safe place to stay before they can find a permanent home. Others are fleeing abusive relationships.

Mary Coogan has been working with the group since they first arrived. She organized a meeting that afternoon. They decided to try

Mary Coogan

I'm not sure how many women there are in the group, but we're working to find a solution. The women have expressed interest in a cooperative living arrangement. They are looking for a place where they can support each other and build a sense of community.

Mary Coogan

It's important to me that the women feel safe and supported. I'm working to find a location that meets their needs. We have to consider transportation, privacy, and the ability to accommodate the group's changing numbers.

Mary Coogan

I'm also working with a group of volunteers to plan activities. They're interested in workshops on topics like

Mary Coogan

I'm excited about the potential for the women's center to become a hub of activity. We're planning to have regular meetings and workshops, as well as opportunities for women to connect with each other.

Mary Coogan

I'm grateful for the support of the community. We've received donations of

Mary Coogan

I'm looking forward to seeing the center transform into a place where women can find a sense of belonging and support.

Begin the High days

By BESS HUGEN
Art. Features Editor

It is the year 1909. The city of Iowa City, en-
compassing the University of Iowa and the
City Park area, is buzzing with activity. Many
people have gathered in the Hill-Park to be
part of the nature tour offered by the
Cedar Valley Parks and Recreation Dept. in
celebration of Rosh Hashanah. The service
this Monday evening is a joyous occasion.

As the sun sets over the Iowa City area,
park naturalist-zoo manager David Calhoun
will be leading a “dew walk.”

So everyone is ushered below Rabbi
Dowered’s and Cantor Simons’ book of
music, and we all stand still, about
11 directioas would let off plating the
dew. It was done. We spent that much time
in the City park area. Hikes throughout the city
during the month are sponsored by the
Recreation Dept.

As the service this Monday begins, the
rabbi, who came to Iowa City only two
days ago, begins talking about the
beginning of the new year. The service
during the month is full. He declares
before the Union, in families with
children, honey suckle, cranberry.

What's that? A 54 walk-on tackles three starting backs in the home opener against No. 22 Michigan State. "It's possible," said Coach Bob Cochrane, who was no doubt kidding about his Michigan team. He might only do it by losing two games in a row.

Lopos did indeed come to play. With his team trailing by 10 in the fourth period, Lopos ran out a renovated end and promptly recovered a fumble that should have been his.

Although that absence of defensive awareness was the Big Ten, Lopos packed a hefty punch. "He's a fightin' man," said Cochrane.

One of his best efforts came when that big UCLA tackle bit his finger on the handle and ran out across midfield. "He won't be able to come back with Lopos hitting him like that," said Cochrane.

Little Lopos a big hit

BRIAN SCHAINZ

---

The Iowa football season has been marked by the absence of the early excitement that comes with the beginning of any campaign.

The Hawkeye defense has been steady, and the offense has been inconsistent. The team has struggled to find the right chemistry.

With the season winding down, the Hawkeyes are hoping to build some momentum for the upcoming games.

---

The government said that a cut in the federal budget would result in a 10% reduction in spending next year. The decision was made to cut back on non-essential programs and services.

---

The government has announced that it will be issuing new series of stamps to commemorate the 75th anniversary of the Hawkeye football program.

---

The government has also announced that it will be hosting a series of public hearings to gather feedback on potential changes to the state's education system.

---

The government has said that it will be releasing a new report on the state of the economy, which is expected to show modest growth in the coming months.

---

The government has announced that it will be increasing the minimum wage for the state.

---

The government has said that it will be proposing new regulations for the energy sector to promote renewable energy sources.

---

The government has announced that it will be expanding its efforts to combat climate change with new initiatives and policies.

---

The government has announced that it will be hosting a series of public forums to discuss potential changes to the state's immigration policies.

---

The government has announced that it will be increasing funding for public transportation systems to improve access to travel for all citizens.

---

The government has announced that it will be proposing new regulations for the financial sector to promote stability and reduce risks.

---

The government has announced that it will be hosting a series of public hearings to gather feedback on potential changes to the state's healthcare system.

---

The government has announced that it will be releasing a new report on the state of the environment, which is expected to show continued improvements in the coming months.

Anniversary Album

The STEREO Shop

Four years ago we opened The Stereo Shop in Iowa City, a small business built upon hopes of bringing finest quality stereo equipment to this area at reasonable prices. Just two years later growth pains prompted the move to our new store at 409 Kirkwood Avenue. During this time we have become the leading stereo dealer in Iowa City.

So for the remainder of September we're celebrating these important dates in our history, and we'd like you to join us. We invite you to read through the following pages, then visit our store to hear what you've seen. We'll have a free gift waiting for you: an informative guide to preserving your valuable record collection—the WATT'S Record Care Book.

