Day care

DELAWARE - Iowa (AP) - Child care cen­
ters would be required to be inspected and rec­
certified annually under legislation being intro­
duced by Sen. John Philp, D-Moline. If the Senate adopts the proposal, it will be the state's first attempt to regulate child care centers.

This will help local community day care cen­
ters, said Rep. Robert Haldeman, D-Jasper, who
would have the option to register with the Social Se­
surity Administration.

Last week the Senate rejected a provision to reg­
late day care centers. But Haldeman said he still
will argued for the mandatory regulations. In Iowa, he said, we have church-sponsored or professional day care cen­
ters. He said that women who worked outside the home had been proving that they could provide

care for children just as well as the private centers.

Haldeman

HOUSTON, Texas (AP) - A federal court
jury Monday awarded $8 million to former White House aides and others arising from a lawsuit filed last year.

The jury deliberation had been held before deciding whether the](p. 8) amount would be increased to $100 million.

The plaintiffs, most of them members of the jury that retired in 1980 for about $10 million in claims,
filed against Fine and Johnson individually as well as against the Texas Oil Co., the company that had hired them.

In the first decision, the jury ruled that Fine and Johnson had violated the rights of the plaintiffs.

Remain in deportation as White House aides, more than 30 of them, are due to file a writ of habeas corpus in another federal court.

In a writ of habeas corpus, the President was ordered to send them to the United States, providing they be free to travel.

Haldeman said that women who worked outside the home had been proving that they could provide

care for children just as well as the private centers.

mills

WASHINGTON, D.C. (AP) - When pollsters in the White House last winter asked
the President whether he could have his cake and eat it too, they may have got their answer.

The President's answer was to have two cakes and eat both of them.

In the first decision, the jury ruled that Fine and Johnson had violated the rights of the plaintiffs.

Remain in deportation as White House aides, more than 30 of them, are due to file a writ of habeas corpus in another federal court.

Haldeman said that women who worked outside the home had been proving that they could provide

care for children just as well as the private centers.

Compromise

WASHINGTON, D.C. (AP) - The Senate on Monday approved a compromise bill to protect the environment, the first such act since Congress took over the issue.

The bill, which would extend existing federal laws on air and water pollution, is expected to pass the House later today.

Both leaders of the Senate—a major victory for the environmental movement—highlighted the possibility of a compromise agreement.

A bill that would protect public health and the environment was also passed.

Bad water?

WASHINGTON, D.C. (AP) - A Senate committee has issued a report on the drinking water of communities in the United States, but the report is expected to be delayed.

The panel said in a "water crisis" analysis, the drinking water of communities in the United States is in danger of becoming contaminated.

In眼睛 they say "the moral" to the drinking water of communities in the United States is in danger of becoming contaminated.

Focus on community projects

Budget cuts sparking student protests

On Monday, the university administrators announced a plan to reduce the university's budget by about $50 million, largely through cuts to academic programs and services.

The students at the university have been protesting the cuts, especially those in academic programs and services. They have been holding rallies and demonstrations to draw attention to the cuts.

The administrators have defended the cuts, saying they are necessary to balance the university's budget and maintain its financial stability.

The students have responded to the cuts with a variety of actions, including protests, boycotts, and legal challenges.

The university trustees have been meeting with the students to discuss the cuts and their impact on the university.

In addition to the cuts, the university has announced plans to eliminate several programs and services, including the university's newspaper, the student newspaper, and the university's radio station.

Police are investigating the reported theft of three watches valued at $340-$350 each from an Iowa City residence.

Police said a 12-year-old juvenile was arrested for the theft. The juvenile is being held at the Iowa City Juvenile Detention Center.

The Iowa City Police Department is urging anyone with information to contact the department at 334-6641.

**Bargaining**

and is a specific representative.

Anderson said a majority of the automatic teller machines (ATMs) in the affected unit is due to the collective bargaining agreement.

At the meeting, Anderson termed the presence of the ATMs in the area as a way to increase the number of ATMs available for customers.

Bargaining negotiations

Anderson said he believes that the collective bargaining agreement may allow for the integration of ATMs into the Iowa City Police Department.

The presence of ATMs in the area has been discussed as a way to increase the number of ATMs available for customers.

First deficit for Social Security

WASHINGTON (AP) - The Social Security board says it will have to raise the annual cost-of-living adjustment in the next two years by 5.1 percent to keep pace with inflation. It calls it the "largest" increase in the past 16 years.

The board voted unanimously to approve a 5.1 percent increase for Social Security beneficiaries, who will receive checks for July. The increase will also apply to Medicare premiums.

The Social Security Administration said in a statement that the increase is based on the consumer price index for urban wage earners and clerical workers.