SERIES SUBSCRIPTIONS ONE OF TWO WAYS

SEASON COUPON BOOKS will be mailed to you. Please mail to me season coupons for the four productions. I will exchange my coupons for reserved seats for each production in advance of general sales.

Why buy from The Stereo Shop?

When the Stereo Shop opened in Iowa City several years ago we decided that we would base our business upon a few knowledgeable people and good products. With this in mind, we have the confidence to stand behind our product lines with the following policies.

WARRANTY & SERVICE: All units we sell are covered by the manufacturer’s warranty on parts and labor which we honor through our store. If you have problems with any of your components during the warranty period, simply bring the unit or units to us for repair. If we can’t fix your unit right away, we’ll loan you a comparable unit so you won’t be without music while the service is being performed. You won’t spend a dime for service and you won’t be without music at The Stereo Shop.

HOME TRIAL: Above all we want you to be happy with the stereo system you purchase from us. We encourage our customers to try a system in their home before making a final decision on the specific components. If it doesn’t meet your needs, bring it back along with all packing material and warranty cards and we’ll help find the right equipment for you.

EXCHANGE ON DEFECTIVE UNITS: If any of our components fail to operate in the first couple weeks, bring it back and we’ll replace it with a new one, providing you bring in the defective unit along with all boxes, packing and unfilled warranty cards.

TRADE-INS: If you trade in a unit purchased at The Stereo Shop, we will guarantee at least 30% of the original purchase price back within the first year. (Providing the equipment is still in excellent condition.) We also welcome older trade-ins and give fair prices to allow you to upgrade your system.

CONSIGNMENT: We offer a consignment service for items we wouldn’t normally take on trade. We’ll sell your unit for you and turn the cash over to you.

WAYS TO PAY: The Stereo Shop accepts Mastercharge and Bank Americard charge cards. Or you can pay by cash or check, and bank financing is available through the store.

GETTING EVERYTHING TOGETHER: Before you leave the store with a stereo system, we’ll furnish speaker wire and complete instructions to assist you in hooking up your stereo gear. If you wish, we will deliver and set-up the system in your home or dorm free of charge.

KNOWLEDGEABLE SALES PERSONS: The people who work at The Stereo Shop are highly trained and genuinely interested in quality hi-fidelity stereo equipment. Our goal is to give you the best stereo system possible for the money you wish to spend.

WE ENCOURAGE BROWSERS: We like to have people stop in, look around and pick up literature on new equipment. And of course you’re welcome to bring your favorite records to use to compare speakers and other equipment.

A good component stereo system is no small investment. We feel this is the kind of service and protection you should expect for your money. We want you to be satisfied with your purchase for we feel that if you are, you’ll probably mention The Stereo Shop to your friends. And we feel that is a pretty efficient means of advertising.

In the fall of 1970 we introduced The product we believed comparable to that available at a price nearly everyone could ever have the heart of over 10 Iowa City. At The Stereo Shop you same commitment to you in other quali selected from ESS, Sony, Dual, Yamaha $2000, we invite you to critically eval system choices, which are featured on

In the fall of 1970 we introduced The Advent Loudspeaker, a product we believed comparable to the finest loudspeakers available at a price nearly everyone could afford. Advent speakers now form the heart of over 1000 stereo systems in Iowa City. At The Stereo Shop you can expect to find the same commitment to you in other quality products we have selected from ESS, Sony, Dual, Yamaha, etc. Be it $50 or $2000, we invite you to critically evaluate our products and system choices, which are featured on the following pages.
We can get you started in stereo for less than you expected. $229.00

Our Advent-Concord-BSR-Shure System now makes quality stereo sound available even on a limited budget.

We choose our BSR system with the same detail that we give to more expensive systems—that means that we feel it gives the best quality for the dollars spent. Our Concord-BSR package offers the benefits of quality component stereo at a budget price.

The Concord CR80 AM FM stereo receiver gives far beyond "budget" responses, both in specifications and appearance. Its fine walnut cabinet, sharply designed contemporary panel and edge-lighted tuning dial make it look as good as it sounds. The CR80 delivers ample power to drive the Utah or Utah-Advent twoway speakers with ease. The BSR 300-AX turntable includes a dust cover and magazine Shure cartridge to complete the system. Quality sound and reliability are now available in a stereo component system at a marked price.

$319 now buys a music system which sounds truly wonderful.

Our Advent-Concord-BSR-Shure system costs only $319, and we'll hook it up free if you like.

If you want a stereo system with absolutely convincing sound, but don't have a lot of money to put into it, our Advent-Concord-BSR-Shure system is worth investigating.

The Advent is the most satisfying low-cost loudspeaker available. It has wide range, higher efficiency and greater power-handling ability than any other system in its price class, and its overall sound quality is close to that of the best speakers.

The high and low-frequency drivers in the Advent are of a quality and cost usually associated with speakers of twice the price. (The magnetic structure in the Advent is so massive as to be in the original Advent loudspeaker.) The cabinet is of warm-white matted plastic, with rounded corners and an aluminum grille. It looks very much at home in a home.

The Advent7 makes it possible for us to assemble a component system costing $319 which supplies meaningfully better performance than was ever before available near this price.

The Concord CR-80 receiver delivers 24 watts, BSR has eight tubes, across the entire audio band: enough power to fill a big room (or a small room full of people) with quality sound, even if that sound is bass-demanding hard rock.

The BSR 319-AX does all it is supposed to do — without the clacking and bumping that so often attends a inexpensive change. It comes with a dust cover, base, and a Shure magnetic cartridge with a diamond stylus. Its glide cueing mechanism will take good care of your records.

The price of the individual components is $280.60, which leaves an amount of $319 for the complete system for $319. Come in and look; we think you'll be impressed. We are.

Hear all the music for only $419.00

This full-range Advent-Sony-BSR-Shure system costs only $419, and we'll hook it up free if you like.

Long after the dust has settled on other things you buy, a good stereo system will go on giving you a tremendously amount of pleasure. Once music comes alive in your living room, you'll want it to stay forever.

To make it come alive, we're offering a stereo system with absolutely convincing sound at an absolutely convincing price. The system is centered around the Advent/2SR low-end loudspeaker, really amazing two-way system that delivers full-range sound to every corner of the room. A few minutes listening will tell you why Advent are best sellers with an unbeatable word-of-mouth reputation that just keeps on growing.

To power the Advent/2SR, we've picked the Sony M50A stereo receiver, which not only has the right amount of power to do the job properly, but is one of the finest that we've found.

Our No-Compromise Advent-Sony-DSR-BSR system is $619.00—better at home than it drives.

If you have 100-700 to put into a stereo system, there are lots of really good receivers and record players to choose from, but there is one outstanding high-fidelity loudspeaker at the end of the system.而t is why some systems wind up sounding less impressive at home than they did on the salesroom floor.

The system we're featuring in this ad is one that will bring music alive—in your living room, and stay there.

The system features the remarkable Advent loudspeaker, a twoway speaker system that has become best-sellers by offering cost-no-object quality sound at a price people can afford. Advent designed these speakers to cover the full low-to-midrange spectrum, and it is in this area that they are most expensive on the market; the fact that they do so accounts for their unmatched word of mouth reputation.

We Believe A Stereo System Can Be Better At Home Than It Drives.
**ADC System**

started in stereo for expected. $229.00

The SR-60-AX cartridge with a diamond stylus.

A full range Advent-Sony-BSR-ADC system costs only $419, and we'll hook it up free if you like.

The system is centered around the Smaller Advent Loudspeakers, really amazing two-way systems that offer the full sonic range of music and compete in every audible respect with the most expensive on the market.

The components we've picked the Sony 6036A stereo receiver, which not only has the right amount of power to do the job really well, but also has the qualities needed for super菲 (cord AM) reception.

For playing records, we've offering the BSR 60-AX automatic turntable, and paired with it, a combination that will treat your records gently and accurately.

If you bought these components separately, they would not cost and be well worth it. At our special system price, they're a really fine bargain.

In case you have any doubts about your ability to hook equipment up properly, it's so quick and simple that we'll be happy to do it for you at no cost.

Believe us, nothing you can buy right now will give you more or better-sounding speakers than a good stereo system.

We Believe A Stereo System Should Sound Better At Home Than It Does On Paper.

**Our No-Compromise Advent-Sony-Dual-Shure System**

If you have SR-60-AXs put into a stereo system, there are lots of really good receivers and record players to choose from, but very few speakers that hold up that important part of the system. Which is why some systems wind sounding less impressive at home than they did in the advertisement.

The system we're featuring in this ad is one that will bring music alive—on any good turntable, any living room. Its sound comes out of the marvelously Advent Loudspeakers, the same speakers experts have become fasteners to of this system and used in all their best systems. When you've listened to the Advent designed three speakers to cover the full tonal range of music and compete in every audible respect with the most expensive on the market; the fact that they do so accounts for their unmatched word of mouth reputation.

To power these speakers is a way that will give full satisfaction. From background music to hits made-up of the neighbors concert tomorrow. We've picked the Sony 6036A stereo receiver, a fine unit with clear, detailed sound, superb菲 and AM reception, and at the power you'll ever want.

And for playing records the way they should be played, we're offering the Dual 60-AX automatic turntable with Shure 4400ED cartridge and diamond stylus—a combination that will keep your records sounding new for a long time to come.