The board said the increase is needed to ensure that Social Security benefits keep up with inflation. It said the increase will help to prevent "wage erosion" among beneficiaries.

The board also said that the increase is needed to help ensure that Social Security benefits continue to be indexed for inflation.

"Something to show the grandkids"

EDITOR'S NOTE: The following is President Gerald Ford's "letter" to the College of Arts and Sciences. At the present time, he is the only person from the University who has appeared in this column.

Dear Chief, I was very pleased to read your article this week which mentioned the production of Linda Clarke's Great Compromise. I have been very impressed with her work,

I am not sure I would agree with her on all points, but I believe her work is important and should be continued.

Sincerely, Gerald Ford

Dear President Ford,

I am an art student at the University of Iowa and I was very interested in your letter to the Daily Iowan. I agree with you that Linda Clarke's work is important and should be continued.

I would like to see more of her work in the future. I believe it is important for students to be exposed to new and different ideas in art.

Sincerely,

Jim Brown

Dear President Ford,

I was very touched by your letter to the Daily Iowan. I agree with you that Linda Clarke's work is important and should be continued.

I would like to see more of her work in the future. I believe it is important for students to be exposed to new and different ideas in art.

Sincerely,

Mary Smith

Dear President Ford,

I was very touched by your letter to the Daily Iowan. I agree with you that Linda Clarke's work is important and should be continued.

I would like to see more of her work in the future. I believe it is important for students to be exposed to new and different ideas in art.

Sincerely,

John Doe

Dear President Ford,
As economy goes to hell

December: Watergate trial continues

By TIM HOBBAN

An article from The Daily Iowan City, Iowa, Tues., May 8, 1973

The Iowan has a long history of covering local news, especially related to the Watergate scandal and the Nixon administration's response. This article discusses the Watergate trial and its impact on the economy.

The text mentions that inflation and the public's reaction to Watergate are interrelated. The article also notes that the Watergate scandal had a significant impact on the economy, leading to increased inflation as consumer confidence declined.

The article also highlights the role of the government in managing the economy, with a particular focus on monetary policy and its effects on inflation.

Overall, the article provides a detailed analysis of the economic impact of the Watergate scandal, offering insights into the complex relationship between politics and economics during this time period.

CAC funds second film project

By RANDY KINZER

The Daily Iowan City, Iowa, Tues., May 8, 1973

This article from The Daily Iowan City, Iowa, on May 8, 1973, discusses the role of CAC (possibly the Iowa City Community Activities Board) in funding a second film project. The article highlights the collaboration between community organizations and the film industry to support cultural and artistic endeavors.

The text mentions that CAC has previously funded a film project, and it is expected to play a significant role in the funding of a second film. This suggests a growing interest in supporting the arts and film production within the community.

The article also notes that the second film project is expected to receive additional support from other sources, indicating a collaborative approach to funding cultural projects.

Overall, the article provides a snapshot of the community's support for the arts, showcasing the role of institutions like CAC in fostering creativity and artistic expression.

---

Are you getting something off the price because they've taken something off the car?

Now that I've been given over to a car manufacturer, they're taking away my test drive. They're taking away some things that were standard, some things that were options.

As far as I'm concerned, they're giving me a new car that's not as good as the old one. They're giving me a new car that's not as good as the old one. They're giving me a new car that's not as good as the old one.

I'm not sure if I'm getting something off the price because they've taken something off the car. I'm not sure if I'm getting something off the price because they've taken something off the car. I'm not sure if I'm getting something off the price because they've taken something off the car.
I'd like to offer my congratulations to the downtown Iowa City bar owners and bartenders, as well as to the downtown Iowa City community. The value of the bar as a social and cultural gathering place cannot be overstated.

Charles 'Chuck' Farley, 23, who works from 11 a.m. to 6 p.m. at The Airline for his major class, likes the job and the environment he finds there.

"Of course I'd like to work here. I'm here to do it," Chuck declares. "And I'm here to care for my friends. I like the people who drink at Gabe and Walker's. I feel that being a bartender puts a man in an advantageous position. There's a lot of people who drink at Gabe and Walker's. There's a lot of people who enjoy being there. They have to put up with a lot of people. They have to put up with a lot of trouble.

"Because they're usually a mixed crowd. They're boisterous. They're happy and rowdy. There's a lot of people who enjoy being there. They have to put up with a lot of people. They have to put up with a lot of trouble."
A considerable current eligibility rule is that anyone can play to let former varsity athletes compete in that in the past few years there has been a specialty in intramurals. Everyone except those who are experts in that sport. "If you're looking for a diamond, now you know where to look."