All the above systems are available through United Audio and you get a price of $419, and are more than worth it. All the better, then, that we can offer this special system price of $619.

**Hear all the music for $419**

Costs only $419, and we'll hook it up free if you like.

This full-range Advent-Sony-BSR-ADC system costs only $419, and we'll hook it up free if you like.

Long after the dust has settled on other things you buy, a good stereo system will go on giving you a tremendous amount of pleasure. Once music comes alive in your living room, you'll want it to stay forever.

To make it even more, we're offering a stereo system with absolutely nothing needed in an absolutely convincing price. The system is centered around the Smaller Advent Loudspeakers, really amazing two-way systems that offer the full sonic range of music and compete in every audible respect with the most expensive on the market.

The feeling that will take room (or a small complete system for a music system.

Quality sound and reliability are now available in a stereo component system for a modest price.

The components we've picked the Sony 6036A stereo receiver, which not only has the right amount of power to do the job really well, but also has the qualities needed in super菲 (cord AM) reception.

For playing records, we've offering the BSR 60-AX automatic turntable, and paired with it, a combination that will treat your records gently and accurately.

If you bought these components separately, they would not cost and be well worth it. At our special system price, they're a really fine bargain.

In case you have any doubts about your ability to hook equipment up properly, it's so quick and simple that we'll be happy to do it for you at no cost.

Believe us, nothing you can buy right now will give you more or better-sounding speakers than a good stereo system.

Our No-Compromise Advent-Sony-Dual-Shure System

If you have SR-60-AXs put into a stereo system, there are lots of really good receivers and record players to choose from, but very few speakers that hold up that important part of the system. Which is why some systems wind sounding less impressive at home than they did in the advertisement.

The system we're featuring in this ad is one that will bring music alive—on any good turntable, any living room. Its sound comes out of the marvelously Advent Loudspeakers, the same speakers experts have become fasteners to of this system and used in all their best systems. When you've listened to the Advent designed three speakers to cover the full tonal range of music and compete in every audible respect with the most expensive on the market; the fact that they do so accounts for their unmatched word of mouth reputation.

To power these speakers is a way that will give full satisfaction. From background music to hits made-up of the neighbors concert tomorrow. We've picked the Sony 6036A stereo receiver, a fine unit with clear, detailed sound, superb菲 and AM reception, and at the power you'll ever want.

And for playing records the way they should be played, we're offering the Dual 60-AX automatic turntable with Shure 4400ED cartridge and diamond stylus—a combination that will keep your records sounding new for a long time to come.

All the above systems are available through United Audio and you get a price of $419, and are more than worth it. All the better, then, that we can offer this special system price of $619.
When you spend more than $800 on a stereo system, you expect to hear a lot of music and very little distortion.

Combining the famed low-distortion ESS Bell speakers with the Yamaha CR800 receiver provides a clarity of sound far beyond that attainable with conventional stereo systems. That means you hear more music, more information from the records and tapes you play through this system.

The Yamaha CR800 AM-FM receiver delivers a startling clean 35 watts per channel of continuous power into the bookshelf ESS AMT-3 speakers, which incorporate the renowned Bell element for mid-range and high-frequencies. The CR-400 has a superbly sensitive, low distortion treble section to bring you more FM stations than any other receiver in its price range.

Our Yamaha CA 1000-ESS "Rock Monitor" system will deliver both volume and clarity approaching concert levels.

The CR-400 automatic turntable, complete with a Shure M91E0, combines precision craftsmanship with sensitive low distortion tuner section to bring you more from program sources with the least possible distortion and without undesirable coloration.

Culver raps military

Culver cited his vote in opposition to federal funding of the B-1 bomber, the Tet offensive, extended conscription, and continued aid to Vietnam. He said further proof low oil may raise taxes to trim $5 billion from the present proposed defense budget of over $36 billion, $9 billion more than last year.

"I think that when we talk about fiscal responsibility and when we talk about cutting back in the budget, I just can’t even talk about it in a serious way withoutطرق my fingers about cutting back in the military budget," he said.

"You gotta make where the world is now, and that’s where we’re at," he said.

Culver, 42, Democratic candidate for the U.S. Senate, said approximately 19 percent of the student body at the U.S. Naval Academy that he has been a "long-time admirer." He cited his support for the M91ED cartridge and continued aid to Vietnam.

Culver said he always has carried the critical and personal aspect of the military security role in society. He said he always has considered how that role is consistent with foreign policy and perhaps the broader role in a democracy.

He said he always has considered how it’s been consistent with the broader role of a democracy, how it’s been consistent with the broader role of a democracy, how it’s been consistent with the broader role of a democracy, how it’s been consistent with the broader role of a democracy, how it’s been consistent with the broader role of a democracy.

Thus the clear need to...
